KRYPTOK GLASSES
THE INVISIBLE BIFOCALS

Kryptoks (pronounced Crip-tocks) are made for people whose eyes need help for both near and far vision. The Kryptok lens combines near and distance vision in one pair of glasses, yet you cannot distinguish them from single-vision glasses. Kryptoks represent the best that science can do to give back to eyes that are growing old the perfect vision of youth.

Buy Your Ford Car Now

To make sure of getting a Ford car, buy one now. Don't wait until Spring, but buy now while deliveries are possible. Even next month is an uncertainty.

The number of Ford cars allotted to this territory is limited and specified. Even to get our allotment, we must have real, bona-fide orders for cars. Just so many cars allotted to us, just so many will get cars; will you be one of them? Those who order their cars now will be protecting themselves. If you would be forehanded, get your name on an order today.

Don't think you cannot use it if you get it now. The four seasons are all alike to the Ford car. It is a necessity every month of the year. Besides, the Ford car is lowest in up-keep and easiest in operation. And the new Ford electric starting and lighting system makes driving more convenient. Your order for either open or enclosed cars will have our prompt attention.
