Gilliam & Bisbee, local hardware merchants, are now located in their modern new home at the corner of Main and May streets, where they extend a cordial invitation to their friends and customers to call and look over their quarters. See their announcement in another column of The Gazette-Times.

In the Gazette-Times will be found advertising of the same artistic design as appears in the large dailies and weekly magazines throughout the country. Particularly would we call your attention to the Spring announcement of Minor & Co., the local representative of the Ed V. Price Co. of Chicago, merchant tailors.

A number of local people have been complaining recently of being annoyed by the pernicious activities of a "peeping Tom" about their premises. A "peeping Tom," if you want to know, is one of those fellows who is eternally exposing his anatomy to the business end of a sawed-off shotgun, as he is continually trying to peer into the privacy of other people's affairs.

JAP WOMEN DEMAND MUCH

Their Ideal Man Would Have to Be Something Above the Ordinary Run of Humanity.

The Japanese magazine Chouquovo Gohano (virtuous woman) invited its Japanese women readers to send in their opinions on what constitutes an ideal husband. Here are the thirteen virtues they demanded of a Jap hubby:

- He should not be greedy.
- He should not spend too much time "primping."
- He should have a manly appearance.
- He should not be too familiar with other women.
- He should express himself clearly.
- He should make prompt decisions.
- He should have high ideals.
- He should never show himself in the kitchen.
- He should never criticize the coffee or the gowns of his wife or any other women.
- He should not bore his wife by telling her all his pet tastes.
- He should not drink too much.
- He should not be a dude.
- He should not be too jealous.

Invisible War Vessels.

Owing to the enormous range and accuracy of modern naval guns it is highly important for small war craft which depend upon speed rather than armor plate to weather the attacks of the enemy to render themselves as invisible as possible. Heretofore a dark gray paint has been considered the best color to apply to a war vessel. Now experiments are being made with varietal colors. Ideas are being borrowed from the mimicry of nature. We find certain animals coated with spotted fur and other ones upon the nature of their environment. In exactly the same way certain naval authorities are trying to render torpedo boats invisible by painting wavy stripes on them, which at great distance are scarcely distinguishable from the natural wave formation of the ocean's surface.

Bidding for Wine Tanks.

Wooden wine tanks made useless in California by prohibition still can be counted in the asset column of their owners. Buyers from Argentina

France and Italy, are already bidding for well-summered oak tanks. Metal wood tanks are not as popular, but may be purchased by the foreign buyers.

H. Romero-Day of Buenos Aires is the first foreign buyer in the field, says an exchange. He is trying to obtain options before Pierre Martens of Paris and M. Collet of Rome arrive in California. Only 4000 of the 14000 wine tanks in the state are of oak. It is said Mr. Romero-Day is authorized to buy a shipment of knocked-down tanks for shipment to his country.

Norway's Building in London.

The British dominions now have great buildings in London, where their activity is centralized and proclaimed to the world. So far no foreign nation has an establishment of this kind, but Norway has acquired Victory house, Charing Cross, where Norwegian activity in London will be centralized. The sum paid for the building and site is \$1,125,000, the whole amount being raised by public subscription in Norway.

Some Reasons Why You Should Be Proud of Living In Morrow County

The 1919 wheat crop was over 1,500,000 bushels, or approximately 90,000,000 pounds; from this amount 560 cars or about 50,000,000 pounds was shipped out; bringing into the county in return \$2,000,000.00. Aside from the wheat over 600 cars of cattle, horses, hogs, sheep and wool were shipped out, bringing into the county several million dollars.
