STATE NEWS

Island City Merchant Killed.

Lee Tabor was killed in his store at Island City, Union county as a result of a hold-up occurring there last Friday night. Tabor was alone in his store playing solitaire when two masked men dressed in blue overalls and jumpers drove up in a car, entered the store and ordered him to throw up his hands. When he refused, thinking it was some friends playing a joke on him, one of the highwaymen shot him, the bullet passing over his heart. Mr. Tabor died the following afternoon. The robbers made away with several thousand dollars, his watch and other valuables. A reward of \$1000 has been offered for the capture of the highway-murderers.

Irrigation Company Proposes to Store Supply of Water.

Salem, Or.—The Tumalo irrigation district has filed application with Percy Cooper, state engineer, for the storage of 150,000 acre-feet of water in Waldo lake, on the middle fork of the Willamette river. It is proposed by the district to store water in this reservoir and divert the same through a tunnel under the divide to the headwaters of the Deschutes river for the irrigation of the lands within the Tumalo project.

The Enterprise Electric company asks for the appropriation of 30 acre-feet of water from the Wallowa river for development of power. It is expected that this power will be used in the vicinity of Joseph and Enterprise.

Road Grant Tax Drafts Arrive.

Oswald West, who represented the counties of Coos and Douglas in efforts before Congress to obtain the taxes due on the reverted Coos Bay wagon road grant lands, announces that drafts covering the congressional appropriation for the delinquent taxes have been received in Portland by Harry E. Laughlin, chief of the field division of the general land office, and forwarded to the sheriffs as tax collectors of the two counties. Coos county's share of the government draft is \$492,141.68 and Douglas county's share \$35,078.27.

Inland Empire to See 380 Miles of Highway.

Spokane, March 13.—During 1920 eight counties in the Inland Empire will build approximately 380 miles of permanent highway at an expenditure of \$2,375,000. Five of the counties are in Washington and three in Idaho. Those in Washington are: Whitman, 40 miles, \$300,000; Adams, 70 miles, \$1,100,000; Douglas, 40 miles, \$750,000; Spokane, 60 miles, \$450,000; Lincoln, 60 miles, \$250,000. Counties in Idaho are: Bonner, 40 miles, \$175,000; Boun-dary, 50 miles, \$200,000; Kootenai, 40 miles, \$150,000.

Tongue Point Will Have Naval Base.

Washington.—The submarine base at Tongue Point, near Astoria, is the only new project on either coast to remain in the naval appropriation bill, as agreed upon by the house committee on naval affairs. The project is retained only because of the long undefended coast line between San Francisco and Puget Sound, it has been explained.

Bend Publisher Is County Judge.

Salem, Ore.—Robert W. Sawyer, one of the publishers of the Bend Bulletin, has been appointed by Governor Olcott as county judge of Deschutes county to succeed W. D. Barnes, who has resigned.

Great Electric Plant to Be Put Above Lake.

A great hydro-electric plant will be constructed this summer by the Enterprise Electric company somewhere above Wallowa lake. For more than a year the company has been figuring on various sites and plans for getting more power and current, and has been gathering information regarding the advantages of each of the suggested plants. This crystallized in a decision to go above the lake. Further details have not been decided on, although a tentative order for the necessary machinery and equipment has been placed. It is certain, however, that the new plant will produce many times the power now generated and used, and will provide for the growth of the county for years to come.

L. M. Simpson and Bert L. Snyver of the company have been in town this week attending to various phases of its business.—Enterprise Record-Chief-tain.

DEDICATE LINCOLN MEMORIAL THIS YEAR

The great Lincoln Memorial at Washington, D. C., is to be dedicated this year. Sept. 22 is the date now virtually agreed upon. This was the decision of the Lincoln Memorial Commission, which held a meeting at the capital this week. The commission is made up of prominent Americans. They are, left to right, former Speaker Champ Clark, former President William Howard Taft, former Speaker Joseph G. Cannon, from Lincoln's state, Illinois, and former Governor Samuel W. McCall of Massachusetts. The picture of the memorial building shows the great structure in its present state of construction.

FASHION CAN'T RULE OUT SWEATER, ADOPT IT WETS BOOM EDWARDS FOR PRESIDENT

Fashion has found that it cannot rule the sweater out of existence. So it has done the next best thing. It has adopted it. Note the color range is wide. From a bright rose to the coolest blue imaginable in this group. The long-skirted models are again in vogue. Either bell sleeve or the tight-wristed kind may be had and either is quite the thing. Silk and wool are the materials used.

Governor Edward I. Edwards was elected in New Jersey on a "wet" platform. Last week he signed a bill for 3.5 per cent beer and in defiance of the Volstead national prohibition enforcement act. Now the wets are starting to boom "Edwards for President."

FIRST WOMAN HEAD IN INTERNAL REVENUES

Mrs. Estelle V. Collier of Salt Lake City, the first woman to be appointed collector of customs in the Internal Revenue Department. She is also the mother of four children. She won the appointment over five male candidates. She is also chairman of the Utah Democratic Women's State Committee. Her husband is a mining engineer.

OLDEST MAN SHOULDERS RIFLE FOR HIS BABY

Uncle Johnny Shell, 132 years old, Grass Valley, Ky., still has a bit of fight in his make-up, according to reports. When his 35-year-old wife, his fourth, recently died, it is said relatives attempted to take Uncle Johnny's 5-year-old son away. Grabbing his 100-year-old flint lock rifle, Uncle Johnny mounted a mule and rode across the mountains to recover his boy. At the point of a gun—it is said—Shell got his boy and returned home. Shell will be 133 years old Sept. 3.

SMILE AWHILE

In Realms of Art.
"My fortune's made!" exclaimed the dancing teacher.
"Have you thought of a new dance?"
"No. But I've thought of a highly improper name for one."—Washington Star.

Query from Sir James.

Here is a story with a moral for telephone users. Hon. James Duff of Canada was in the habit of shouting into the receiver, and one day Sir James Whitney, who was in his office nearby, asked what all the racket was about.

"It is Mr. Duff, sir," replied the clerk. "He is talking with his wife up in Simcoe county."
"He is, eh?" said Sir James. "Well why on earth doesn't he telephone her, instead of yelling across the Province like that?"—Boston Transcript.

Due Process of Law.

"Yes, I was on the stand in that case."
"I thought you told me you knew nothing about it."
"I didn't. But under the regular procedure it took three days to bring that out."—Judge.

Enterprise Elks are contemplating the establishment of a camping ground at the head of Wallowa lake, says the Record-Chief-tain, and definite steps have been taken to carry out the plans. It is their intention to lease a tract of land and fix it up attractive for tourists carrying their own camping outfits.

School Children Get Milk.

Pendleton school children are asked to report at the morning recess but not to answer for mischief. Not much. They step right up to the teacher and get a glass of fresh milk. Fifty-three children in the Lincoln school are given a half pint each morning, and 44 in Washington. Parent and teacher cooperate with the home demonstration agent, Miss Harmon, who suggested the means of supplying more of the great protective food. 8.61 (First figures sunflower sil-Teachers in the first and third grades weigh the children and record increase in weight. Many more children would be supplied but the milk is not to be had.

Sunflowers Make Good Silage.

Sunflower silage, so extensively used for silage in some eastern Oregon counties, is good food in all parts of Oregon. Many samples analyzed by J. S. Jones, chemist of the O. A. C. experiment station, gave the following results in comparison with corn silage, given second in each pair of figures: Water—73.21, 78.20; dry matter—26.79, 21.80; acids—2.52, 1.47; ash—1.39, 1.58; crude protein—2.45, 1.95; other extract—17.40, 8.61 (First figures sunflower sil- age, second, corn.)

County Agent Hunt, S. A. Pattison and Dr. J. Perry Conder attended a road meeting at Alpine last Thursday.

"Perhaps You Don't Know" says the Good Judge

That nearly every wise tobacco chewer got over the big chew idea long ago.

A little of the Real Tobacco Chew gives you more tobacco satisfaction and saves you money. Its rich taste lasts a long time.

Any man who uses the Real Tobacco Chew will tell you that.
