

**CURBING THE FENCE-BREAKING STEER**

Republican Congress—"Maybe that'll hold you for a while."

**NAPOLEON'S COUSIN  
LIVING AT JOSEPH**

Mrs. Jane Ross Celebrates 96th Birthday, Meeting Many of Her Old Friends.

Mrs. Jane Ross, who has lived as a pioneer in five different states, celebrated her 96th birthday last Thursday at her home in Joseph. She is a first cousin of Napoleon Bonaparte, her family having come from France, and she is very proud of her connection.

Many friends called during the day and Mrs. Ross was able to talk freely with them and tell about pioneering all the way across the continent. About the first one of the family got acquainted with at Joseph was F. D. McCully who called to pay his respects to the good woman and wish her many more birthdays. Mrs. Ross has kept to her bed for about two years but her mind is bright and she was happy to have her many friends call and talk over days gone by.

Jane Tuttle was born at Nunday, New York, and lived there until she was 6 years of age when she moved to Pennsylvania where she remained until 12, when the family went to Kalamazoo, Mich. She grew to womanhood there and was married to Joseph LeGore. They moved to Juneata, Kan., in 1855, and Mr. LeGore opened a store and was the first postmaster in that part of the state. They lived there many years and saw Kansas grow from raw prairie to a well developed farming country. Mr. LeGore died there and his widow married John Ross.

With their children they came to Oregon in the summer of 1881, locating at La Grande. This trip, like all those which had preceded, was made by Mrs. Ross in a wagon. Her last move was made in 1894 when she came to Joseph, where Mr. Ross died in 1906. Grandma Ross has made her home since then with her children, who are Joseph and Henry Ross of Joseph, Lawson Ross of Touchet, Wash., and Mrs. Celia Cox of Medical Springs. All of these except Lawson Ross were with their mother at her birthday celebration. She has 13 grandchildren and 22 great grandchildren.—Enterprise Record-Clifton.

**Disabled Soldiers Are Given Vocational Training**

Sattle, Wash., April 14.—(Special to The Gazette-Times)—According to information given out here today by Claude W. Anderson, head of the Federal Board for Vocational Education in this district, the following disabled soldiers of Morrow County are being taught at the expense of the government: Floyd L. Barlow, agriculture, Oregon Agricultural College; Alexander Brander, agriculture, Oregon Agricultural College; Max Franklin Rogers, commerce, Oregon Agricultural College; David R. Mandel, Behnke-Walker Business College.

The government is training these men because they were disabled by wounds or diseases which handicap them in following their former occupations. Some are trained in schools, others in shops, factories or stores, some by a combination of both methods. Single men receive \$50 per month for living expenses. Additional amounts, bringing the total up to as high as \$150 per month, are allowed for dependents.

District No. 13, which includes Washington, Oregon and Idaho, has trained or approved for training over 2,000 disabled soldiers to date.

F. A. McMenamin, local attorney, returned Monday evening from a trip to his ranch near Alderdale, Wash.

Miss Lois O'Neill of Portland spent the week end in Heppner with her father, Jack O'Neill and was a guest at the home of Mr. and Mrs. Claude Coats while here.

Dr. R. J. Vaughan and wife returned Sunday evening from a visit with relatives in Baker. Mr. and Mrs. Vaughan returned to find that some of their well-meaning friends had almost sold them out of house and home and converted the back porch and yard into a sheep ranch, but outside of a few minor pranks about the premises, everything was in ship-shape.

**AUTO LICENSE FEES.**

No increase in auto license fees is required in order to pay the interest and principal of all state highway bonds that can be issued under the pending 4 per cent constitutional amendment that will be voted upon at the May 21 election. Neither is any increase required in the gasoline tax. Nor is any tax on property involved.

Revenue from the auto license fees and gas tax at present rates will be ample to care for both interest and principal of all the bonds that can be issued under the proposed 4 per cent limitation. The present road bonding limit is 2 per cent of the assessed value of property in the state. The increase is necessary in order to make it possible to complete the main state highways within the next few years, instead of waiting indefinitely for their completion from annual revenues. By issuing the bonds, the roads can be provided for use while the auto license fees and gas taxes are being paid.

**MATERNITY HOME**

I have arranged to take a limited number of maternity cases at my home in east Heppner and assure the very best attention and care to all patients. For full information write or phone MRS. G. C. AIKEN, Heppner, Oregon. Box 142. Phone 395.

**STOP! LOOK! LISTEN!**

Look out for the truck. Help us clean up the back yards and the front yards. The city, at no small expense, is going to have the city truck gather your rubbish, garbage, etc., on "clean up days." They will haul all your rubbish gratis, but do not expect them to clean up for you. Do your part, and put all rubbish in boxes, barrels and sacks, and have it easy of access for the truck man. Heppner is rising, like the Phoenix bird from her ashes. We have the assurance of an adequate water supply. Let us get busy and be ready for it.

**The Gasoline Situation**

*The Necessity of Conservation*

There exists today on the Pacific Coast an acute shortage of gasoline. As this Company has pointed out on several occasions, the condition is due to insufficient production of crude oil and a greatly increased consumption of gasoline by industry and by owners of pleasure cars.

Gasoline is a vital factor in the life of the community, industrially and otherwise, and it is of the greatest importance, at this juncture, that it be used with the utmost discretion, that essential requirements may be supplied.

The present is by no means the season of maximum demand, which comes later in the year. The condition, therefore, is likely to be continuing, rather than transitory.

Responsibility for meeting the situation does not rest solely upon the oil industry. The public also has a serious duty in the matter.

On its part, the Standard Oil Company is straining its resources and organization to increase the supply of gasoline. In the field it is working for the maximum production of crude oil. In the refinery it is working for the maximum production of gasoline from the crude oil, and it is spending large sums of money on equipment for new processes, of its own discovery and development, whereby a still greater yield of gasoline will be obtained.

The point already has been reached where gasoline must be conserved most carefully. That is a duty of the public. In consumption of this product essential industries must necessarily come first—pleasure utilization thereafter.

Already the Company has taken steps toward protecting the supply for the vital needs of industry which, if lessened, would affect the business life of the community. There is now the danger of a curtailment of supply to non-essentials such as pleasure cars.

The assistance of the public, therefore, is imperative. Until lately, gasoline has been abundant, and its lavish and extravagant use has been possible. That time is past.

Buy as little gasoline as possible.

Use what you must—Waste none.
