MORROW COUNTY OFFICIAL PAPER

### Show Them We're Awake

There is a very practical side on establishing advertising as a part of the operation of government. Advertising means an appropriation, and an appropriation means that our Senators and Congressmen must be convinced that the people want the government to talk to them.

From the Federal Department of Labor and the Health Departments of the various cities comes statistics of the very great loss of life in childbirth. More women of child-bearing age die in the United States from causes incident to child-bearing than from any other cause except tuberculosis, and almost half the number of infant deaths are preventable.

We are spending thousands of dollars every year for our Health Department, which holds in its archives in Washington the results of research that mean life or death to thousands of mothers and children. What a blessing it would be, particularly in the country where we lack the great hospital facilities of the great cities and the presence of the world's great specialists, if the government would talk to and advise the mothers and the prospective mothers of the nation.

Slats' Diary: Friday—Jake & me played hookey & camped out all day & we cooked sum eggs & etc. we tuk pepper & salt in our pokkets. I tuk pepper & him salt. Eggs burnt but we et them enny way.

### Farmers and the Nation's Councils

Dr. Butterfield, the clever and popular president of Massachusetts Agricultural College, has just published a book on rural community problems in the United States which is attracting attention on both sides of the water.

One great difficulty in this country, says Dr. Butterfield, is that the farmers are not, and rarely have been, prominent in the councils of the nation; consequently others have devised policies for them.

Exactly! It is a world-wide difficulty but particularly in America because of the very superior education and intelligence of our farming element. The American farmers are the backbone of the nation yet their representatives in Congress and in many Legislatures are lawyers, who constitute a very small item in the population and who act, when seated, not from the convictions of farmers, not from the convictions of lawyers, or of patriots.

We don't think it is going to last long. Already there is evidence of a strong get-together spirit among agriculturists as evidenced by the farm bureaus, the grange and other organizations.

Tens of thousands of the young men and young women of the farm are entering the nation's agricultural colleges and other schools of learning every year and acquiring the education, the discipline and the ability to lead. They are not going to be satisfied to take a back seat to lawyers and mere politicians; soon they will be taking their places in the nation's council.

### Wages and Babies

When wage-earning fathers earn under \$450 a year they may expect to see their babies die in large numbers; if they earn \$1250 and over they may expect to see them live.

The fathers of 88 per cent of the babies studied by the U. S. Children's Bureau earned less than \$1,250 a year; 27 per cent earned less than \$550; a few earned under \$450. In this last group the infant mortality rate is almost 170, an appalling figure, and the rate ranges from this down to approximately 125 in the group earning less than \$550 but not under \$450.

Under present conditions the public protection of mothers and babies is needed, for the loss of mother and infant life is nation-wide and needs nation-wide attention. The Sheppard-Towner maternity bill would help the states bear the necessary expenses for providing adequate medical and nursing care and proper instruction to mothers, and would leave the states free to carry on this work according to their various needs.

### Slats' Diary

Saturday—tuk a walk past J. E. I had sum candy & ast her did she want sum candy & I got nervous & all & wen I give her a peace of candy she maid a face & give me a look wich cut like a daggers point & she sed wot did you put on it & I felt in my pokket. Ther was the pepper I had tuk along yesterday. She sed your a dirty broot. Fair shure is giving me a unkind deal.

Sunday—The s. s. teacher ast me if sum kid wood hand me one on the cheek wot wood I do I sed Ide turn the other 2 him then she ast me wot wood I do if he swatted me agin. I sed I wood bust his hed for him. She laffed up her sleeve & then we sung a song & went home. Had a fit with a nother kid.

Monday—teacher told us all about Indy today. dont Remember much only that their is a lot of rane their wich is warm & wet.

Tuesday—ast J. E. was she still Mad yet she sed she aint so very mad.

Wednesday—went 2 the pitcher show & seen a guy wot had been in Alasky for 8 mos. & wen he was coming out of the wilderness & mountans & dezerts & etc he had a new hare cut. Latest stile 2.

Thursday—teacher Learnt us all about silk wurms I am going 2 save all my jitneys & buy 1 & then I can maik myself solid with J. E. by giving her a nice silk Dress. oh lady!

### 'Wear Denim' Movement Said To Have Started in Alabama

The "wear denim" movement to bring down the high cost of woollen clothing, is said to have originated with a bunch of cotton growers down in Alabama. The public fell for the "movement" at once, believing that it would result in suits taking a big fall. It has already resulted in a strong demand for khaki, denim and overalls, which is just what the cotton growers wanted.

Thos. B. Kay, woolen cloth manufacturer of Salem and former state treasurer, told wool men in Portland this week that he had paid as high as 75 cents per pound for cotton long staple in bales. There is certain cloth manufactured in the Kay mills in which cotton is used. With the average price of wool at 50 cents per pound, who will say that cotton is cheaper than wool. Maybe after all its the cotton going into the cloth and not the wool, that is making clothing expensive.

### Willard Service and Batteries Now Handled by J. W. Fritsch

J. W. Fritsch, who recently moved from the rear of the Heppner Garage to more commodious quarters in the Ashbaugh building at the corner of Main and Center streets, has taken the agency in this territory for the Willard Storage Battery and expects a large shipment of these batteries direct from the factory in a few days. In view of the fact that 87 per cent of the new cars put on the market today come equipped with Willard batteries, a strong demand is present locally for Willard service. Mr. Fritsch will strive to meet the demand. In regard to the Philadelphia batteries, Mr. Fritsch says that the two-year guarantee still holds good.

### Odd Fellows Will Observe 101st Anniversary of Order

Willow Lodge, I. O. O. F. will celebrate the 101st anniversary of the order on Wednesday, April 28th at 8 o'clock, p. m. A good program has been arranged for the occasion. ## Just Where and How Is the Money to be Spent?

A businesslike answer to a businesslike question

THIRTY denominations cooperating in the Interchurch World Movement have budgeted their needs. No business could have done it more scientifically.

They have united to prevent the possibility of duplication or waste. At least a million dollars will be saved by the fact that thirty individual campaigns are joined in one united effort.

Each denomination has arranged its budget under six main heads:

- FOR THE CHURCHES WORK AT HOME. A score of items come under this head. Consider only one. Five and a half million people in the United States cannot even read and write the English language. What is to carry forward the vast work of Americanization if the church does not?
- FOR HOSPITALS AND HOMES. Every year thousands of men and women (nearly all are turned away from Church hospitals because of lack of room). The children's homes are compelled to turn away more children than they can receive.
- FOR HIGHER EDUCATION. Of the 40,000 American students in institutions of higher grade, one-half are in institutions founded and supported by the Churches. Many of these institutions have had no great endowment campaigns, but their needs are just as pressing as the needs of larger schools, and you have only to read their list of alumni and alumnae to measure the value of their contribution to America.
- FOR RELIGIOUS TRAINING. At least 12,000,000 children and young people under 25 years of age are suffering America. He without any religious training at all. Remembering the faith of Washington and Lincoln, do you think that America will continue to produce Washingtons and Lincolns if faith dies out of the hearts of its youth?
- FOR THE CHURCHES WORK ABROAD. Infamously came first from the Orient thirty years ago; nearly all plagues are Oriental plagues. So long as China has only one physician to every 400,000 people the Orient will continue to be a menace. So long as one-third of the babies of India die before they are two years old, how can we expect to see a Christian doctor or teacher sent abroad to work for America as truly as though he worked at home.
- PREACHERS' SALARIES. The preacher is called the "forgotten man," and well he may be. Eight out of ten preachers are paid less than \$25 a week!

Each denomination has its own detailed budget, and will administer its own funds. Your pastor has copies of the budget; examine them for yourself. In the week of April 25th-May 2nd you will be given your opportunity to help. You can do it with the full satisfaction of knowing that every dollar of your gift has its post assigned to it in advance.

Every dollar for better America and a better world. When your church calls on you give—and give with your heart as well as your pocket-book.

United Financial Campaign April 25th to May 2nd

## The INTERCHURCH World Movement of North America

The publication of this advertisement is made possible through the cooperation of thirty denominations.
