**NEW EXTENSION DIRECTOR
IS APPOINTED FOR O.A.C.**
Paul V. Maris, Successful Leader of
County Agent Work, is Promoted
to Directorship.
Corvallis, May 4.—Paul V. Maris,
for the last five years state leader of
county agent and farm bureau work
in Oregon, has been named as direc-
tor of the agricultural college exten-
sion service. He succeeds O. D. Cen-
ter, who resigned last October.
Under Mr. Maris' leadership one of
the most powerful organizations of
agricultural interests now shaping
the new agriculture in Oregon has de-
veloped through the county agent
and the farm bureau. The organized
farmer is fast coming to be a factor

**TO PRESIDE AS DEMS
OPEN CONVENTION**

This man will handle the gavel
when the Democratic national
convention is called to order at
San Francisco in June. He is
Homer S. Cummins, chairman of
the National Democratic Commit-
tee, who has been named tempo-
rary chairman of the presidential
convention.

not only in agricultural production
but in profitable production and
equitable marketing.
The old agriculture produced
abundantly, took what the crop en-
emies left to the farmer, and sold it at
precisely what the other man told
him he could have. Cooperation,
farm accounts, and a voice in market-
ing, were exceedingly rare.
The farm bureau agriculture as
developed in Oregon bases produc-
tion on profit—since the war—goes
out and kills the crop enemies

whether insects, diseases or rodents,
and asserts its right to assist in de-
termining what the surplus shall
bring. It gives farm management,
records and business a big place in
the farm program.
Mr. Maris has directed this move-
ment for lowering production costs
and marketing on the basis of that
cost. Also for bringing farmers to
act together on community problems
thereby enriching the rural life as
well as the farmer purse.
Mr. Maris is prepared as extension
director to give all the people of the
state the same high type of service
that distinguished his administration
of county agent work.

BUSINESS OF THE DAIRY COW
Function of Animal is Production and
Reproduction—Man Must Fur-
nish Fuel Units.
The dairy cow is but a machine
whose function is production and re-
production. It is her business to con-
vert farm-grown products into food
products, more concentrated and
hence more valuable than when given
her as raw material. It is man's busi-
ness to supply food or fuel units for
this machine.

**Is Your Hook Baited
Right?**

For every species of fish and condition of water there is
the proper bait which, when used, will give the greatest num-
ber of funny beauties in the basket at the end of the day's sport.
The wise angler acquaints himself with this lore and his efforts
are productive of greater results than the one who uses any
kind of bait for any kind of fish in any kind of water.

Just so, there are in every locality certain ways for the mer-
chant to increase his sales and among these advertising stands
out preeminently. But the wise advertiser soon learns that ad-
vertising in itself will produce but few results if the medium
used is not the best. In Heppner, close attention to the me-
diums the advertiser has at his command shows conclusively
that The Gazette-Times is the choice of local advertisers, and
what is just as significant, the choice of large national adver-
tisers, with whom advertising is a science and who judge a me-
dium solely by the standard of the results obtained. That
these large contracts are renewed every year is one of the
strongest recommendations of the effectiveness of G.-T. adver-
tising.

Place your advertising in The Gazette-Times and your
judgment will be vindicated by the results obtained.
