Perfection's Price In Tire Building

A tire-maker's first problem is to decide how much he can give for the money. This, and every other question in tire building, depends upon policies.

A super-tire, such as The Brunswick, can be made only by a concern which knows well and appreciates that there is nothing exclusive in the tire industry except high standards.

Since 1845 the House of Brunswick has held first place in every line it entered. Brunswick Tires, as more and more motorists come to know them, will certainly be awarded that coveted place held only by the superfine.

Motorists who buy one Brunswick usually adopt it for complete equipment. Yet this is not strange, since the first one so completely proves its superiority.

If the name of Brunswick certifies to you, as to most men, an extraordinary tire, at no higher price, would it not be good business to test one or two Brunswick Tires?

preserve and beautify

THE first essential of paint is to preserve. Second, to beautify. Too many people make the mistake of considering only the latter, consequently buy paints of inferior quality.

The result is a temporary beautifying effect, without preserving the wood.

FULLER Paints and other products are of that quality which preserves and beautifies. Through their use, inside and out, years of life will be added to your home and it will be made more livable to yourself and family.

Seventy-one years of paint-making experience are back of every brushful of FULLER Products. Insist on FULLER'S and you'll be sure of results. And remember, there's a FULLER Product for every paintable surface—inside and out.
