

SALVATION ARMY OPENS STATE RESCUE HOME FOR UNFORTUNATE GIRLS OF OREGON

Salvation Army Rescue Home and some of its babies.

The Salvation Army, as one of the big features of its Home Service Program for 1920, has taken over and opened the White Shield home in Portland as a rescue and maternity home for unfortunate girls. It is a state-wide home, where, under the most pleasant surroundings, with expert medical care the young mother is helped to shape her life anew. Last year, in the west alone, 1948 girls turned from the nightmare of despair to such Salvation Army sanctuaries as this. Of these, 900 were returned to the homes they left in their shame and, through the offices of the Salvation Army workers, were welcomed and their burdens lightened for them. The Portland home nursery now echoes to the delighted cooing of more than a score of babies whose mothers are sheltered under its roof and taught how to go out into the world and win a clean living for herself and her baby.

The Whole Secret of A Better Tire

Simply a Matter of the Maker's Policies

This you will realize—once you try a Brunswick—that a super-tire is possible only when the name certifies that the maker is following the highest standards.

For tire making is chiefly a matter of standards and policies—cost plus care. Any maker can build a good tire if he cares to pay perfection's price.

All men know Brunswick standards, for Brunswick products have been famous for 74 years.

Formulas, fabrics and standards vary vastly in cost. Reinforcements, plies and thickness are a matter of expense. And these variations affect endurance. It rests with the maker how far he wishes to go—how much he can afford to give.

For there are no secrets nor patents to hold one back.

To ascertain what each maker offers one must analyze and test some 200 tires—as our laboratories have done.

Then it is a matter of combining the best features and building according to the highest standards.

Once you try a Brunswick you will understand how we have built model tires, regardless of factory expense.

Yet Brunswick Tires cost you the same as other like-type tires. Our saving is on selling cost, through our nation-wide organization.

We realize that you expect more from Brunswicks, and we assure you that you get it. ONE Brunswick will tell you the story.

And then you'll want ALL Brunswicks. No other tire, you'll agree, gives so much for your money.
