G. A. R. Veterans Will Gather at Church.

The G. A. R. veterans are requested to gather promptly at 11 o'clock on Sunday, May 23, at the Christian church, where memorial services will be held. In past years the Grand Army men have met at some outside point and then marched in a body to the church, but the numbers are growing fewer each year, so it was decided to dispense with the former custom.

Every Oregon Boy and Every Oregon Girl Is a possible College Student

Oregon sends a bigger percentage of its children to college than any other state, without exception.

That is one of the State's proudest records

No state can have too much education. Education is the safeguard of freedom and of right, and higher education is the capstone of the public school system. But higher education in Oregon is in great danger. The State University and the Agricultural College have twice as many students as they have income to train.

Protect these Schools and their great work

by voting on May 21 for the Higher Educational relief measure. Higher Education pays the state in dollars and cents, in improved living, in scientific progress, in farm, orchard, garden, and stock ranch development, and in the better quality of its public and high school teaching.
