MID-WESTERN SCHOOL KIDDIES WIN ARMY ESSAY CONTEST

The proudest moment of their lives—as they stood in the huge stadium at Washington, D. C., receiving first, second and third prizes and loving cups from Secretary of War Baker for army essay papers. Donald Campbell of Clinton, Ia., shown in the center with Secretary Baker, was first. Marjorie Sheetz of Chillicothe, Mo., on the left, was second. Betty Eason of Olive Branch, Miss., on the right was third. On the left is General March.

Max Houser Acquitted.

Max H. Houser, second vice president of the United States grain corporation has been acquitted of the charges that he used his office to manipulate the grain prices to reap a profit. George Mayo, special accountant for the department of justice reports the personal transactions of Houser and the profits of the Houser milling interests had been \$179,196 on an invested capital of \$3,720,000.

"I find that Houser personally and through his milling company did not make immense profits," said United States Attorney Humphrey, appointed to investigate the matter. "The profit was small and there was no violation of law nor improper use of his position. Houser sacrificed his time and business to the grain corporation."

Will Attempt Record Flight.

Eugene—Lieutenant R. M. Kelley of the ninth aero squadron, temporarily stationed at Eugene has announced that on May 23 he will attempt to make a record flight from the Canadian boundary at Blaine, Wash., to Stockton, Cal. He expects to leave Blaine at day-break and arrive at Stockton in seven and a half hours, making only two stops, the first one at Eugene for breakfast and to take on gasoline and the other at Montague, Cal.

Bandon Boy Freed After Third Trial.

Marshfield—Harold Howell, aged 16, has been given his freedom after eight months in the county jail and three times facing trial on the charge of murdering Lillian Leuthold at Bandon on July 27. The jury brought in its verdict of not guilty after being out for 16 hours. It is said that the remarkable composure and manner of the defendant throughout all three trials and the way in which he testified on the stand, finally won his freedom.

Intense smoke which prevailed over the Eastern Oregon country last week, greatly resembling the late summer days when forest fires are prevalent, was caused by brush fires in the Cascade mountains.

The Interrupted Gardener.
"You don't seem so enthusiastic about your gardening."
"It's this way," replied Mr. Crosslots. "I like it, but I can't keep my mind on it. It's tantalizing to go on turning up fishing worms that aren't of use to anybody."—Washington Star.

In No Hurry

It was a big cotton manufacturing town in Lancashire, where a revival service had been held. At the close the minister called upon all those who wished to go to Heaven to stand up. All rose to their feet with the exception of one young man. "Don't you want to go to Heaven, my friend?" asked the preacher.

"Oh, aye, I want to go, rec't enough," the young man replied, "but not w' this trip."—London Tit-Bits

Bitter Disappointment.

Old farmer Turnut went to London for a visit and, on a friend's advice, stayed at a quiet hotel in Bloomsbury. On his return to the village this friend asked how he had got on.
"Rotten!" retorted the old chap shortly.
"Why, weren't they nice to you at the hotel?" asked his friend in surprise.

"Nice?" Old Turnut's tones were withering. "Well, if you call it being nice to fool a man because he came from the country, they were. Why, the very first night that I stayed there they gave me a big bottle to take to bed, and when I uncrowed the stopper there weren't anything in it but hot water."—London Answers.

Gary Motor Trucks Excel in Delivering the Goods from Log to Finish.

Because a horse had a log on four corners, hair on the outside, and a place for a collar, would not satisfy an experienced horse user that said horse was a "good buy," no matter how low the price. Qualifications would be considered—speed, endurance, possible performance, probable years of service, and cost of maintenance would be the factors determining the value, and he would not expect to find these qualifications in a cheap horse.

There is just as much difference in motor trucks as in horses. Some makes of motor trucks are made to sell and like the cheap horse they possess "similar points of construction" to their better brothers, but they will not deliver the goods and last. They will have worn out by the time they have paid out, which makes them a poor investment at any price.

Satisfactory performance for a period of years after it has paid for itself is what established a truck's value. Gary motor trucks are long life trucks. They are correctly designed, built of the best and highest priced units by the best mechanics and backed by the Gary reputation—"To Put Up the Best Truck That Can Be Built."

The factory representative of the Gary Motor Truck Company for the Northwest territory is the Gary Coast Agency Inc., 71 Broadway, Portland, Oregon.

A Boy Can Run a John Deere Dain Mower

While you are getting things in shape for making hay, put your boy on the John Deere Mower and let him do the cutting—he will do it just as well and just as easily as you can do it.

He will never have to back up to get a start, even in the heaviest hay. The knife starts cutting the instant the mower is thrown in gear—no lost motion.

You will see big advantages in the drive on this machine—it's extremely simple—the gears are so placed that one set holds the other set in mesh constantly. The John Deere will cut all of the grass for years to come—a simple adjustment takes up all lag in the cutter bar, without affecting the centering of the knife. If the knife ever needs re-centering, a special adjustment is provided.

Because of the powerful lift, he can easily raise the cutter bar to pass over any field obstruction or to extreme height, when necessary. A foot lever working in conjunction with the hand lever, makes the lift simple and easy.

The John Deere is the simplest, most powerful and best-built mower we have ever seen. We know it will appeal to you.

Come in — it's to your advantage, to know all about this mower before you buy. While at our store, we want you to see the rest of our line of haying and harvesting machinery. We have a line of machines you can use with satisfaction and profit.
