What's become of the prejudice against automobiles because they frightened the horses

NOW cars are everywhere. The horses have gotten used to them—and so has everybody else. Think of it! This year the American people will spend nearly a billion dollars on tires alone.

Tires are one of the biggest items on the car owner's bills.

Hardly a Saturday, when you motorists drop in to "tune up" for a Sunday trip, that one or more of you doesn't tell us something of value to our business. Sooner or later it comes back to you in Service.

Service is what the car owners of this community are looking for nowadays.

And especially the small car owners, who put service

first in figuring their motor-ing expenditures.

Just because a man has a moderate-price car is no reason why he should get any less service out of his tires.

We believe that the man with the small car is entitled to just as good tire service as the man with the big car—and both are entitled to the best tire service they can get.

That's why we represent U. S. Tires in this community.

And why more car owners—large and small—are coming to us every day for U. S. Tires.

Come in and talk to us about tires. We're here to help you get the kind of tires you want.

Select your tires according to the roads they have to travel:

In sandy or hilly country, wherever the going is apt to be heavy—The U. S. Nobby.

For ordinary country roads—The U. S. Chain or Usco.

For front wheels—The U. S. Plain.

For best results—everywhere—U. S. Royal Cords.

More men every day are finding that it costs less to use the Real Tobacco Chew.

The full rich taste lasts so long, a small chew satisfies; it's just what you have been looking for.

That's why it costs you less.

Any man who uses the Real Tobacco Chew will tell you that.
