HARDING AND COOLIDGE

(Continued from Page 1.)

ries. Early in life he learned the dignity and necessity of work.

He was educated at Amherst college. He was an able and industrious student. It was during his college course that he began the study of American politics. His conception of this intricate subject then formed and since maintained is that "there will come out of the government exactly what is put into it." He believes that "politics is the process of action in public affairs."

"At Amherst in his senior year he won the first prize, a gold medal, for the best essay on the principles of the war for American independence. This competition was open to the undergraduates of all American colleges.

Admitted to Bar

After only twenty months' study of law in the offices of Hammond & Field in Northampton he was admitted to the bar. He thereupon opened an office in Northampton and at once gained a rating as a zealous, broad-minded promoter of the community's welfare.

Appointed by the supreme court to fill a vacancy caused by death, he declined to accept his party's nomination for election to succeed himself and returned to the practice of law.

Calvin Coolidge entered politics actively in his home town, Northampton, in 1899 when he was elected to the city council. The next year he was made city solicitor and held that office for two years. He went to the Massachusetts state legislature in 1907 and 1908. He left the legislature to become mayor of Northampton, holding that office two years. He was then elected a state senator, where he served four years, during the last two years of which he was president of that body.

Governor in 1918

As governor, Calvin Coolidge has advanced rapidly in the estimation of the people of the state. He was elected in 1918 for the first term. His re-election by an increased plurality was practically conceded when the night of Boston left their posts.

After a night of rioting, the governor took command of the situation, restored order with state guardsmen, destroyed every effort of the police to win their places back, ended for all time the possibility of a police union with an outside authority and faced the electorate on the issue of law and order.

He was re-elected by a plurality of 125,000.

Every State Uses Coast Shingles.

Portland, June 12.—The District Forester here has just given out the results of a study which show that Western red cedar shingles from Oregon and Washington are shipped to every state in the Union. The report shows that Minnesota is the largest single purchaser of Washington shingles, while California is the biggest buyer of Oregon shingles. The Middle Western states are very heavy buyers while about eight per cent of the total sales go to the Southern states.

Oregon and Washington produced 6 1/2 billion shingles in 1919, or two billion more than in 1918. The cut for 1919 was less than that for 1916 or 1917, and far below that for 1909. Western red cedar is the leading shingle wood in the United States. Shingles manufactured from this wood in Oregon, Washington and British Columbia represented 85 per cent of the total production of the country. Shingles are also made from cypress, white cedar, redwood and yellow pine. Douglas fir shingles were manufactured commercially in 1919, largely because of the scarcity and high cost of western red cedar logs.

Shingle production in 1919, like that of 1918, was not normal. The first quarter, following closely after the Armistice, was quiet. Toward the close of the second quarter the demand for shingles became strong. This, however, was closely followed by a car shortage that was felt during the remainder of the year.

Meantime, the price of shingles advanced, more than doubling by the end of the year. The cost of shingle logs, labor and supplies advanced also; this taken in connection with the other adverse conditions being unfavorable for normal production, forest officers say. The effect of the depletion of the supply of western red cedar is noticeable. Washington produced 9 billion shingles in 1909 as against 6 billion in 1919. This decline is apparently due, the report shows, to that fact that the supply of cedar at the higher elevations is not so large as along the river bottoms and lowlands. The report is authority for the statement that in British Columbia, where fewer shingles have been cut, production has increased 300 per cent in the last 10 years. Production in Oregon amounting to about 1-3 of a billion per year, has not changed materially for several years.

Loren Mikesell, who drives the big Mack truck for the Standard Oil company is now enjoying his two weeks' vacation.

Mr. and Mrs. Jos. Eskelson and son and daughter of Lexington were in Heppner last Saturday to attend the picnic.

Miss Helen Barratt, returned Monday from Corvallis, where she has completed her first year at the Oregon Agricultural college.

James Connell, local young sheepman, will leave the first of next week for Granite, where he will spend the summer months with the sheep.

Chas. Edwards left this week for Thompson Falls, Montana, where he will spend the summer months in charge of some of Joe Hayes' sheep.

C. C. Clark, prominent Arlington merchant and president of the board of directors of the John Day Irrigation District, spent Tuesday evening in Heppner attending a meeting of the board.

H. E. Instone, Lena stockman, was a Tuesday business visitor in this city. Mr. Instone says a heavy rain fell in the Lena section this week, which had the semblance of a young water spout.

Lawrence Shutt is taking a few days away from his father's real estate office and left on Wednesday for Portland, where he will hear John McCormack, the noted tenor, sing at the Auditorium on June 17.

Rev. W. O. Livingstone and family are moving into the Claude Coats residence at the corner of Willow and Gale streets, this week. The property was recently purchased from Mr. Coats by Mrs. Ellen Buseick.

Mrs. W. Neal has returned to her home in Oakland, Ore., after being called here on account of the serious illness of her father, A. H. McFerrin. Mr. McFerrin's condition is reported to be improving at this time.

Mrs. C. C. Chick and son Charles returned to their Heppner home last Thursday evening after spending three months in Southern California. Charles left on Tuesday for Eugene where he will attend the summer school session of the University of Oregon.

Miss Agnes Ross of Albany arrived Monday evening and will visit through the week at the home of her brother, Fred Ross. Miss Ross is a newspaper woman in the employ of the Albany Daily Democrat and was an interested visitor at the Gazette-Times office on Tuesday.

Mr. and Mrs. C. L. Woodard and little son Don and Mrs. Wm. Tracy, left on Monday for their homes in Shoshoni, Wyo., after visiting here for several weeks at the home of their parents, Mr. and Mrs. Allen McFerrin. They were accompanied as far as Spokane by B. W. Gaunt, who goes to Montana for the shearing season.

To close up deals for Morrow county land, Joseph N. Scott of this city left this morning for Ione. He was accompanied by his brother-in-law, Clyde Preston of Helix, who will also look over land in that region. Mr. Scott is owner of a farm in the Athena region and was one of the first to pay a high price for wheat land.—Pendleton E. O.

"I have lived in the Morgan country for twenty years and this is the wettest I ever saw," said H. A. Edmonds, farmer of Morgan who was in Heppner on Wednesday. "I took a post hole digger the other day and dug down, just to see how far the moisture extended," he continued, "and the ground is thoroughly soaked for a distance of three feet." Mr. Edmonds says crops are looking the

best ever and the farmers are now talking of thirty five bushel wheat.

THE CHRISTIAN CHURCH
Sunday, June 20, 1920.
Bible school at 10:30 o'clock a. m.
Communion service and preaching at 11:00 o'clock. The morning talk will consist of a report of the District Convention being held at Pen-

dleton this week.
Christian Endeavor meeting at 7 p. m. and preaching at 8 p. m. This address will embody Dr. McMurtry's famous interpretation of the 23rd Psalm, a matter of intense interest to every Bible student.
Everyone is cordially invited to attend all of these services; a cordial welcome awaits you.
W. O. LIVINGSTONE, Minister.

Why man— we made this cigarette for you!

Camel CIGARETTES

CAMELS fit your cigarette desires so completely you'll agree they were made to meet your taste!

Unique flavor, fragrance and mellow-mild-body due to Camels quality and expert blend of choice Turkish and choice Domestic tobaccos are a revelation! You will prefer the Camel blend to either kind of tobacco smoked straight!

With Camels you can go the limit without tiring your taste. They leave no unpleasant cigaretty after-taste; no unpleasant cigaretty odor!

To get a line on why Camels win you so completely compare them puff-for-puff with any cigarette in the world at any price. You'll prefer quality to coupons or premiums!

Camels are sold everywhere in scientifically sealed packages of 20 cigarettes for 20 cents or ten packages (200 cigarettes) in the distinctive paper-covered cartons. We strongly recommend this carton for the home or of the supply or when you travel.

R. J. REYNOLDS TOBACCO CO., Winston-Salem, N. C.

Coal Situation Alarming!

"The Coal situation in the United States today is becoming alarming. It is impossible to secure mine labor. The car situation is becoming acute and of nation wide scope with no immediate relief in sight. Due to the long, hard winter, coal stocks of both commercial consumers and industrial users are depleted. The situation is most unusual."

Freight rates advance soon.
Mine rates are advancing.
Only 190 coaling days before Christmas.
