EDUCATION HELPS THE FARMERS BETTER FARM CONDITIONS

This, Farm Manager Asserts, Will Check Drift of Young Rural People to City.

Oregon Agricultural College, Corvallis, June 23.—"Until life on the farm provides a living equal in comfort and attraction to the comfort and attraction of the city, as well as opportunity for higher earnings (it does that now, I believe) our rural problem will not be solved," says H. D. Scudder, head of farm management at O. A. C.

"If better education leads only to high earnings and brings no improvement in the standard of living it is bound to fail of its finest purpose," Professor Scudder declares. "The steadily declining rural population is one of our greatest national perils."

"Volumes have been written to account for this growing danger to our economic balance, but its reasons may all be summed up as the less desirable living conditions on the average farm."

"Certainly many young men desert the farm and flock to the cities in hope of bettering their living conditions."

Better education, Professor Scudder thinks, plays its greatest part in bringing the comforts of the city to the farm. This is indicated in a summary from the survey records of 825 farms visited by the Wisconsin experiment station: (the first number of the following groups applies to 478 farmers with common school education only, and the last number to 84 college trained men.)

Labor income—632, \$1056; value of house—\$1764, \$2558, bath equipment—22 per cent, 48 per cent; lighting systems—17 per cent, 44 per cent; furnace heat—22 per cent, 47 per cent; automobile—20 per cent, 29 per cent.

Plain Pastry

This recipe is for one large pie with top and bottom crust
2 cups flour
1/2 teaspoon salt
1/2 teaspoon Royal Baking Powder
1/2 cup shortening
cold water
Sift together flour, salt and baking powder; add shortening and rub in very lightly with tip of fingers (the less it is handled the better the paste will be). Add cold water very slowly, enough to hold dough together (do not work or knead dough). Divide in halves; roll out one part thin on floured board and use for bottom crust. After pie is filled roll out other part for top.

Rich Pastry

2 cups pastry flour
1/2 teaspoon Royal Baking Powder
1/2 teaspoon salt
1/2 cup shortening
cold water
Sift flour, baking powder and salt; add one-half shortening

and rub in lightly with fingers; add water slowly until of right consistency to roll out. Divide in halves; roll out one-half thin; put on in small pieces half remaining shortening; fold upper and lower edges in to center; fold sides in to center, fold sides to center again; roll out thin and put on pie plate. Repeat with other half for top crust.

Apple Pie

1 1/2 cups flour
1/2 teaspoon Royal Baking Powder
1/2 teaspoon salt
1 tablespoon shortening
4 apples, or 1 quart sliced apples
2 tablespoons sugar
1 teaspoon milk
Sift flour, baking powder and salt; add shortening and rub in very lightly; add just enough cold water to hold dough together. Roll half out on floured board, line bottom of pie plate; fill in apples, which have been washed, pared and cut into thin slices; sprinkle with sugar; flavor with cinnamon or nutmeg; wet edges of crust with cold water; roll out remainder of pastry; cover pie, pressing edges tightly together and bake in moderate oven 30 minutes.
