right to reject any and all bids for any
reason and if not satisfactory to the
Board.
Address E. J. Merrill, Clerk of
Union High School District No. 1,
Hardman, Oregon.

Harding Welcomed by Home Citizens.

Marion, O., July 5.—Senator Hard-
ing is coming home today as the most
highly honored of his fellow town-
smen, the candidate of the republican
party for the president of the United
States.

Marion democrats have cast aside
for the time being their party affilia-
tions and joined with the republicans
as fellow townsmen, neighbors of the
republican candidate to welcome him
home. The welcome was not a Mar-
ion affair entirely, friends from all
sections of the state sharing in it.
The city is bulging with visitors.

**Reitmann Boys Meet With
Serious Auto Accident**

Early last Wednesday morning
while four of the Reitmann boys, Ot-
to, Omar, Victor and Bob, were driv-
ing home from the Ione dance, says
the Independent, the car was driven
too close to the outer edge of the
second grade in Reitmann canyon
with the result that the loose earth
gave way and the car overturned. In
its fall of fully 75 feet it turned over
five times, all the occupants jumping
or being thrown out except Otto, who
was at the wheel and hung on until
the last turn when his left leg was
fractured just above the ankle, the
others receiving only minor scratches.
The injured man was taken to his
home and a physician was called from
Ione, who at once set the broken
limb. The patient is reported to be
as well as could be expected. The
upper portion of the car was badly
wrecked.

J. G. Thomson, senior member of
the firm of Thomson Brothers, is con-
fined to his home this week, suffer-
ing from a severe attack of tonsillitis.

**BETTER BUTTER IS CALL
OF OREGON CREAMERIES**

Growth of Use of Substitutes Said to
Be Due to Uniform High Quality
of Product.

Oregon Agricultural College, Cor-
vallis, July 5.—Increase use of butter
substitutes in the last few years is
due to their uniform good flavor, and
to lack of this quality in butter, says
V. D. Chappell, manager of the O.
A. C. creamery, in a letter to cream-
erymen of Oregon.

"Creamerymen do not realize the
seriousness of the proposition con-
fronting them," Professor Chappell
declares. "Quality, regardless of
cost, is the deciding factor these days,
especially the last nine months. If
you expect to keep your nose above
water in the butter game you will
have to get down to business and
make better butter by using uniform
methods."

A card has been sent to the cream-
erymen of the state, with a request
that it be filled out and returned.
The card calls for information on
acidity of cream, temperature at
churning, churning time, temperature
of wash water, number of revolutions
butter is worked in water, per cent of
moisture and salt, and some other
vital factors.

All information called for can be
found in rightly kept churn records,
which Professor Chappell says are
essential to uniformity of methods,
upon which uniform good quality de-
pends.

More Commercial Fertilizer Used.

Increase in the use of commercial
fertilizers in specialized and intensi-
fied farming is noted by the depart-
ment of agricultural chemistry, O. A.
C. experiment station. "Their agri-
cultural value from an economic
standpoint is not yet sufficiently re-
cognized," says R. H. Robinson, re-
search specialist. "The belief that
commercial fertilizers are as yet un-
necessary in this state is gradually
changing." A list of every brand
that can be sold in Oregon this year
has been prepared for farmers by the
station, and published in a bulletin
for free distribution. The list gives
the fertility content of every brand.
