MANY SHEEP AND CATTLE GRAZE IN UMATILLA

Sheep grazing on the Umatilla national forest during the past year numbered 53,554, while the cattle and horses totaled 9,599, according to a report issued by R. A. Bootcher, deputy supervisor, of the local forestry office at Pendleton.

Timber was sold to the extent of 5,153,830 board feet, the value being \$7,847.75, and 2,118,060 feet have already been cut. Free use of timber has been granted for cordwood purposes to the extent of 943,000 feet, valued at \$785.84. Most of the timber for lumber sold was for the Teel project.

Eleven grazing permits, the report states, were revoked because of non-payment of fees. Cossing permits for 180,000 head of stock were issued. Other permits issued included those for the use of cabins, telephones, etc.

There were eight cases of trespassing on the forest, two being provisory and four being convicted and fined for intentional trespass. Two cases are still pending trial. The report shows that eight miles of new road has been constructed within the national forest which is added to the 26 miles already completed and 37 miles of old trail. Eight miles of road were also added by the operation of the 10 per cent fund. One hundred forty-seven miles have been built without the aid of the forestry service funds within the national forest, and a total of 195 miles of telephone wires are now being installed in the forest.

To date over 28 miles of fence has been constructed for drifting stock and 28 watering places have been developed.
