**Club Makes Showing.**

Oregon Agricultural College, Corvallis, July 28.—The Cookery Club of Roseburg has done its part to uphold the record made this year by club workers in Douglas county. It has finished its work in the "100 per cent efficient" class, according to information received by H. C. Seymour, state leader of boys' and girls' club work. The 12 members are under the leadership of Mrs. D. N. Gilmore of Roseburg.

Chas. McElligott, prominent Ione wheat farmer, has purchased a Mack truck to use in getting his wheat to the warehouse.

R. J. Carsner, prominent stockman, spent a few days in Heppner the first of the week. He was accompanied by Mrs. Carsner.

Father Cantwell of this city visited with Father Wand in Condon last week. Father Wand is leaving shortly for a visit to his mother at the old home in Germany and will also spend some time in Ireland before returning to Condon.

**Times Have Changed the Size of the Ante.**

Remember when sheepherders and camp tenders used to get fifty dollars a month and even less? The boys used to play a little seven up or draw poker in those days too, but they say the ante was about five cents and the pot about fifty. Now times have changed. Wages are higher and the shepherd of yore was a tame guy in comparison with the man who runs the boss's sheep in these high price seasons. We heard of a little game between two of these flock tenders the other day where the pot was thirty dollars. They started in by wagering horses until one man had all the horses and then they had to go back to old legal tender, which soon followed in the tracks of the horses and they were probably just getting ready to put up a few bands of sheep when darkness overtook them. Such is the life of the modern day shepherd.

**BOYS**

BOYS are well-known. You don't have to go to far lands or to the County Fair to look upon them. Everywhere, it is still the style to have Boys.

Perhaps you are trying to run one or more Boys right this minute. Then you will know that since the world began they were never so tremendously important as now. Your hopes and your aims center on them. You must deliver them out of Boyhood into successful Manhood.

Will your sons stay with the land, or will the will-o-the-wisp of the cities call them away? Armies of country Boys, who could be happiest and most successful on farms, respond to the artificial glamour of town life before they are old enough to know their own minds. They do not know that the rewards of country life—in money, health, and happiness—are far greater. Make them realize that! Guide the restless ambitions of your Boys and spare no pains!

Machines have been a powerful factor in stemming the flow to the cities. Machines banish drudgery and make labor interesting; machines foster the love of mechanics in the Boy; machines are builders of fortunes.

You now own many of the machines made by the International Harvester Company. We are headquarters for the International Full Line, including Titan tractors, International engines, and manure spreaders, Primrose cream separators, McCormick and Deering harvesting, haying, and corn machines, tillage tools, P&O plows, etc. Give the Boys every chance for liking farming and farm life. Perhaps more of these machines will help keep them contented.
