INDIANA SETS PACE IN ESTABLISHMENT OF STATE PARKS

Indiana, the Hoosier state, has adopted a policy looking toward establishment of state parks, which it followed out by all our commonwealths would make our national park system the greatest in the world. It is an example which all states could well afford to follow. The two state parks which Indiana now has are controlled by the Indiana Department of Conservation, Richard Lieber, director. The newest is Turkey Run Park—comprising 280 acres and located about 63 miles from Indianapolis, easily accessible by rail or motor. More than 33,500 persons enjoyed its natural and restful pleasure last year. The photos show the new modern hotel erected there last year and the bathing pool in Turkey Run Creek.

ALASKA AND RETURN BY AIRPLANE

One of the most difficult aerial flights ever attempted in this country is now under way. Four planes, comprising the Alaskan flying expedition, left New York July 15th for Nome, Alaska, and return, a trip of 9000 miles. Above are the five officers who, with three sergeants, are now on their way across the continent. Captain St. Street (at the left) is in command of the expedition.

suffered from the hail.

The farms of Hendrickson Brothers and of Mark Dickinson, the two Frazier brothers and of Albert Wilson, in the same general locality were also in the path of the storm and the damage was very heavy.

The hail did not reach the valley, but passed over some of the hill districts to the northeast. In many places it lay on the ground several inches thick and some farmers gathered enough easily to freeze ice cream.

For several weeks no general rain has fallen in the county, but some parts have been blessed by local showers. Last Sunday a heavy rain fell in the valley from Lostine to below Wallowa, and passed on north to Flora and the timbered country. Showers have visited Elk Mountain and all the hill land east and south-east. Those districts which escaped hail have excellent grain.

But other districts, nearer to the valley, are decidedly parched and will not produce the wheat, oats and barley which were promised by early June conditions. The yield for the county probably will be more than

GRAIN DESTROYED BY BIG FALL OF HAIL

Heaviest Damage Done on Farms of Paradise—Some Wheat Total Loss.

(Enterprise Record-Cliefstaff) A violent hail storm passed over the extreme north end of the county last Tuesday, doing damage of many thousand dollars. Standing grain was

laid low, orchards stripped of their fruit and leaves, and shingles beaten off the roofs. It was part of a storm which visited many sections of the Inland Empire.

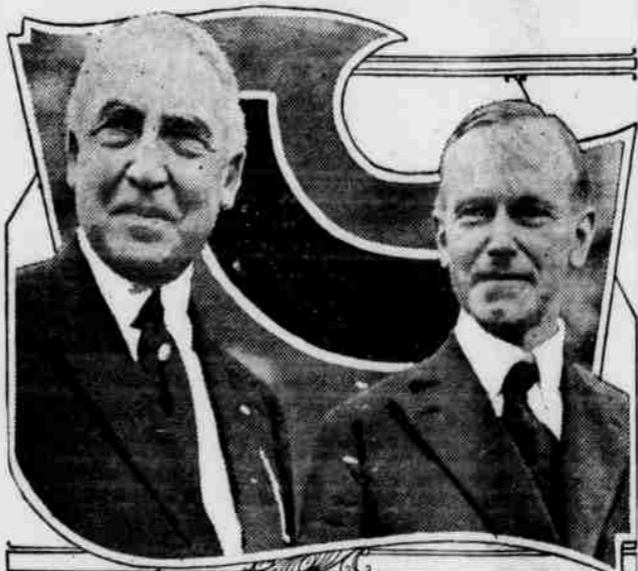

The loss was heaviest in one of the choicest farming districts of the county, the north part of Paradise. D. W. Kuhn had 200 acres of wheat that gave promise of yielding 40 bushels. This was laid as flat as if a roller had passed over it. Mr. Kuhn had intended going to Flora a few days before to take out hail insurance, but his car was not working well and he postponed the trip. His orchard also

COX AND ROOSEVELT CALL ON PRESIDENT

Governor Cox and Assistant Secretary of the Navy Franklin D. Roosevelt, Democratic nominees, at the Union station in Washington after the conference with the president. A complete agreement on the League of Nations has been formally announced by the president. The conference between the three men lasted one hour.

HARDING AND COOLIDGE

The Republican Standard Bearer photographed together for the first time in the garden of Senator Harding's Washington home.

AGRICULTURE PREXY FOR THE SENATE

E. F. Ladd, president of the North Dakota College of Agriculture, defeated Senator Gronna of North Dakota for the nomination and now Republicans and Democrats are wondering where he will line up in the Senate if elected. He is backed by the Nonpartisan League.

Better Livestock Breeds In Oregon In Now In Sight

Boys and Girls in Club Work are Taking Great Interest in Pure Bred Animals.

Oregon Agricultural College, Corvallis, July 28.—Pure bred stock placed with boys and girls of Oregon in club work is expected to do much toward building up the pure bred stock industry in Oregon, by the state leaders of club work. The young people, it is said are interesting the grown-ups in paying more attention to quality of stock.

L. J. Allen, assistant state club leader, announces that live stock placed with the boys and girls includes 84 dairy calves valued at \$14,795; 50 beef calves, \$12,280; 54 brood sows, \$4,120; 141 weanling pigs to be grown for meat purposes, \$1,180; and 87 pure bred pigs, weaning age, \$1,760.

The price paid for the stock was small enough to make it possible for the young people to make a profit. The club leaders have put special stress on the fact that not only should an animal be pure bred, but of good strain.

BIG ELEVATOR BURNS

Fire Also Destroys Smythe Warehouse at Shuter.

Last Wednesday night the elevator at Shuter and one of the warehouses owned by Smythe Bros. were completely destroyed by fire. The other Shuter warehouse, belonging to the Arlington Lumber Co., was not damaged.

The warehouse reported contained very little grain, burns stating that only 400 sacks were there, it being wheat left over from last year. No information was received here as to the amount of the loss or whether it was covered by insurance.

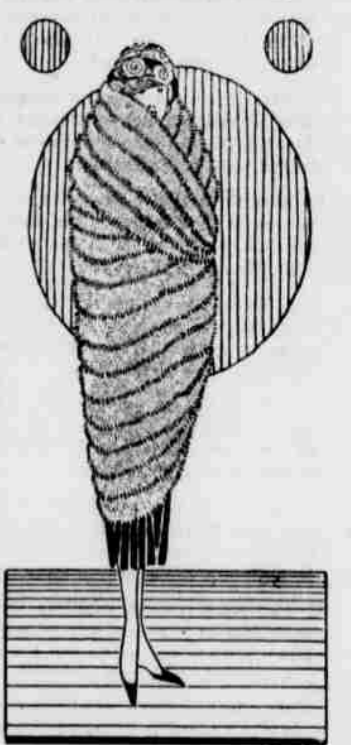

The elevator was the property of G. A. Hart of The Dalles and A. M. Cannon of Portland. It was built in 1917, and had a capacity of 130,000 bushels but had not been used. Wednesday morning Mr. Hart was in London closing a deal with Dan Thomas to take charge of the elevator at the time he was notified of the fire.

The elevator company was incorporated for \$30,000 about the cost of the building, although it would have cost much more to erect it at present prices. Insurance amounting to \$20,000 was carried.

With the big grain crop on Shuter Flat the loss of these two buildings may work a hardship on some of the shippers. It is probable that a large loading platform will be erected where the elevator stood, and grain handled on it.

Mr. Hart stated that he would re-

OUR BUTTERFLIES TO BE CATERPILLARS

Fashions will cause many to reverse nature this winter, judging from advanced showings of furs. For it will mean the reversal of our summer butterfly into a "caterpillar." Honest, now, isn't that just what she looks like in this new big cape of skunk. It is the most popular model yet shown for 1920-21.

HARDING'S PRINTING PLANT

Senator Harding's main hobby is his newspaper, the Marion (Ohio) Star. The photograph shows the interior of the composing room of the Star.

Let us figure with you on that next job. We will GUARANTEE SATISFACTION.

BARNARD & EMRY

THE BANK AND THE YOUNG BUSINESS MAN

This bank prides itself on the fact that many a young business man has sought and received helpful advice here on monetary affairs.

Today's young business man is tomorrow's captain of industry. And many a big man today admits that his success is due in no small part to the friendship established between himself and a strong progressive bank.

We invite small accounts of young business men. In time these men will come to regard this as THEIR bank—the bank which helped them grow. Join them.
