Homely Remedies For Economic Ills

Many persons have given much advice on how to increase the necessities, get rid of waste, and bring the nation back to a universally prosperous condition again, but all of it can be reduced to this old formula:

WORK

to produce more goods and develop natural wealth, and

SAVE

to build up a reserve fund for yourself and for your community to use to further legitimate industry.

A savings account will help you to build up the reserve you need.
