**Early Picked Pears Inferior.**  
Early picked pears are decidedly inferior in quality to those harvested later, says the O. A. C. Experiment station. Pears picked from the middle to the end of the season likewise keep slightly longer in cold storage than the early picked fruit. Growers can get the pear harvesting and storage bulletin by writing to the college at Corvallis.

**Engineering Facilities Enlarged.**  
With the completion of the new engineering building at O. A. C. the class room and laboratory space for engineering work will be doubled. The building will be ready for installing equipment the latter part of August, and ready for college opening this fall. The faculty has been increased 25 per cent, and much new equipment added. Thus the school redeems its promise of adequate facilities for all Oregon young men that seek engineering education.

**BOYS**

**BOYS** are well-known. You don't have to go to far lands or to the County Fair to look upon them. Everywhere, it is still the style to have Boys.

Perhaps you are trying to run one or more Boys right this minute. Then you will know that since the world began they were never so tremendously important as now. Your hopes and your aims center on them. You must deliver them out of Boyhood into successful Manhood.

Will your sons stay with the land, or will the will-o-the-wisp of the cities call them away? Armies of country Boys, who could be happiest and most successful on farms, respond to the artificial glamour of town life before they are old enough to know their own minds. They do not know that the rewards of country life—in money, health, and happiness—are far greater. Make them realize that! Guide the restless ambitions of your Boys and spare no pains!

Machines have been a powerful factor in stemming the flow to the cities. Machines banish drudgery and make labor interesting; machines foster the love of mechanics in the Boy; machines are builders of fortunes.

You now own many of the machines made by the International Harvester Company. We are headquarters for the International Full Line, including Titan tractors, International engines, and manure spreaders, Primrose cream separators, McCormick and Deering harvesting, haying, and corn machines, tillage tools, P&O plows, etc. Give the Boys every chance for liking farming and farm life. Perhaps more of these machines will help keep them contented.
