Test and Market Weight of Wheat Are Different

Former Determines Quality, Latter Quantity, But Are Frequently Not So Understood.

Oregon Agricultural College, Corvallis, Oct. 5.—The difference between the test and the market weight of wheat is one of the common misunderstandings in the grain business, says G. R. Hyslop, head of farm crops at O. A. C.

"The test weight is used only to determine quality, or grade," says Professor Hyslop. "A bushel is 60 pounds in Oregon, and if the grains are plump and of good quality a measured bushel will weigh 60 or more pounds. If shriveled the wheat in a measured bushel may not weigh more than 56 pounds, or if badly pinched as low as 44 pounds."

But this does not make the selling weight, which is 60 pounds regardless of how many pounds the wheat weighs to the bushel. The selling weight remains the same for all wheat, but the test weight varies with the quality, which determines its grade and price.

The test weight is prescribed by the bureau of markets, federal department of agriculture, and to be fair must be made exactly as prescribed. "Light weight wheat, 54 or 56 pounds per bushel, is not so desirable for milling as similar wheat having a test weight of 60 pounds. The heavier wheat usually is more plump and yields more flour."

"Mills occasionally pay more for pinched wheat than plump, as it has a higher gluten content and is needed to strengthen the flour output. But the tendency in many cases has been to pay more for the soft, starchy wheat that could be blended with the pinched wheat to weaken the gluten content." The harvest of 1921 should show not less than 15,000 acres of certified seed of good strong vitality in Morrow county.

Farmer Faces Heavy Loss.

By L. A. HUNT, County Agent.

A canvass of the majority of the grain dealers of the county reveals the fact that the average bushel of wheat as sold on the markets of Morrow county stands a discount for mixture and other deficiency due to mixture amounting to approximately 5 cents per bushel. Some dealers place it as high as 6.5 cents.

The fact that the majority of the wheat is sold on sample does not alter the fact that the purchaser considers the value of the wheat from the grading standpoint at the regular government grades apply in resales and export trade.

The wheat crop of Morrow county this year is from 1,500,000 to 1,750,000 bushels and this loss is no small item for the county as a whole—it amounts to nearly three times the money available for county road construction each year. To the man who has 5000 bushels to sell it means a loss of \$250 dollars—a very tidy sum these hard times.

Everybody knows that carefully selected seed of standard variety, test and of good vitality will produce a heavier yield than seed that has degenerated through foul mixtures and improper selections from year to year. The amount of this difference is difficult to estimate because of the variety of conditions but if it were only one bushel per acre, what would that mean to the average farmer? And from the standpoint of the county as a whole it would mean not less than \$200,000 per year.

Last year there were in Morrow county not to exceed 600 acres of grain of standard variety test. This year the Farm Bureau has examined and certified over 6000 acres and from information available it is believed that not less than 7500 acres of good seed were grown in the county. This increase is largely due to the shipment of Turkey and Hybrid last season. This year with the distribution of im-

Bring your old shoes to E. N. Gonty's shoe store and get them repaired.

Young & Sons.

ONLY TWO DRY COMMISSIONERS IN WORLD

There are only two national prohibition commissioners in the world—for the United States and Finland. And here they are: Dr. M. Helenius of Finland and J. F. Kramer of the United States. They were both delegates to the 15th International Congress Against Alcoholism, held at Washington, D. C., this year—the first time the congress has ever convened in a dry country.

NOTICE

The county court of Morrow County calls attention of the public to the fact that at its September meeting, in compliance with the wishes of a representative number of road districts within the county, assembled in the court room at that time and for that purpose, did redistrict the county in order to make the road districts smaller and more suitable to the residents of the various districts.

A number of the districts are positioning the court to call a special road meeting in the district in order that the people of the district may talk over the matter of the road situation of the district and vote on a special road tax for the improvement of special places in the district that may especially require it.

The present regular district money, which is a 2 1/2 mill tax, the same as it was before the war, is insufficient to take care of the district needs and a small special tax appears to be the best solution of the problem. Blanks for

the petition may be had by applying to the county roadmaster or the county clerk. Such petition the law requires, shall be signed by three or more freeholders of the district and presented to the county court not later than its regular November meeting.

W. T. CAMPBELL, County Judge. E. L. PADBERG, County Commissioner. J. A. BREAKMAN, County Commissioner.

A new subscriber to The Gazette-Times this week is Arnold G. Piper, who farms northeast of Lexington. Mr. Piper recently completed a modern farm house on his ranch.

George J. Currin, former prominent sheepman and county commissioner of Morrow, is up from his Gresham home this week to visit relatives and friends and incidentally look after a few of his business interests which he still retains here.

A REMARKABLE SIGN OF THE TIMES

Hung conspicuously in a saloon in Chicago the above sign is creating considerable comment.

HOME SWEET HOME
by Earl Hurst

ARE YOU REALLY MY GRANDMA? I GOT ANOTHER ONE TOO!

YES MY DEAR (M) YOUR GRANDMA ON YOUR FATHER'S SIDE

WILL YOU HAVE A CUP OF TEA MOTHER?

ILL TELL YOU ONE THING! RIGHT NOW GRAMIE! YOU'RE ON THE WRONG SIDE!!

WHAT you lose thru baking failure must be added to baking costs—it has to be paid for.
Calumet Baking Powder will save you all of that. Because when you use it—there are no failures—no losses. Every baking is sweet and palatable—and stays moist, tender and delicious to the last tasty bite.
That's a big saving—but that isn't all. You save when you buy Calumet and you save when you use it.

Pure in the can - Pure in the baking

CALUMET BAKING POWDER
"BEST BY TEST"

It is reasonable in cost and possesses more than the ordinary leavening strength. You pay less and use less. You get the most in purity, dependability and wholesomeness.

In every way — it is the best way to keep down baking costs. That's what has made it the world's biggest selling baking powder — has kept it the favorite of millions of housewives for more than thirty years.

Point can of Calumet contains full 16 oz. Some baking powders come in 12 oz. instead of 16 oz. cans. Be sure you get a pound when you want it.

Calumet Sunshine Cake Recipe
1/2 cup of butter, 1 1/2 cups granulated sugar, 2 1/2 cups flour, 1 cup water, 2 level teaspoons Calumet Baking Powder, 1 teaspoon lemon, yolks of 9 eggs. Then mix in the regular way.
