

COX'S VARIED ROLES

BY SCOTT C. BONE.

At "one" with Woodrow Wilson and for Wilsonism and all it implies, without reservation, yet beseeching a weary, tax-burdened country to elect him president. That's Candidate Cox. An exponent, for campaign purposes, of progressive thought and lofty ideals, yet nominated and backed by Boss Murphy, Boss Brennan, Boss Taggart and Ed Moore! That's Candidate Cox. Wettest of the wet aspirants for president, save Edwards, by Bryan's appraisal, and as a Democratic convention dominated by the wets, yet now endeavoring to convince an arid country that he is dry and ever has been a dry! That's Candidate Cox. Charging that a corruption fund of \$15,000,000 was being raised to buy up the presidency, and then, at safe distance from the seat of inquiry, raising the amount to \$30,000,000, yet without producing an iota of evidence in support of his wild charges. That's Candidate Cox. A machine-made politician, vouched for by Tammany, yet pretending to have been given the light in 1912 as a disciple of Theodore Roosevelt and Hiram Johnson! That's Candidate Cox. Arranging the press for not taking him seriously by printing his speeches, yet knowing, as a newspaper man, that the cost of print paper under this administration is too high to give space to mere words! That's Candidate Cox. Crying out against a mythical "Senate oligarchy," because the precious Wilson covenant failed of ratification, yet with full knowledge that hostility of Democratic senators rendered ratification impossible! That's Candidate Cox. A mild, dodging critic of Burlesonism and Palmerism, when confronted by hecklers on the west, yet committed unqualifiedly to Burlesonism and Palmerism by the Democratic platform! That's Candidate Cox. An apologist for the sinking of the Lusitania, a pacifist of the Newton Baker stripe as clouds gathered, and intervening on behalf of a rich slacker when war came on, yet today appealing for the support of American sons who went to the front! That's Candidate Cox. Dry to the dries, wet to the wets, spiritual to the spiritual, all things to all crowds, in the face of the G. O. P. landslide clearly impending, yet never daring to deviate in his devotion to Wilsonism or the Wilson League by the dotting of an "i" or the crossing of a "t"! That's Candidate Cox. And, finally—an acrobatic Ajax defying the lightning of public disapproval! That's Candidate Cox.

Muscle Not Properly Applied.
Every day evidence appears that the American male is physically more powerful than his ancestors. The burglars who entered an apartment on Central Park West carried off not merely the little valuables, but also a safe weighing 400 pounds. Two thieves who operated in a restaurant in business hours abandoned the old school method of searching the money from the till and took the cash register intact. Not a week passes but some warehouse reports the theft of a dozen barrels of whisky each of which weighs at least 350 pounds. School playgrounds, the baseball fields and the gymnasiums seem to have done wonders for the hips of our youth in certain lines. But why is it, when in the evening the following telegram was received from her sister's "hubby" in New York:

Wouldn't Have Dared to Say It.
A recent bride received many telegrams of congratulation on the eventful day, but there was one in particular which was out of the ordinary. Her sister lives in New York and came on to Brooklyn for the wedding. In the evening the following telegram was received from her sister's "hubby" in New York:

"Congratulations on having taken my wife from me if only for a day. If you keep her there, will consider the marriage a great success. Heartiest condolences to F—in having joined the — family. He doesn't know what he is up against and my great consolation is that I have a fellow sufferer who can sympathize with me regularly."
At first Mrs. M—was angry, but finally consented to have it read.—Brooklyn Enterprise.

CAN OR DRY FARM PRODUCTS

Fruits and Vegetables Can Be Gathered and Treated When at Proper Stage of Ripeness.

It is particularly desirable to can or dry the fruits and vegetables raised on the farm, as the raw products can be gathered and treated when absolutely fresh and at just the proper stage of ripeness and tenderness for best results, says the United States department of agriculture. The average farm probably raises annually more than 150 quarts of fruits and vegetables, the greater part of which is fruit. Canning clubs have been instrumental in stimulating interest in canning on the farm. The drying of fruits and vegetables, an old farm art until recently on the decline has been revived quite generally within the past two years. This process offers a good means of preserving perishables without entailing expense for containers, as in canning.

MAKING MUTTON-TOMATO PIE

Excellent Method for Use of Cold Meat is Given by Department of Agriculture.

An excellent way to use cold mutton is to bake it with tomatoes, using alternate layers of tomato and meat. A tomato sauce may be used or the following method may be employed: Place in the baking dish a layer of fresh tomatoes or of cooked tomatoes which have been either drained or reduced in volume by boiling. In the dish place a layer of meat dressed with flour, salt and pepper and add small bits of butter. Continue the layers until the casserole is full, arranging to have a layer of buttered bread crumbs or cracker crumbs as a cover. Bake until the crumbs are brown. In following this method use tomato, butter, and flour in the correct portions for tomato sauce—two level tablespoonfuls each of butter and flour for each cupful of tomatoes.

Household Questions

A "breakfast alcove" is handy in the kitchen.
Canning gloves are excellent to use when dusting.
Add a cupful of jam to a cottage pudding mixture. Omit other sweetening.
When making coffee sprinkle a little salt on the coffee before pouring on boiling water, and the flavor will be wonderfully improved. Always see that the pot is warmed before making coffee.

Japan's Trade With North America

Japan's trade with North America for the first quarter of this year amounted to 291,824,000 yen in exports and 276,034,000 yen in imports, the balance being 15,790,000 yen. Compared with the corresponding period of last year, the figures show an increase of 114,347,000 yen in exports and of 102,744,000 yen in imports. The principal article for export was raw silk, while principal imports comprised raw cotton and iron.—East and West News.

Human Chain Saves Girl.

Chippewa Falls, Wis.—To the presence of mind of Miss Marie Cuddy of Spooner, Wis., Miss Norma Marshall of Chippewa Falls owes her life. The two girls, with four other girls, were bathing in Poppel lake when Miss Marshall stepped into a deep hole and went under. None of the girls could swim but Miss Cuddy quickly lined them up and formed a human chain from a tree on the shore to the drowning girl. Miss Cuddy grabbed her as she came up the second time, and the human chain pulled her in. She was revived after ten minutes of hard work.

TRAPS HELP REDUCE PESTIFEROUS FLIES

Best Plan is to Completely Destroy Breeding Places.

Bulletin issued by Department of Agriculture Gives Full Directions for Making and Operation of Various Devices.

As a supplementary means of controlling flies, traps are of much value. To obtain freedom from the pests the best method is either to dispose completely of their breeding places or to treat these places with chemicals. Traps will help capture the flies that have escaped from destruction in other ways.

Fly trapping should begin early in the spring to be most effective. Although comparatively few will be caught then, their destruction means the prevention of the development of millions of flies by midsummer.

The same general principle is involved in setting all fly traps, although they may appear quite different. The flies are attracted into a cage through a passage the entrance of which is large and the exit small, so there is little chance of the flies, once inside, finding their way out again. One kind is a window trap which catches the flies as they endeavor to leave or enter a building. The entrance can trap outside those that have entered garbage cans. The manure box trap catches the flies which are bred from infected manure put into a box. A bulletin issued by the United States department of agriculture for free distribution gives full directions for making and operating a number of kinds of fly traps.

The question of selecting the best bait for flies is an important one. It should be remembered that it is usually the fermentation which renders the material attractive to these insects, and that baits are most attractive during their most active period of fermentation. For the house fly, experiments indicate that a mixture of cheap cane molasses, if mixed with three parts of water, the attractiveness becomes marked the second or third day.

Sticky fly papers are of some value in destroying flies which have gained access to houses, but they have marked limitations and numerous objectionable features. For use out of doors traps are much more effective and economical.

Probably the best poison bait for house flies is formaldehyde in milk, used at the rate of about two teaspoonfuls of formaldehyde to a pint of a mixture of equal parts of milk and water. This is placed in places frequented by flies. A piece of bread or a sponge adds to the attractiveness. As formaldehyde is a poison, this bait must be kept away from young children.

RIGHT CARE OF COW'S TEATS

One of Most Delicate and Troublesome Parts of Animal's Anatomy—Influences Milk Flow.

One of the most delicate and troublesome parts of a cow's anatomy is the teat, and the keeping of this right has a lot to do with the milk-yielding part of the cow. The cow is kept to produce milk, and the teat is, as it were, the "neck" through which it must pass, and the condition of the teat must vary much according both the quantity and the quality of the yield.

SUMMER ATTENTION TO COWS

Fly Aggravation Can Be Reduced by Keeping Animals in Stable During Heat of Day.

Keeping cows in a cool darkened stable during the heat of the day and turning them out to pasture at night will tend to reduce the fly aggravation. All stable doors and windows should be screened, and manure, which is the breeding place of flies, should be kept cleaned away and either scattered over the fields or kept in a place where it can be secured.

MIXED VEGETABLE CHOWDERS

Nourishing and Substantial Dish Well Liked by Majority of Farm People.

A mixed vegetable chowder is a substantial dish and one well liked by the majority of people for luncheon or supper. The following recipe is one recommended by the home economic specialists of the United States department of agriculture:

- 1 tablespoonful fat, 4 potatoes, or a piece of salt 1 carrot,
- 1/2 cup milk, 1 onion,
- 1 level tablespoon- 1 pint canned to-fuls flour, 1 potato,
- 2 teaspoonful salt, 2 cupfuls skim milk.

Cut potatoes and carrots in small pieces, add enough water to cover, and cook for 20 minutes. Do not drain off the water. Brown the chopped onion in the fat for five minutes. Add this and the tomatoes to the vegetables. Heat to boiling, add two cupfuls of skim milk, and thicken with flour. Celery tops or green peppers give a good flavor, too.

Smart Hosiery For Women

HOLE-PROOF HOSIERY has not only the dash and style, but also a lasting wearing quality which has made the name HOLEPROOF a by-word among discerning people who want quality.

We carry a complete line of hosiery in prices ranging from \$1 up

Sam Hughes Company

Oregon Must Have a Port Equal to Any Port on the Pacific Coast

Initiative measure No. 310 on the ballot gives to the Port of Portland means to create such a port.

The primary object of this bill is to furnish the means to insure the opening and maintaining of a 30 foot channel from Portland to the sea and of building and establishing port facilities at that port.

The cost of this improvement will be met by the people living within the boundaries of the Port of Portland.

When you go to the Polls November second vote 310 YES and give to the Port of Portland the power to maintain its 30 foot channel to the sea and to build adequate port facilities to handle all of the great products of the interior of the state.

The passage of this bill means lower freight rates for the products of Oregon in reaching the markets of the world and a consequent greater profit to the producers.

This is the most important and the most valuable measure that has ever been put up to the voters of the interior portions of the state.

VOTE 310 YES

OREGON PORT DEVELOPMENT LEAGUE

(Paid Adv.)

G. S. O'NEAL, Secretary.

Must Be Kept Beating

Fourth Annual Red Cross Roll Call

ARMISTICE DAY, November 11 to THANKSGIVING DAY, Nov. 25th

There are five classes of memberships:

- Annual, or \$1 memberships.
- Contributing, or \$5 memberships.
- Sustaining, or \$10 memberships.
- Life, or \$50 memberships.
- Patron, or \$100 memberships.

50 per cent of the Annual and 80 per cent of the Contributing and Sustaining memberships will be retained by the Morrow County Red Cross Chapter for carrying on the local work.

Everybody Has an Opportunity to Become A Member of This Humanitarian Organization

Believe Me If All Those Endearing Young Charms

There is hidden treasure in the simple melodies of by-gone days. It's a treasure that lies locked in the storehouse of memory. And the key that opens it to you is music.

But you need not be a musician to make this treasure your own. Nowadays the Cecilian Player, "the piano that any one can play," is carrying the charm of music into the hearts of America's finest homes. With the Cecilian, you become the master musician. Won't you let us acquaint you with this superb instrument?

Cecilian Player-Pianos

Made by BUSH & LANE

By the purchase of a Cecilian from the manufacturer under our direct plan of selling, you not only obtain the HIGHEST GRADE PLAYER-PIANO IN THE WORLD with an unconditional guarantee, but are required to pay no more than the price ordinarily asked for instruments of lesser quality.

Bush & Lane Piano Co.

Portland, Oregon.

Get yours! I am interested in the purchase of a player-piano. Will you kindly send me without obligation on my part, a booklet containing our plan and other information regarding player-pianos that may be of interest to me.
