The Art Preservative
is coming into its own.

The two great national political parties this year chose as their standard bearers, men who devoted years to the newspaper profession. One of these men is as familiar with the inner workings of the country print shop as will be found anywhere.

As a result of their nominations, and in spite of what the vote may decide, the fact remains that the next President of the United States will be a newspaper man.

What greater tribute could be paid to print-craft?

These men attained their success in life and gained the confidence of their fellow men through giving service.

In our own small way we would emulate these men.

SERVICE goes with Gazette-Times quality printing.

SERVICE is the idea embodied in The Gazette-Times, Morrow County's Big Home Paper.

Delay means decay
paint right away with...

FULLER PAINT

THE life, the value, the beauty of your home, depend on the care you give it. Weather-beaten and warped siding, cracks and open joints are forerunners of decay. Many property owners neglect to look for such signs, judging their houses and buildings by general appearances only. It is good business to make regular inspection of your property, and to use paint of good quality, which is the surest preventive of decay. Through the varying conditions of weather in all their extremes, FULLER Paint has proved both its preserving and beautifying qualities—a Pacific Coast Product for Pacific Coast requirements. 71 years of paint manufacturing experience are back of every brushful of FULLER Paint.

Some of the FULLER Products

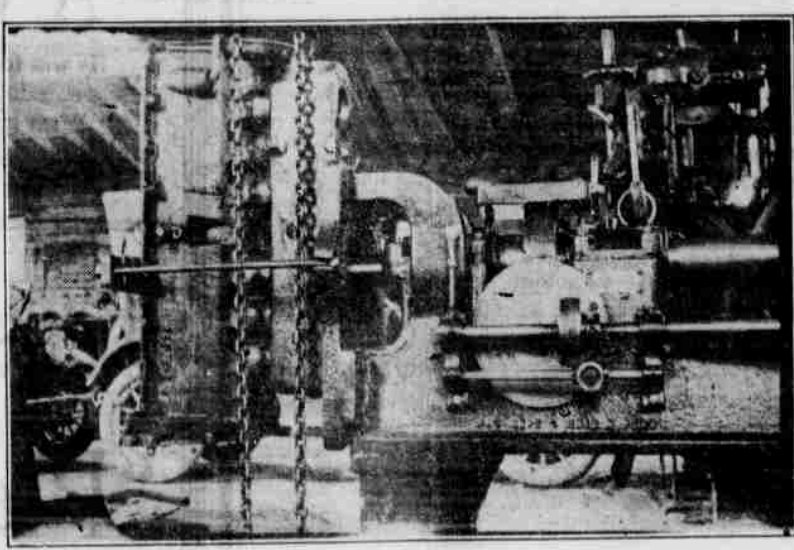

HOUSE PAINT	DECORET—combined stain and varnish in all shades for refinishing furniture, etc.
FLOOR PAINT	VARNISHES
PORCH and STEP PAINT	DEKORATO—the Sanitary Kalsomine
SHINGLE STAINS	AUTO ENAMEL
SILKENWHITE ENAMEL—For interior woodwork.
