The fine weather of the past two weeks has been ideal for seeding, and the farmers of the lower Eight Mile section, as well as the surrounding country, have been very busy seeding. Much of the grain is up now and growing splendidly. The section of country out north of Lexington is likewise putting on a coating of green, and much of the grain sown there is coming along with a good growth. It has been a fine fall for seeding and the farmers have not failed to take advantage of the favorable conditions.

Salem.—Split prunes, which heretofore have been almost valueless except for local consumption, are being shipped from Marion county to eastern states, where they are commanding 8 cents a pound. States bidding for this variety are Montana, Wyoming, Idaho, North and South Dakota. Arrangements are also in progress whereby large shipments of prunes may be sent to Hamburg, Germany, the cost of transportation being 55 cents for each 25 pounds.

Wheeler.—Commercializing of a natural resource has been planned for by two men who have purchased 42 acres of land, including Classic lake, near Wheeler, and are making arrangements to breed rainbow and eastern brook trout. They have already secured a market both for the fish and surplus eggs. Although the hatchery is the only improvement planned at the present time, the new owners hope eventually to erect a hotel and conveniences for sportsmen.

Portland.—Flour is now moving to the Orient in larger quantities than in many years. The steamer Abercon, now loading several thousand tons for Yokohama, Kobe, the Philippines and other points, is the first vessel to take out a cargo under the new rate reduction, which will permit Oregon to compete with Canadian shippers. The drop is from \$10 to \$7 a ton.

It is turning out a superior grade of mill paper at the rate of five tons daily and employs 150 people, working three shifts.
