FOREIGN RELIEF WORK IS NOT OVERLAPPING

Near East and European Relief Distinguished by Joint Announcement

PORTLAND, Or. Dec. 8.—To the Editor:—Because there seems to be some confusion in the minds of many in the state regarding the two appeals now being made to the American public for the starving children in foreign lands, the following announcement has been made by the managers of the two funds in Oregon.

"The Near East Relief is caring for the children in Asia Minor, including Armenia, Syria, Palestine, Mesopotamia, and the Caucasus. Among those on the committee of this relief fund are Cleveland H. Dodge Henry Morgenthau, Rabbi Stephen S. Wise, Cardinal Gibbons C. V. Vickrey, and many others. This campaign has been under way since June.

"The European Relief council is also for child relief—Roumanian, Bulgarian, Serb Croatian, Austrian, Hungarian Ukranian, Pole, Esthonian, Levantian and German. This contribution is under the direction of Herbert Hoover, the following associations being banded together in the work: American Relief Administration, Y. W. C. A., Y. M. C. A., American Red Cross, Jewish Joint Distribution committee, American Friends Service committee, Knights of Columbus, and Federal Council of Churches. This collection begins December 13, 1920.

It will be seen from this statement that there is no duplication in the work of the two committees one in Europe and the other in Asia Minor. There will be no conflict or overlapping of fields of endeavor. When two children are hungry, it is not necessary to ask which is the hungrier so long as we have enough food for both, and America certainly has enough wealth to supply every need of suffering childhood whether in Europe or in Armenia.

Because we believe that Oregon, once it understands the gravity of the situation, will fully subscribe the quota of both funds, we unite in urging that what is being contributed for one fund shall not be diverted to, or divided with the other. Money given for the Near East Relief should be sent to the Near East Relief, 606 Stock Exchange building, Portland; and money given for the European Relief council should be sent to 522 Selling building, Portland.

J. J. Handsaker, director Near East Relief, for Oregon.

Robert H. Strong, chairman for Oregon. European Relief council.—Oregonian, Dec. 10, 1920.

In this connection it is proper to state that the drive is now on to raise Morrow county's quota for the European Relief council it being the plan to put over Oregon's quota by the end of the month and thus have this work taken care of.

Please go to your bank and leave your contribution. It will be properly taken care of there and in this way Morrow county will receive credit on her quota.

Remember $10.00 saves the life of a child until the next harvest.

VAWTER CRAWFORD,
County Chairman.

Mr. and Mrs. L. L. Jakes of lower Eight Mile were in Heppner over Tuesday. The snow fall out his way was to the extent of about nine inches, states Mr. Jakes, and some rain coming on it caused a lively melting process to set up and much moisture is going into the ground in consequence. In his locality much fall seeding was done and most of the grain has taken a fine start.

Lawrence Palmer, extensive wheat farmer just west of Lexington, was a business visitor in this city on Tuesday.

TELEPHONE CREDIT

The telephone company will be compelled to borrow large amounts of money in the next few years, not only to extend its service to new subscribers, but to take care of the constantly increasing use of the service by present subscribers.

A lender in business will demand of a borrower ample security and will insist that its value be maintained without deterioration. He must be shown that this security has an assured earning power. He must be satisfied that his investment is safe; that it can be disposed of at any time without loss and that it will bring him a continuous return.

At the present time this company's operations in Oregon are conducted at a deficit. Its expenses are greater than its revenue. No return is being received by its stockholders from their property in Oregon. Not even the interest on its bonds properly chargeable to its Orgon properties is being paid from Oregon receipts.

With new capital scarce and commanding high rates of return, a business showing operating results such as these will find it difficult, if not impossible, to secure money for its necessities.

We assume that the people of Oregon wish to treat the utilities doing business in this state justly and fairly, and in this behalf we have asked the Public Service Commission to approve a schedule of rates increasing our revenues. The amount asked for is relatively small to the individual rate payer, but the aggregate will place us in a position where we can obtain the outside capital necessary in our operations.

Under present conditions an adequate telephone service—efficient and sufficient—is dependent upon higher rates.
