*An Open Letter*

TO THE PUBLIC:

In view of the fact that many people know very little about safety and convenience of Safe Deposit Boxes we are prompted in using this method of acquainting the public in general with the many advantages connected with them.

In the first place, the vault in which these Boxes are kept, is absolutely fire-proof and the Boxes now in use are new and modern in every respect, and among the finest to be found in the state.

These Boxes are located in a large Customers' Vault, entirely separate from the main bank vault, and built especially for these Boxes.

The Boxes are large enough to contain many valuable papers such as old receipts, insurance policies, deeds, notes, etc., together with other valuables that you may wish to put away.

When renting one of these Boxes you are given a key, and have access to the vault at all times during banking hours. No one has access to your box except yourself or a duly authorized person by yourself.

The rental of these Boxes is but two dollars a year. Can you afford to be without one, when for two dollars you may rest assured that your valuables and valuable papers are absolutely safe, convenient and strictly private.

We invite you to call at this bank and see what convenient safe arrangements we have made to accommodate you, and to protect your valuables against loss from fire and other causes.

Yours respectfully,
