

WE ARE ASKED TO AID STARVING OF CHINA

Meeting Held in Heppner Last Friday at Dinner Hour, Endorses the Plan and Committees Appointed.

There are 50,000,000 million people facing starvation in the province of Shantung, China, and of this number 15,000,000 are sure to perish with hunger before aid can now be gotten to them. B. H. Jones of Forest Grove, who was in Heppner in the interests of the Near East and Chinese relief, met with about forty of Heppner's business men around the dinner table at the Hotel Heppner on Friday last, and presented the claims of the sufferers in the Chinese province of Shantung, who because of three years of crop failures and continuous drought were now in a terrible condition of starvation. Mr. Jones was the principal speaker of the occasion and told of the thousands that have already perished there, how the wells and streams have become polluted with dead bodies of those who were destroying themselves to escape the terrible death of starvation, and impressed all his hearers with the great importance of getting help to them in the shape of money and food-stuffs just as soon as possible. He fully explained the plan being worked out in all the counties where he had been so far.

The economic side of the question was also presented by Mr. Jones. He stated that money would not be needed by the Chinese for there was nothing there for them to buy with it. Foodstuffs, and especially wheat, would fill the need to the greatest extent and this would be the means of stimulating the wheat market of Oregon. Shantung province has always been one of the best markets for our products, and the importance of helping them at this time would help in establishing our future there from a marketing standpoint. China is the friend of America in the Far East and helping them now would cement this friendship, which in the future may be needed.

This relief work is carried on in conjunction with the Near East relief, and John J. Handaker, who has had charge of that work in Oregon will continue at the head of the joint relief work. This is to be divided on a 50-50 basis, to be handled by the present organization, with the addition of other workers.

S. E. Nelson acted as chairman of the meeting Friday, and after hearing Mr. Jones, it was moved that the plan proposed be adopted, which was done, and the following committees appointed: Publicity, S. E. Nelson, S. A. Pattison and Vawter Crawford. On plans, Roy V. Whitely, J. W. Fritch and A. S. Akers. The Near East relief has been asked to assist in this work, and full plans for getting the relief together should be announced early the coming week.

Elk Ladies Will Give High Class Entertainment Mar. 8

On the evening of March 8th, the ladies of Heppner Lodge No. 253, R. P. O. E. will give their entertainment at Elks temple. You have been looking forward to this and awaiting the announcement of the date. The entertainment is given for the purpose of raising funds with which to purchase dishes and equipment for the kitchen and dining room. A general admission of 50 cents with 25 cents for tax was charged and the public of Heppner is invited. The ladies will act as ushers and will be specially costumed for the occasion.

Jason Biddle, Rhea creek wheat raiser, was doing business in Heppner on Saturday.

ROSELTH KNAPP BREED, HUMORIST-ENTERTAINER, IS NEXT LYCEUM NUMBER

Roselth Knapp Breed, Boston's noted humorist, is one of Lyceum's most popular entertainers. She presents a carefully arranged program of monologues, character sketches and short stories. She is a clever interpreter and possesses a finished art which delights at all times. She is more than a reader; rather is she an interpreter of real people in real life. Her "types" are distinctive, and you marvel at her gifted character impersonations. Her work is an art—made so through years of earnest study and successful platform experience.

Last Number on Lyceum Course, at the STAR THEATER, HEPPNER FRIDAY, MARCH 4th

New Commercial Club Secretary Is Being Kept Busy

J. W. Fritch, the newly-elected secretary of Heppner Commercial club, has been pretty busy this week in receiving and answering telegrams concerning various matters in which the community is interested. He was called up by President Jay Dobbin of the Oregon Woodgrowers, to get off a telegram to President Wilson, urging his endorsement of the emergency tariff bill, and this Joseph did after taking the matter up with a number of our woodgrowers. The telegram reads as follows: "President Woodrow Wilson, Washington, D. C. Citizens of Oregon respectfully request that you approve Tariff Bill. Live stock and farming industry practically bankrupt under present conditions. Mr. Fritch also had to take up a matter with the state legislature, and immediately after the meeting at the hotel on Friday, he telegraphed Heppner's endorsement of the Near East and Chinese Relief program to Chairman Handaker at Portland. Joe says he is going to keep Heppner on the may all the time, and will not overlook an opportunity for publicity.

Heppner Debates Stanfield for District Championship

The deciding contest for the district championship in the interscholastic debates will be held between the Heppner high school team and the Stanfield high school on March 5th. The Stanfield team of Stanfield comes to Heppner on this date and our negative team goes to the Unatulla city. This being for the final district decision, it is expected that the representatives of both schools will put up the best fight they have in them, and we shall hope to see the local teams carry off the laurels.

HER PORTRAIT REALLY "SPEAKING LIKENESS"

Roselth Knapp Breed Is True Artist in Recreating Living Types.—To Appear Here Soon.

"At last, the traditional 'speaking likenesses' as a living thing. The artist is Roselth Knapp Breed, who comes to Heppner and will appear at the Star theater on Friday evening, March 4. The portrait is of one of those real people in real life whose fads and follies and fancies give a faint humor to a day that is otherwise dull. The 'speaking likeness' is in truth Miss Breed as she, with the rare art of a portraitist extraordinary, makes those character types human, living, speaking things thru the medium of her own charming personality.

Henry Johnson Dies at Salem: Was Old Pioneer of This City

Word was received here Wednesday announcing the death of Henry Johnson in Salem. Mr. Johnson had been very sick for some time past and was taken to Salem, where he was under the care of a specialist, who treated Mr. Johnson for hardening of the arteries. All that could be done, however, was powerless to prevent the results of the trouble which caused other complications from which Mr. Johnson died. He was past 75 years of age and had been a very active man all his life, only retiring from hard work a few months ago when it became evident that his trouble was fast growing on him. Mr. Johnson lived in this city many years and was one of the early settlers here, engaging in the trade of carpenter. His funeral will be held in this city on Sunday afternoon, next.

Local Hibernians Will Duly Observe St. Patrick's Day

The Ancient Order of Hibernians are preparing to properly and appropriately observe St. Patrick's day, March 17, in this city. They are planning to have a big banquet at the Heppner Hotel at which time the members of the order and many invited guests will be gathered about the festive board. Judge P. H. D'Arcy of Salem is coming to speak and Judge Butler of The Dalles will likely be present also as one of the orators of the occasion.

Broccoli Starts to Head.

Some broccoli shipped from Roseburg to Portland has been inferior and difficult to move at any price, according to statements recently published by several Portland newspapers.

The main broccoli crop has not begun to head and what is being cut now is from one single strain which has not been widely planted and much of which is producing small heads," says Professor Douquet of the department of vegetable gardening at O. A. C. in defense of this producing section. "It will be at least 10 days or two weeks before the best broccoli is fairly under way, this time depending entirely on future weather conditions."

Mr. and Mrs. W. F. Luttrell, of Endicott have been visiting during the past week at the home of Mr. and Mrs. M. D. Clark in this city. Mrs. Luttrell is a sister of Mrs. Clark and mother of Miss Gladys Lane, bookkeeper at the Farmers & Stockgrowers National Bank.

AWAITING THEIR CUE

SUIT FILED TO CONTEST JOHN DAY DIST. ELECTION

A suit has been filed in the circuit court to contest the recent election held in the John Day irrigation district. The suit is filed by S. E. Van Vactor and Woodson & Sweek, attorneys representing the land owners and is in the nature of a contest of the election of C. C. Clark and Ed Rietmann as directors. Al Henriksen of Cecil, a taxpayer in the district, brings the suit against C. C. Clark, M. D. Clark and Ed Rietmann as directors of the district, and the suit is based upon the grounds that they as such directors failed to properly canvass the ballots cast in the election for C. A. Minor and A. Wheelhouse, candidates for directors and who received a large majority of the votes cast. This suit will settle the controversy that has arisen over the action of the directors in maintaining that so far as Minor and Wheelhouse were concerned there had been no election, as they had not been properly nominated, and in taking this view, and retaining Messrs. Clark and Rietmann in office, the directors have been held in error.

Heppner's Library Is Badly In Need of Books and Money

Now that the Heppner Library is open to the public six days of the week, it is found that books cannot be supplied. The ladies are planning to make a canvas of the city and are asking that all those who have books that they have read and are now through with, will not wait to be called upon but will send in the books immediately, delivering them to Mrs. L. G. Herren librarian. Each family of the city is also asked to make a donation of at least 25 cents to help along the work and enable the association to meet its bills. There is not a very great deal of expense and the association is carrying on its work in a very economical way. However, the income is also quite meager and this assistance at the present time is badly needed. Send in your books, along with the donation now and do not wait for the committee to call on you, and all assistance in this matter will be thankfully received and greatly appreciated. The cause is worthy.

Protects Shippers in Railroad Overcharge Claims

In order to protect shippers from the operation of the Statute of Limitations, G. W. Luce, Freight Traffic Manager of the Southern Pacific company today instructed Southern Pacific agents to advise shippers and consignees in their territories that according to the law department of the United States Railroad Administration, all claims, even for straight overcharges, arising from transactions during the period of Federal control of the railroads, must be filed with the Interstate Commerce Commission before March 1, 1921.

FEDERATED CHURCH.

Christian Endeavor meets 6:30 Sunday evening. Topic: "What one thing can I do to push our C. E. up a notch toward success?" Philip Mahoney, leader.

We have a big new plan in view for the year. Come and welcome.

C. N. Fridley of Lexington was brought to Heppner the latter part of the week and was confined at the Moore hospital for a few days, fearing a return of his sickness from which he suffered last spring. He was able to be out after a day or so and has returned home.

MORROW WHEATRAISERS ENDORSE ASSOCIATION

County Agent Hunt advises this paper that the farmers of the county are rapidly endorsing the plan of the Oregon Cooperative Grain Growers association and the contract is being quite generally signed up. The educational meetings held over the county during the past week resulted in much good, and lively interest has been manifested. After the holding of meetings in various parts of the county, a committee was sent out to canvass the farmers and give them the opportunity of signing up the contract. This committee consisted of Dan Barlow, Eight Mile, D. M. Ward, Heppner; Rufus Snider, Lexington; E. E. Ruzg, Rhea creek; Ernest Heliker, Moran; Howard Anderson, Eight Mile; C. R. Peterson, Gooseberry; Joe Devine, Lexington.

Big County Rock Crusher Goes to Pieces on Rhea Road

Judge Campbell reports that the big rock crusher just recently placed at Jordan Sliding to prepare rock for surfacing the market road from the Sliding to the concrete bridge on Rhea creek, went to smash on them just as they were getting under headway and had crushed sufficient rock to spread a mile of road. The break to the machine has put it out of commission entirely and it will have to be replaced by another before the work can continue. It was doing very excellent work but appears to be of too light construction for the hard rock of this section. This break-down is a serious disappointment to Judge Campbell as things were in fine shape to get the piece of road surfaced on record time. Verily the county has its troubles, also.

Curtis Vaughn Gets Two Falls Out of Johnson in 7 Minutes

Curtis Vaughn, local wrestler, who went to Condon on Saturday for a wrestling match with Will Johnson of that city, lost just 7 minutes to get two falls out of his opponent. The first fall was secured in three minutes and the second in four minutes. Vaughn accomplishing this feat by what is known as the arm roll hold, a feature Johnson was apparently a stranger to. Johnson wears 170 and Vaughn 155.

LADIES, ATTENTION.

I wish to thank you for your liberal patronage for the New Blue cornet (best cornet made) the past year, and will appreciate your orders the coming year.

FARM POINTERS.

Asparagus is valuable in the farm garden because of its earliness of bearing in the spring, certainty of production, and the comparative small amount of care that it takes. Now is the season to be looking for plants so that they may be in the ground by April. How to plant this crop and care for it is found in a circular on asparagus—obtainable from the college exchange.

Hens will not do well when fed on a straight grain ration as grain does not supply the various elements of food necessary in producing eggs. The continued use of a straight grain ration not only results in poor egg production, but in digestive disorders as well. A ration should have grain and ground foods.

A dusting powder for vegetable insects composed of arsenate of lead, tobacco dust, and sulphur was distributed last year by the experiment station. Reports received recently show the powder to be of value in checking ravages of insects. Details concerning the material for this powder can be obtained from the department of vegetable gardening at Oregon Agricultural College.

Legion Boys Will Give Another Smoker Saturday Eve

The boys of Heppner Post, American Legion will give another one of their smokers on Saturday night at their smokers in the old Gilliam & Babee building. There will be a good program and the usual amount of fun and entertainment can be looked for.

Some Former Heppnerites Get Taken In For Law Breaking

The following is an account recently published in a Lander, Wyoming, paper, which a friend has handed us. As it is illustrative of the measures being used in that state to enforce the law, and as it also involves some people who formerly resided in this section, we are giving it space. The article appears under the caption, "Housecleaning at Shoshoni," and is as follows: Pursuant to the preparation of about twenty-five warrants and search warrants as a result of a collection of evidence in possession of the office of the county and prosecuting attorney, Sheriff Lurch and seven deputies invaded the Monte Carlo of Fremont county and restored the original name of Shoshoni to that habitation. All of the places of public resort were visited by the sheriff and his deputies, all gambling paraphernalia and devices of law violators were taken according to the command of the search warrants, which finally revealed a half box-car load of gambling devices and furnishings and about eight gallons of intoxicating liquor. About twenty-five persons were arrested, brought to Lander and placed in the county jail, among whom were Clarence Woodard, Fred Canale, Herman Schneider, Frank Fisher, John Brady, George Hand, Carl E. Latouck, Joe Weber, Clarence Smith, and William Tracy, the marshal of Shoshoni.

OREGON GRAIN GROWERS ORGANIZE WATER TIGHT

Specialist Says Marketing Agreement Gives Movement Stability—Business Men Approve. Oregon Agricultural College, Feb. 21.—The Oregon Cooperative Grain Growers organization was made steady since wheat is produced in nearly every county, explains Dr. Hector Macpherson, head of the bureau of markets at the state college. Its marketing agreement and its membership limited to owners and renters of land on which wheat is grown, are pointed out as strong features.

Word received from Frank Turner, who is adjusting at Hot Lake and taking sweat baths for his rheumatism, is to the effect that he is now improving rapidly and expects to be released in a few days so that he may return home.

27 OREGON COUNTIES HAVE CO. AGT. WORK

Crook is Latest to Enlist—Tucker, McMinden and Hollibaugh Appointments Announced. Oregon Agricultural College, Feb. 21.—With the addition of Crook county to the county agent group Oregon now has 27 of her 36 counties heading up their agricultural work under the county agent system. The following appointments are announced by Paul V. Marik, director of extension: William H. Tucker, agent of Ada county, Idaho, has been made county agent of Crook. He was reared on an Illinois farm, is a graduate of the Illinois university, and has farmed, taught school and served as agent in Idaho for 11 years. He is ranked as one of the three best agents in Idaho. Elvin W. McMinden, a farm-reared man who was graduated from O. A. C. has been made agent of Clatsop county. Since graduation he has been farming for himself or others at one time being connected with the Eastern Oregon branch experiment station. Frederick C. Hollibaugh, farmer of Rogue River valley, has been named as assistant county agent of Jackson Hill township was passed on a Pennsylvania farm, and for five years he was in the cattle business in Montana and eastern Oregon. He has been running his own farm for eight years. All these men are married, all have had special training and farm experience, and all are mature men. The county agent system is the center around which the farm bureau organization of agriculture, now encompassing the entire country as well as Oregon, is built. Not merely better production of farm produce but better farm life and farm business are included in the aims.

Morrow County Has Two In Agricultural Dept. at O.A.C.

Morrow county has had two agricultural representatives in the school of agriculture for the first and second terms of the school year. The total enrollment of the college for the two terms is 3524 and of this number 881 are agricultural students. The federal vocational board of education has 200 rehabilitation men enrolled for agricultural work. The larger portion of these ex-service men are from Morrow county, which constitutes Morrow's entire list of agricultural students at the college. The rehabilitation men have 4 seniors, 4 juniors, 10 sophomores, 6 freshmen, 23 specials and 127 vocationals. History has proven many times that a people without education, or with insufficient education, soon lose possession of their most valuable natural resources to better educated and more skilled leaders from without. England produced before the great war as did Russia; she has more than three times as much education. Floyd L. Barlow, son of Mr. and Mrs. W. L. Barlow of Heppner is a vocational student in agriculture and Glen E. Carpenter, son of Mr. and Mrs. L. H. Carpenter of Lower Bridge is a freshman.

NOTICE TO HIBERNIANS.

The Hibernians will hold a special meeting at I. O. O. F. hall in this city on the afternoon of Sunday, March 4th. This is a very important meeting and all Hibernians should be present.

WANTED—Woman to take charge of house on ranch. Inquire this office.

THAT ORGANIZATION.

By A. S. AKERS. Hark, you tillers of the soil, Stop one minute from your toil, List to those who wish to waken Your dormant might, and save your bacon. Organize, and stand as one. Assert your rights and never run. Trust your leader in the right, And soon will victory have in sight. United we stand, together all, Divided we stand, together all. United we stand, together all, Divided we stand, together all. And be a lion and not a mouse, Organize, and do it now. And watch your adversary bow. Too long we've been content to sow, To plow, to cultivate, to mow. And hand the proceeds unto those Who now are recognized as foes. But with the strength that we can muster We'll take a stand like General Custer. We'll hold a bench—cooperation—Among the members of the nation. And when the snake is gone, why then We'll take a peck into the den. To see the awful havoc wrought By just a little bit of thought. Although we talk, we'll try our hand At pulling wheat throughout the land. And with a wild ferocious shout, We'll put the middle man to rout. And when we sell our wheat, how nice To gain at last a living price.
