**SERVICE** that is not based upon price alone, but upon the requirements and desires of each individual customer.

**SERVICE** that demands that each job be the best it is possible to give for the purpose it is supposed to serve.

**SERVICE** that is possible because it is backed up by a REAL printing plant—not a collection of worn-out, obsolete machinery and type—a plant completely equipped with modern machinery, each machine the best possible to procure for the work which it is intended to perform, and the latest faces of new type.

**SERVICE** at a price no greater than that of the ordinary brand of country printing. The price of G. T. printing is based upon the Franklin Printing Price List, the one-price-everything-marked-in-plain-figures idea applied to printing, and insures a square deal to the customer as well as the printer. It is used in over 10,000 printing plants all over the United States.
