

LOCAL HAPPENINGS

Clara Huston and family of Eight Mile were Saturday visitors in Heppner.

Walter Becket, of Eight Mile, was enjoying the breeze in Heppner on Saturday.

W. F. Barnett, merchant of Lexington, was in Heppner for a short time on Monday.

Joe Devine, leading farmer of the Lexington section, was doing business in this city on Saturday.

R. K. Lee, representing Pacific Metal Works of Portland, was visiting the trade in Heppner on Tuesday.

W. A. Wirtz, auditor of the Tum-A-Lum Lumber company, was a visitor in this city on Friday from Walla Walla.

Guy Huston, extensive farmer of the Eight Mile country, accompanied by Mrs. Huston, was in Heppner Saturday.

Marcellus Morgan, rancher of the lower Willow creek country, was up to Heppner Saturday on business and to enjoy a visit with relatives here.

"Brown's in Town," and will appear before the public soon. Watch for him. In this connection we will state that Heppner has a dramatic club that is busy with its rehearsals. They will in-

Mrs. Eugene Penland and daughter, Miss Dorothy Hill, arrived in Heppner the last of the week. Miss Hill, who has been quite ill at Portland for several weeks, is now quite fully recovered.

S. C. Runyan, who runs the blacksmith shop at Lexington, was in Heppner on Monday to have a piece of steel removed from one of his eyes. Mr. Runyan is just getting started up in business at Lexington.

Mr. and Mrs. John Vaughn, formerly of Heppner, now of Portland, were Condon visitors this week. Mr. Vaughn is selling cars for a Portland auto house. They were guests at the Hotel Condon during their stay in Condon.—Condon Globe-Times.

Ernest Helker and wife were up from their farm home west of Ione on Saturday. Mr. Helker is rejoicing over his splendid crop outlook. He says he never enjoyed a better prospect for a heavy yield of grain since he has been on the farm. His neighbors are in like manner rejoicing, also.

Mr. and Mrs. Lawrence Sweek, of Monument and son, Cal Sweek, and his wife of Heppner, visited in Condon for a short time this week. They drove over from Monument on Tuesday and spent Wednesday here. They left on Thursday for Portland where the elder Mr. Sweek will enter a hospital. He is in very poor health.—Condon Globe-Times.

Lawrence Redding, who farms the Emerson Keithley place on Eight Mile, was in Heppner on Friday last. Mr. Redding is well pleased with his present crop outlook, and the recent show-ers coming his way have been beneficial to growing grain. He stated that there had apparently been more rain in about Heppner than the Eight Mile section had received.

Theo Anderson makes a trip out to the Eight Mile farm occasionally in his flivver, and reports that he finds the grain growing fine. A little more warm weather would be appreciated—less wind and more sunshine would fill the bill—and then the grain would come along in grand style and the worms would be driven to cover. However, there appears to be little to complain of, so states Mr. Anderson.

Mr. and Mrs. Ellis Hendrickson are visiting at the home of Mrs. Hendrickson's parents, Mr. and Mrs. Jeff Jones, having arrived last Friday. They have been visiting with the relatives of Mr. Hendrickson in the Willamette valley and expect to return to their California home in a couple of weeks. It has been seven years since Ellis was in Heppner and he is enjoying a good visit with his old time friends here. He also notes with pleasure the very many substantial improvements in our city since he was here last. Mr. Hendrickson is a purser on a Pacific steamer running out of San Francisco.

F. L. Stephens, who farms a portion of the Brown Bros. ranch north of

Lexington, was in this city Saturday. Mr. Stephens came to Morrow county a little over a year ago from Alberta, and the past season suffered a rather short crop because of a lack of knowledge as to the handling of our lands. He is doing far better this season and has a splendid crop outlook. Mr. Stephens is also raising a new variety of spring wheat which he is satisfied will prove to be very valuable for this county. After another year he expects to have enough of this new variety to be able to furnish some of his neighbors with seed. He believes this wheat is far ahead of Early Bant.

BILL HAYWOOD.

I hear it is said, Bill Haywood has fled. To Petrograd over the deep. If Russia don't care, we'll just leave him there. But doubt if she'll take him to keep.

If she'll open her door, she can have a lot more Of the I. W. W. Bills. If she wants a big dose, we can give her a gross Of Uncle's home-made bitter pills. Of course such a pill, will cure or kill; She can take them with no guarantee. We have them because our infernal laws Are made for the rich, not for me.

When Uncle awakes, and gets up and shakes, By rubbing his swollen, red eyes; Perhaps he can see, he has been on a spree, And acted so very unwise.

The dope he has made, of the Bill Haywood shade, Perhaps he will put through the mill, And a new kind of dope will come forth, I hope, Far better than Big Burly Bill.

But still 'tis a shame, that Bill gets the blame, When Uncle too often, I know, Has catered to those, who wore the fine clothes, Neglecting the "man with the hoe."

So let us be fair, to Bill over there, Although he may not be a lamb, He's a victim of laws, contained in our laws, Turned out by our own Uncle Sam.

Shearers on Strike.

The sheepmen and the shearers have not yet been able to agree on a price for work this year, and as a result only one outfit is now at work. Their arrangement calls for payment at the going wage when one is established. At the beginning of the season the sheepmen talked 15c per head and the shearers about 25c. Since that time they have been getting together, and now it is reported that the growers have offered 15c, with the shearers holding for 17 or 18c. The prices include board, but the shearer to furnish the plant.

Both sides have strong arguments in their favor. The sheepmen point to the price—lack of price—for their products, and the heavy losses they have suffered. The shearer calls attention to the fact that his supplies cost as much or more than ever. Certainly it is a matter for reasonable compromise.—Condon Globe-Times.

Civic Club Holds Meeting.

There was a called meeting of the Civic Club at the office of the president Mrs. Lena Snell Shurtie in the court house on Monday afternoon, at which time the most particular topic of discussion was the beautifying of the city by the planting of dahlias. This has been a subject which the club has had on its heart for the past two years and heretofore our citizens have been urged to plant this beautiful flower and to make Heppner the "Dahlia City." The request is going out stronger than ever this season, and the ladies of the club have taken it upon themselves, many of

NOTICE OF ANNUAL STOCKHOLDERS MEETING.

Notice is hereby given that the annual meeting of the stockholders of the Morrow County Creamery Company will be held at the office of the company in Heppner, Oregon, on Tuesday, the 31st day of May, 1921, at the hour of 2:30 o'clock p. m. of said day.

Officers for the ensuing year will be elected and such other business as may regularly come before the meeting will be transacted.

Dated at Heppner, Oregon this 20th day of April, 1921.

W. CLAUDE COX, Secretary.

them in order built for their own planting, and ask that the householders of the city do this also. It is now time that the bulbs were being ordered and planted, and the cost is not large. We hope to see the request of the Civic Club complied with just as generously as possible.

If stable manure is used, it is advis-

able to put it on before plowing or disking. It should be well rotted and if applied after plowing it should be thoroughly harrowed in. Well rotted stable manure can still be used for late crops and rank feeding crops such as corn or hays. The U. S. G. experiment station has realized from \$2.50 to \$19 a ton on stable manure applied for fur-

TO THE PEOPLE OF MORROW COUNTY:

We want you to know that

Hotel Patrick

is at your service.

We want you, when in town, to use the public conveniences here. We have rest rooms for the ladies on our lobby floor and on both landings.

Men, make your appointments and talk your business in the lobby.

All Are Welcome

Lake Tahoe, California—showing Rainbow Point. In the distance is Frost Peak—elevation 10,900 feet.

Beautiful Lake Tahoe

LAKE TAHOE lies on the California-Nevada line in the Sierra Nevada Mountains—fifteen miles south of Truckee and two hundred miles east of San Francisco. The marvelous color of Tahoe varies from the deepest indigo to brilliant emerald. Surrounding the lake are lofty peaks—from seven thousand to over ten thousand feet high.

The motorist may reach Tahoe by many routes, which has given rise to the slogan "All Roads Lead to Tahoe."

And whether you go to Tahoe from the east, west, north or south, you will always find a service station or garage displaying the Red Crown sign.

Look for that sign when you need gasoline. It is your assurance of getting an all-refined gasoline—with a continuous chain of boiling points.

"Materials with plans for Homes and Farm Buildings"

Our Standard Must Be Maintained

Through a period extending over several years, the Morrow County Creamery Company has been laboring to place its product on the market of Heppner and cities of the adjoining territory. We are now pleased with the progress made, and can say that the entire product, practically, of the Creamery is going into the hands of the local merchants and to groceries and general stores in a number of the neighboring communities.

Our Aim Is to Keep Up the Standard of Our Product

In order to do this, we must have pure, fresh cream that tests up to the standard in butter fat. We are gratified to state that in a very large measure we are receiving this consideration at the hands of producers. We do not desire to turn down any offerings, yet to maintain the standard set, we will be compelled to do so. We should not be expected to buy small offerings of cream that have been so long in accumulation that the product has become rancid and is unfit for no other use than to be poured into the gutter; hence we must refuse to take such offerings in the future, purely as a matter of justice to ourselves and to our customers, who have the right to demand of us the best product we can turn out.

This announcement will no doubt be received in the spirit in which it is offered; we desire to get all the good, clean butterfat that is produced in this territory and at all times will pay the very highest market price for same. Please help us to maintain our standard of excellence.

to get in touch with
Real Printing Service

SERVICE that is not based upon price alone, but upon the requirements and desires of each individual customer.

SERVICE that demands that each job be the best it is possible to give for the purpose it is supposed to serve.

SERVICE that is possible because it is backed up by a REAL printing plant—not a collection of worn-out, obsolete machinery and type—a plant completely equipped with modern machinery, each machine the best possible to procure for the work which it is intended to perform, and the latest faces of new type.

SERVICE at a price no greater than that of the ordinary brand of country printing. The price of G. T. printing is based upon the Franklin Printing Price List, the one-price-everything-marked-in-plain-figures idea applied to printing, and insures a square deal to the customer as well as the printer. It is used in over 10,000 printing plants all over the United States.
