THE AMERICAN PRESS ASSOCIATION

Can the People Be Fooled?

Samuel Gompers and Frank Mor rison, president and secretary re spectively of the American Federation of Labor, addressed mass meetings recently to protest against "the nation-wide open shop movement."

Mr. Gompers said he believed that "the American people who did so much to defeat military autocracy in the last war will not now consent to the substitution in the United States of an industrial autocracy.'

Equal opportunity before the law, before government and in the democratic production of industrythat is what we demand and nothing less will satisfy labor.

HINK what would happen if the Light and Power Company which supplies your community with electricity suddenly ceased to operate! The motor-driven machinery in busy factories would come to a standstill. The many little power-driven contrivances which add to the convenience of your shop or home would be useless. Even the lights by which you work and play would be snuffed out.

Yet the great service rendered by the Light and Pow er Company is too often forgotten. It has become so much a part of our everyday life that it is taken for granted. Only on the rare occasions when something goes wrong does the Light and Power Company receive even a passing thought; and that thought is perforce a damning

In the light of actual facts, the Light and Power Company takes on an entirely different aspect. Its welfare and the welfare of the community as a whole are one and inseparable. The extent and character of the service it 🖁 enders influences to a considerable degree the establishment of new industries. And the more widely that service is used, the cleaner and brighter the community will become, for electrical power is clean power.—Literary
