A TALE OF HARD TIMES Two gay young frogs, from inland bogs, Had spent the night in drinking; As morning broke and they awoke, While yet their eyes were blinking.

tion of our boys and girls in one year. It is more important to save on their education costs in order that we may have performers and face-powder. Then we pass in 1920 for his 1919, pleasure trips and pleasure resorts, \$2,900,000, and for luxurious service another \$1,000,000, more than six times the total cost of education in the United States including every kind of school, college, technical private and public. "But," you will say, "most of this \$4,000,000 is spent by the rich who do not feel the burden of taxes?" True, but how many who are not rich buy, not the plainer and cheaper kinds of goods, but the more elegant and showy, luxurious things? I think it is alright for us to have these things if we do not have to take from the boys' and girls' school fund to get them. There is here in the nation's food bill. The luxuries in this field cost the people of this country far more than all the expense of our education. Looked at in this comparison, one must feel a little wretched about taxes! It is not our local taxes that make us squeal; it's our Federal taxes, the taxes we pay on the luxuries we buy, on the fads we choose for ourselves. Education is the least of our financial troubles. It costs us less than any other good thing we enjoy, and far less than the fads.

prospective teachers. "We are in the field for good teachers, we are paying the price and we want good teachers." If you all demand teachers who hold Normal diplomas, some will probably have to pay a little more than they have been paying, for there are not enough of that kind to go all round.
