PUBLISHED WEEKLY AND DEVOTED TO THE BEST INTERESTS OF MORROW COUNTY

Volume 38, No. 10.

HEPPNER OREGON, THURSDAY, JUNE 9, 1921.

Subscription \$2.00 per Year

SOLDIER BONUS BILL WILL PASS 3 TO 1

Apparently Every County in State Gives Majority—Light Vote Cast in Morrow County.

Returns coming in from over the state, indicate that the World War Veterans' State Aid Fund, constitutional amendment has carried by a 3 to 1 vote, and it may be even stronger than at present indicated. The vote all over the state was light, and it was especially light in Morrow county, many of our citizens, evidently having forgotten that there was an election on.

Other measures that have apparently carried over the state are the Emergency Clause Veto and the Women Jurors and Revised Jury Law, though the latter is by a very close margin, if it wins at all.

The Legislative Regulation and Compensation Amendment was defeated strongly, as was also the Hygienic Marriage Examination and License Bill.

The vote on the various measures in Morrow county was as follows:

Legislative Regulation and Compensation Amendment, yes, 221; no, 461.
World War Veterans' State Aid Fund, constitutional amendment, yes, 424; no, 312.

Emergency Clause Veto, constitutional amendment, yes 507; no, 369.
Hygienic Marriage Examination and License Law, yes, 326; no, 199.

Women Jurors and Revised Jury Law, yes, 244; no, 368.

Work on Highway Is to Be Started Soon

We are informed by Judge Campbell that work of grading on the Lexington-Heppner unit of the Oregon-Washington highway will be started very soon. C. La Conte, of Weston, Idaho, who has secured a sub-contract from Messrs. Oxman and Harrington, has arrived at Lexington with his outfit and will soon be ready for operation. It is expected that other outfits will arrive very shortly, and there should be some pretty busy times about Heppner for the next two months or more. The contracts are to be completed by the first of September.

The court has been busy securing right-of-way for the changes that are to be made, and so far have all but one of the deeds on the Heppner-Jones Hill unit. It will be necessary to get a couple of deeds on the Lexington-Heppner unit and these have not yet been secured.

High School Class '21 IS DULY GRADUATED

The graduation of the Class of '21, consisting of five young ladies and four young men, took place at the auditorium of the high school on last Friday evening in the presence of a large audience.

The program was not a lengthy one and the principal event was the splendid address by Dr. Carl Doney, president of Willamette University, who delighted both the audience and the graduates with his oratory. Dr. Doney was introduced by Prof. Howard James, who acted in the capacity of chairman of the meeting. Musical numbers were rendered by the students of the high school and the invocation was given by Rev. E. L. Moore, pastor of the Federated church.

The graduates were Audra Grogan, president of the class; Edward K. Young, vice-president; Kathryn Pattison, secretary; Annie Hynd, treasurer; Pearl Hall, sergeant-at-arms; Reita D. Neel, Roland Humphreys, Elmer Peterson and Edward Childrey.

The diplomas were presented in a very appropriate manner by C. E. Woodson, chairman of the school board.

OFFICIAL WAR FILMS.
He is ready for the big war films that are coming to the Star theater on Saturday, June 25th, under the auspices of the American Legion Post of Heppner. These pictures were taken by the United States Army Signal Corps and are official—something that has never been placed before the public of the city before, and they represent the activities of the war just as they occurred. To be here June 25th.

Attend Woodcraft Convention.
Maple Circle, neighbors of Woodcraft of Heppner was represented at the convention held in Condon on Monday and Tuesday of this week by Mrs. Rosa Richardson, Mrs. Cora Crawford, Mrs. J. W. Luntford, Mrs. Tom Boyd and Mrs. L. W. Briggs. The ladies departed Sunday morning and returned home on Wednesday evening, having had a very successful convention and an enjoyable time, all being well pleased with the splendid treatment accorded them by the Condon folks.

BOHN—In this city on June 8, 1921, to Loy V. McFerrin and wife, a daughter.

Ross Langdon, forest ranger stationed near Parkers Mill, was in Heppner for a day or two this week.

Mrs. Ed Kellogg, who recently underwent a very serious operation at the Moore hospital in this city, is reported by her physician, Dr. McMurdo, to be improving rapidly.

SCALE OF WAGES IS FIXED BY FARMERS

At the meeting of the Oregon Grain Growers association held in the L. O. O. F. hall yesterday afternoon, the chairman of the Farm Bureau labor committee, Ed Hartman, introduced the question of the wage scale. After a thorough discussion, in which more than a hundred farmers present participated, the following scale was unanimously adopted:

Common labor for haying	\$2.00 per day
Stackers	2.50 per day
Header-box drivers (common labor)	3.00
harvest	3.00
Leaders	2.50
Header-punchers	4.00
Separator tenders	3.00
Tractor drivers	7.00
Other labor	4.00

The Farm Bureau has been assured by the Portland Employment Agency that they will be able to furnish plenty of men at these figures. This scale is practically the same as that adopted by the Sherman county Farm Bureau a few days ago. As this scale of wages seems to be plenty high enough to get all the labor that is necessary, it is to be hoped that the farmers of the county will follow it as closely as possible.

OMAHA MAN SAYS OREGON IS ON RIGHT TRACK

Portland, Ore., June 7.—(Special)—The state of Oregon is on the right track at last in regard to land settlement, and the plan undertaken this summer for bringing settlers from the middle west, if followed as a consistent policy for a number of years, will rural Oregon up to her rightful place in population and development, according to C. C. Gignoux of Omaha, Assistant Supervisor of Agriculture of the United Pacific System, in an address before the Oregon State Chamber of Commerce land settlement committee.

The conference of representative business men and commercial club secretaries was called to perfect arrangements for the reception and entertainment of the first trainload of settlers who will arrive in Oregon from the middle west on July 21st, and to formulate plans for a continued land settlement policy for the future.

"Oregon has been a step or two behind the parade in the past in regard to land settlement," declared Gignoux in pledging the unequalled support of the United Pacific System to the present program. "Heretofore, there has been no organized plan for bringing settlers to the state, or to take care of them after their arrival. You are on the right track at last, and your success is certain."

William Hanley, a director of the State Chamber, who has just returned from the middle west, declared that the Middle Westerners are ready to move and are interested in Oregon. An increasingly large number of these substantial farmers can be brought to Oregon each succeeding year, he said.

Secretary Quayle's report of the progress made in the land settlement plan thus far received with enthusiasm by the assembled delegates. It was pointed out that a great interest in the homeseekers' excursion to Oregon in July was being manifested throughout the middle west. More than 1,000 inquiries had been answered thus far, according to the report.

The fullest cooperation in the land settlement plans of the State Chamber was pledged by the delegates from various parts of the state who were present at the conference. These delegates included: Charles Hall, Klamath Falls; Leslie Butler, Hood River; George W. Hyatt, Enterprise; W. P. O'Brien, Astoria; Thomas B. Kay, T. E. McCroskey and A. C. Borghstet of Salem; E. E. Brodie, Oregon City; R. H. Jones, Roseburg; John Henderson, Oual City; Harry W. Galt, Madras; J. H. Fuller, Ashland; W. A. Reid, Marshfield; H. J. Joslin, Dallas; M. D. Morgan, Harrisburg; R. L. Schee, Prineville; W. E. Meacham, Baker; L. Antles, Bend; Gordon J. Taylor, Molalla; Paul Robinson, Aurora; Alfred A. Aya, Roy T. Bishop, Wm. McMurray, N. E. Carpenter, John Ferguson, Ralph Ackley, George L. Boyd, W. J. Griffin, F. M. Runnells, Mrs. Winnie Braden, Wm. H. Crawford and A. R. Johnson.

Engine Distillate Agents on the Market.
"Engine distillate for use in tractors, motor boats and other similar internal combustion engines, has been placed on the market again," announces Mr. Cook, Special Agent of the Standard Oil company at this point. A large stock is being carried to care for internal combustion engines which are equipped to use this product. In the past, engine distillate has proven quite satisfactory for special types of engines, and its appearance again on the market will mean a considerable saving for tractor operators and owners of engines which can be adapted to this fuel.

Peter Curran Has New Heble.
Peter Curran, who is foreman of the Sheridan ranch, the old Henry Jones place near Porter creek, was married in Portland on Wednesday, June 1st, to Miss Lella Nyer, also of this county. The newly weds returned to Heppner on Saturday evening and were given a royal reception by their friends here.

Oregon Highway Commission Complimented by Sam Hill

Samuel J. Hill, the original promoter of good roads in the Northwest, paid a visit to the State Highway Commission at their meeting in Portland recently, and the following was read into the proceedings and made a part of the record:

"Sam Hill, president of the Pacific Highway, called to pay his respects to the Oregon commission. He said: 'I have just returned from an inspection of the roads in France, Belgium, England and Scotland, visited the roads in Connecticut, Massachusetts, Maryland, and Washington, Indiana and Illinois. From my observation, Oregon is getting a better class of roads for the money than any place I have been.'"

TELEPHONE COMPANY INSTALLS AMPLIFIER

The Pacific Telephone and Telegraph company is installing and will operate for the benefit of the Rose Festival and the thousands of visitors during the Rose Festival week in Portland a sound amplifying equipment which will convey to and distribute over the Festival Center grounds musical programs, addresses, announcements, etc., from distant locations about the city.

Two experts from the East have been in Portland for the last two weeks installing the necessary apparatus in order to furnish the unique entertainment to the visitors during Rose Festival week. The Festival committee is arranging to feature this apparatus as the means of entertainment to all visitors. Heretofore an address or a musical program has been available only to the limited number who could crowd inside a hall or within the range of the speaker's voice. With the amplifying apparatus furnished by the telephone company a complete address or musical program will be spread over an area of several city blocks and everyone who wishes will be able to understand every word spoken and hear every musical note of the program.

The apparatus consists of a system of motors, generators, wires, transmitters, amplifiers and other electrical equipment weighing several tons and filling several rooms. The machinery is very delicate requiring the utmost care in its operation. A drop of water at a certain point or a piece of metal the size of a pin head will put the whole plant out of business. The transmitter, amplifier and horns are very delicately adjusted and sensitive to the slightest change in current and resistance in the circuit. None of the apparatus will be visible at the Festival center, except the suspended horns, and will give the impression of sound created out of the air.

This apparatus was given its greatest outdoor test at the inauguration of President Harding in Washington, March 4th, where the voice of President Harding in the inaugural address was distributed over a radius of six blocks from the Capitol steps and could even be heard distinctly on the steps of the Congressional Library, more than 1200 feet from the inaugural platform. At all previous presidential inaugurations only a few hundred people who were fortunate enough to secure positions directly in front of and near the inaugural platform were able to hear the inaugural address, but on March 4, 1921, with the amplifier apparatus in service on the Capitol grounds 125,000 people, the largest crowd that ever heard one man's voice at one time, distinctly heard every word of this President Harding's address. It is this same apparatus which has been forwarded to Portland and will be placed in service for the entertainment of those who attend the Rose Festival in June.

The offer of the Pacific Telephone and Telegraph company to furnish and operate this apparatus for the Rose Festival committee will insure a distinctly new entertainment feature for the Rose show. The high expense for installation of the necessary electrical apparatus has precluded the use of this equipment at any extent the largest and most notable gatherings, such as the Republican and Democratic conventions last year and the inaugural ceremonies for President Harding. The Rose Festival committee is to be congratulated on their success in securing this as the greatest entertaining feature of the 1921 Festival.

The Cattle and Horse Raisers' association of Oregon, at their annual convention, held May 25, passed a strong resolution in favor of the rigid enforcement of the law requiring stock brands to be recorded in accordance with section 2221-1 of the 1920 laws of Oregon. This section of the law carries a penalty, and all persons using a stock brand should become familiar with its provisions.

A large number of stockmen in Morrow county have failed to comply with the requirements of this law, and the secretary of the Cattle and Horse Raisers' association threatens to get busy and those who have been lax in this respect may have to face an investigation by the grand jury. Look after the recording of your brand and avoid trouble.

Mrs. Dr. A. D. McMurdo has been confined to her home for a few days this week, suffering a severe attack of tonsillitis.

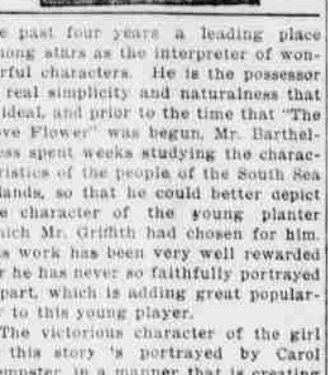

UNUSUAL CAST IN 'THE LOVE FLOWER'

In the selection of his players, David W. Griffith, the master of screen production, has universally used the most excellent care, so as to assure his production of the most faithful interpretations. No better example of his excellent judgment in the choice of the interpreters for the screen lovers could be cited than in the players he presents in his latest masterpiece, "The Love Flower," which United Artists release will be the feature at the Star theater Friday, June 10.

Among the players in this unusually dramatic love story of the South Sea Islands are none other than Richard Barthelmess, Carl Dempster, George McQuarrie, Anders Randolph, Florence Short, Crawford Kent, Adolph Lestina, William James and Jack Manning.

The one most important thing in casting is the securing of players whose facial expressions can possibly emphasize the characteristics of the parts. No one in the entire motion picture field could have been better for the part of Bruce Sanders, a wealthy young plantation owner, than Mr. Barthelmess, for his very being just typifies the very thing that Mr. Griffith portrays throughout the entire production, and with his world of experience, Mr. Barthelmess gives the character a particularly intelligent interpretation.

A college man educated at Trinity College, he has won for himself during

the past four years a leading place among stars as the interpreter of wonderful characters. He is the possessor of real simplicity and naturalness in the scale, and prior to the time that "The Love Flower" was begun, Mr. Barthelmess spent weeks studying the characteristics of the people of the South Sea Islands, so that he could better depict the character of the young planter who Mr. Griffith had chosen for him. His work has been very well rewarded, a part, which is adding great popularity to this young player.

The victorious character of the girl in this story is portrayed by Carol Dempster, in a manner that is creating the most favorable comment the country over. Her charming personality is splendidly fitted for the part, and during the unraveling of the story in which she goes to most unusual extremes to save her father from disgrace she is given every opportunity to show her latent talents.

This it is with each and every character that Mr. Griffith has chosen for his production. Each chosen with utmost care for just the specific character to be portrayed and each playing his or her part in a most admirable manner, giving the production that added interpretation of perfection of character qualification, which, added to the masterful manner in which the story is revealed through the productive genius of Mr. Griffith, makes this his latest picture, one of the outstanding features of the past year.

SHERMAN COUNTY 1ST IN EDUCATION IN STATE

University of Oregon, Eugene, May 6.—In a study recently published by the state superintendent of public instruction, the county school systems of Oregon are ranked in efficiency by Professor F. L. Stetson, of the school of education and Professor John C. Almack, assistant director of the extension division of the University of Oregon.

Ten points only were considered, for a period covering 1914-20. By this method Sherman county is placed first in the list with Multnomah county second. The order of the thirty-six counties of the state is as follows:

1. Sherman county
2. Multnomah county
3. Clatsop county
4. Hood River county
5. Deschutes county
6. Umatilla county
7. Wasco county
8. Jackson county
9. Lake county
10. Columbia county
11. Tillamook county
12. Yamhill county
13. Baker county
14. Benton county
15. Harney county
16. Union county
17. Crook county
18. Wallowa county
19. Malheur county
20. Coos county
21. Clackamas county
22. Klamath county
23. Jefferson county
24. Lane county
25. Linn county
26. Douglas county
27. Josephine county
28. Polk county
29. Gilliam county
30. Lincoln county
31. Washington county
32. Wheeler county
33. Curry county

The points of efficiency considered by the authors are:

1. Per cent of school population attending school.
2. Average days attended by each child of school age.
3. Average number of days schools were kept open.
4. Per cent that high school attendance was of total attendance.
5. Per cent that boys were of girls in high school.
6. Average annual expenditure per child attending.
7. Average annual expenditure per child of school age.
8. Average annual expenditure per teacher employed.
9. Expenditure per pupil for purposes other than teacher's salaries.
10. Expenditure per teacher for salaries.

The standings of the various counties are expressed in single terms which are called "Indexes of Efficiency." A considerable divergence is found between the best county and the lowest in the scale. For example, the six year average of Sherman is 75.27 while that of Curry is 42.92. The study shows that while educational progress has been continuous, in the first five efficiency factors there is noted a falling off in factors due to the war and the influenza epidemic. In the second five items which are called the financial factors it is found that for the last year increases have been quite abrupt. Only one financial item decreased considerably during the war. This was for expenditures for purposes other than teacher's salaries, and indicates that teaching activities were greatly reduced.

The study indicates some lines of attack that make for school progress. Quoting from the section of the study giving the writers' conclusions the following paragraphs appear:

"Continued effort is the very essence of results. Policies and programs should be planned to extend over a considerable period of time. An examination of yearly indexes in the ten factors here considered would show more or less fluctuation and often sharp changes. Observed through the course of several years, those lines of progress take on a character that shows the genuine tendencies in education.

"The evidence goes to show that the Oregon school system has made uniform progress since 1914, the period covered in this study. There has been some variation among the special factors, and also variations from year to year. From the ranks assigned, by the Russell Sage Report, and the data here presented, the state ranks higher in the educational factors than in the financial. There is a wide margin in fact, the fact that the state stands second among all states in the union in the first five points, and twenty-eighth in respect to the last five, with a final rank of twentieth. The state index simply represents the total of the county indexes. The point of attack is therefore, clearly manifest. To improve the standing of the state we must improve the county schools."

District Meetings Will Not Be Able to Vote on Budget

Many of the school districts in the county have called a meeting to vote their budgets at the time of the regular annual meeting on the 20th of June, and it is found that they will not be able to do so, owing to a change in law made at the last session of the legislature. Superintendent Shure has been so informed through the office of State Superintendent Churchill, and she immediately sent out notices to this effect to the various school districts.

An opinion recently rendered by Attorney General I. H. Van Winkle on the new budget law will require that all such meetings be postponed. A portion of the statement from the state office is as follows:

"This new budget law repeals many of the provisions of the old budget law and introduces several other requirements which school boards must meet before levying any school tax.

"It will not be possible for any school district in Oregon to vote a tax at the annual school meeting. All districts must wait until the new forms, a supply of which will be sent you at an early date. The new law may be found under Chapter 118, General Laws of Oregon for 1921."

FOREST PROTECTION IS GOOD FOR NORTHWEST

"Forest protection is good for the northwest," said George H. Cecil, district forester, when seen today at the Portland office of the U. S. Forest Service. "The effort of the U. S. in preparation for the week by forest fire protective associations; the National Parks association, Seattle; by state and federal forest agencies, met with most encouraging results," Mr. Cecil remarked.

"It shows a growing appreciation by the people of the northwest of the necessity of forest protection in order to maintain for all time their present place in the front ranks of lumber production. No other forest region has such an opportunity; for with our wonderful forest wealth, Oregon and Washington, by thoughtful protection and wise use, can if they will always produce lumber in immense quantities."

Mr. Cecil brought out the fact that last year in Oregon and Washington there were 2,214 forest fires reported. Forest fires in the United States annually destroy more than two billion feet of timber, or material enough to build a five-room frame house every one hundred feet on both sides of a road extending from Seattle, Washington, through the entire state of Oregon to the California line, according to Mr. Cecil.

"With four people to a house, these 100,000 or more buildings would provide a home for nearly one-fourth our yearly increase in population; a number sufficient to populate a new city each year the size of Seattle or Portland."

More than 100,000 forest fires have occurred in the United States during the past five years, 40 per cent of which were due to human agencies and therefore preventable, say forest officials. The government reports show that these conflagrations burned over 56,488,000 acres—an area much greater than that included within the state of Washington—and destroyed \$85,700,000 worth of timber and property. "If this needless waste were stopped and the material thus saved put into houses the various business interests concerned in building construction, such as lumber dealers, carpenters, masons, and supply houses, would, it is estimated, benefit to the extent of more than 400 million dollars annually. Bankers and real estate dealers would also profit through the sale of lands and by loans on homes to the extent of another 300 million dollars. Forest fires are the therefore of vital concern not only to the every-day citizen but to every business man and laborer."

Mr. Cecil emphasized the fact that forest protection goes hand in hand with national prosperity; that next to food and clothing, wood is the most indispensable product of nature. "Without wood there can be no agriculture, no manufacture, no commerce. Forest fires destroy life and property, impoverish the soil, drive away game and animal life, cause floods and droughts, and make waste the playgrounds of the people," said the district forester. "President Harding at the request of the Forest Service proclaimed the week of May 22-28 as Forest Protection Week in order that the present unnecessary waste of the timber resources of the country and the serious condition of our forests might be brought widely to public notice, and its local observance took place not only throughout Washington and Oregon but in all other parts of the country."

Troy Bogard is one of the new additions to Morrow county's farming force. He is located on the Steeps place a short distance east of Ione, where he is putting to practical use the knowledge obtained at O. A. C. He located there in March, has a fine crop prospect and is altogether well pleased with his new surroundings. We acknowledge a pleasant call from Mr. Bogard while he was in Heppner yesterday, and are pleased to have his name added to our list of readers.

J. O. Farmer and wife were in from their farm north of Swagart's Butte on Tuesday. Big rains out that way on Monday have been of immense benefit to the maturing crops. Grain in that part of the county is now pretty well headed out and in just the right condition for damp, cool weather to make it fill well. Crops look good throughout the section north of Lexington, though the few very warm days of the early part of last week caused some damage to grain on the shallow lands.

LOST—A dresser scarf, on road somewhere between Heppner and Ditch creek. Finder please leave at this office. Reward.

CITY COUNCIL WILL MEET COMMISSION

Agreement Signed to Go 50-50 on Expense Over \$10,000 Incurred in Building of Bridges in City—Regular Meeting Monday Night.

At the regular meeting of the city council on Monday evening, an agreement was signed by the mayor and recorder, by unanimous action of all councilmen present, pledging the city to join with the State Highway Commission on a fifty-fifty basis, the expense incurred above \$10,000 in the construction of three new bridges within the city and on the line of the state highway. The city also agrees to provide the right of way for the proposed change in the highway, and secure camping grounds in accordance with the plan as presented by Mr. Barratt and as the same was outlined in these columns last week.

In this connection a committee was appointed by the mayor, consisting of Councilmen Taab, Thomson, Clark and Blaise, to interview L. L. Stork and Mrs. Mary D. McHaley regarding right of way and grounds for park and camp site. The change in the route of the highway will pass through the lands of these parties.

A resolution was also unanimously adopted which authorized the mayor and recorder to enter into an agreement with the Pacific Telephone and Telegraph company to have a switch placed in the local exchange and connected up with the fire alarm.

The petition of the Mayor and Recorder, and Anna D. White, asking for the vacation of street adjoining their properties, was tabled until the next regular meeting.

W. B. Barratt, on behalf of the Heppner fire relief committee, turned over \$75 remaining in the hands of the committee to the Heppner fire department, and this was accepted with the thanks of the council.

Water Commissioner Pruyn was ordered by the council to employ a force of men and repair the Ditch creek pipe line. The report of the commissioner for the month of May was accepted and ordered placed on file.

Claims against the city were audited and allowed.

GRAIN GROWERS HOLD MASS MEETING HERE

For the purpose of electing delegates and naming their choice for directors of the Oregon Grain Growers association for District No. 1, a mass meeting was held in this city on yesterday afternoon which was attended by some 150 members of the association from over the county. Howard Anderson, of Eight Mile, Herb Olden and Henry Smouse of Ione were elected delegates to represent the district for the year June 17, 1921 to June 17, 1922, and Messrs. Olden and Anderson were endorsed as directors for the association, and the delegates instructed to work for their re-election.

The meeting of the State Grain Growers association will be held in The Dallas in the early part of July, at which time the election of directors will take place.

Keeping of Accounts of Benefit to Farmers

Household and farm accounting methods and their application to successful farming is part of the regular Farmers week program at O. A. C. June 12-15.

Tuesday's lecture will be on the business side of the home, Wednesday on organization and procedure, and the farmer and the income tax. Office appliances for farmers, accounting methods and household accounting are scheduled for Thursday. Preparing the income tax return, office appliances for farmers, auditing and business analysis, and training the child in finance are down for Friday.

All class work will end at 3:15 p. m. each day, and from 3:30 on everyone will have an opportunity to attend the lectures and other special programs of the afternoon and evening.

The main topics for the evening and afternoon will be on cooperative marketing, the rural church, and other special problems.

There will be special music and dramatic features along with the regular afternoon and evening program.

Special arrangements are being made to take care of the children while their parents are attending the various lectures and demonstrations.

TO MY HEPPNER FRIENDS.
A word of appreciation for the splendid support I have received at the hands of the people of Heppner, as well as the traveling public, during my five months as manager of Patrick Hotel. I wish to sincerely thank one and all for the way they stood by me in my efforts to get the hostelry opened up and its business established. No enterprise was ever undertaken in Heppner under more difficult circumstances, perhaps, than those surrounding the launching of this new hotel, but the support of the Heppner people has been undivided and I certainly feel grateful for all the encouragement I received. If I met with any degree of success, it is largely due to this loyal support on your part, and to the help from the city with the kindest of feelings for the people of the city and county.

JAS. M. HART.

CARD OF THANKS.
We desire to express our sincere thanks and appreciation to our friends and neighbors for the kindly sympathy extended during the illness and the time of the death of our beloved husband, father, son and brother. We especially appreciate the many and beautiful floral offerings.

Mary E. Case and family.
