

LIVE LOCAL ITEMS

Mr. and Mrs. Geo. H. Flagg, formerly of London, where for two years they were the publishers of the Globe Times, spent Monday night and a portion of Tuesday in Heppner. They have been visiting at the home of Mrs. Flagg's parents at Prairie City, and also took in a few other Eastern Oregon towns and cities. They left on Tuesday afternoon for Warrenton, Oregon, expecting to spend the coming two months at the beach.

Marshall Phelps had his capacity to swallow increased this week when he called up Dr. McMurdo and had his tonsils removed. Future trouble from these neck impediments will now be avoided, as well as a lot of pain when they become diseased.

Vernon Troedson, son of Mr. and Mrs. Johan Troedson who reside out north of town, was brought to Heppner the first of the week, suffering severely from blood poisoning in the hand. Dr. McMurdo administered treatment and he was able to return home much relieved.

Will Bergetrom, of Gooseberry, who was operated on last week by Dr. Chick for appendicitis, is reported to be improving nicely and will be released from the hospital on time.

Mrs. Howard M. James departed for Portland Monday, where she will join Mr. James and spend a short vacation.

To the Traveling Public

THE HOTEL PATRICK was closed July 10 in protest to the unreasonable rates charged for water and light service, as well as other commodities necessary to the operation of the Hotel, and will remain closed until a satisfactory adjustment can be made.

Heppner Garage

Heppner, Oregon

WHEN BETTER AUTOMOBILES ARE BUILT, BUICK WILL BUILD THEM

Automobile manufacturers carefully recommend, in their Books of Instruction, regular draining and cleaning of the crankcase.

This is necessary because engine operation causes road dust, carbon, fine metal particles and other impurities to accumulate in your crankcase oil. This gritty oil circulates through your engine, impairs its performance and ultimately leads to rapid depreciation and repairs.

To meet this need, Modern Crankcase Cleaning Service has been established by first-class garages and other dealers, co-operating with the Standard Oil Company. These garages and dealers use Calol Flushing Oil, the scientific agent that cleans out old oil, dirt, grit and other impurities, and does not impair the lubricating efficiency of fresh oil used. The cleaned crankcase is refilled with the correct grade of Zerolene.

Look for the garage or dealer displaying the sign shown above, it means "Better operation and longer engine life."
