Bert Bowser is up from Portland this week to look after business in this vicinity. He is driving a new Cadillac roadster that is certainly some fine machine. You couldn't divorce Bert from a Cadillac.

W. F. Harnett was in Heppner for a short time on Monday from his home at Lexington. The farmers of his section are now very busy getting in their fall grain, making the best of the fine weather conditions.

Andrew Reaney was in the city Saturday from his Lexington home. He states that the road between Lexington and Heppner is in very good shape now, but not to compare with what it will be when the surfacing is done. He was pleased to hear that the contract for this work was let.

H. W. Scott, meat cutter in the Central Market, returned from a visit to Portland and his old home at Corvallis the last of the week. He was accompanied home by his father and mother, Mr. and Mrs. J. H. Scott, who contemplate spending the winter at Heppner. Their home is in Corvallis.

Hon. C. E. Wadson returned Sunday evening from Eugene where he spent a few days the past week attending a meeting of the Board of Regents of the University of Oregon, of which he is a member.

C. L. Sweek was called to Monument on Saturday by the very serious illness of his father, L. Sweek. The elder Mr. Sweek has been in poor health for months and it was hoped that an operation from which he recently recovered would be the means of restoring his health, but his recovery now seems doubtful.

Gorger Bros., who farm about 1200 acres of land out north of Lone, where the past season they raised a bumper crop of wheat, were in Heppner Tuesday to attend to some business matters. The three boys do the most of their farm work on this ranch, with the exception of a little outside help during the threshing season, and they are making a success. They are laying off from fall seeding just now, owing to its being a little too dry for seeding on land just recently broken. Summer-fallow land is in fine condition, however, and the grain already sown is coming along fine. These boys raised a lot of 30-bushel grain this season.

Judge Campbell, Commissioners Davidson and Bleakman and Clerk Waters returned from Portland Saturday after having spent the most of the week in that city during the meeting of the State Highway Commission. Judge Campbell took the members of the court down and back in his car and he found it some task driving over the wet pavement. The court returned quite well pleased over the results obtained for the Willow creek highway at the meeting of the commission.

Nat and Paul Webb drove down from Walla Walla on Sunday and spent a few days at Heppner looking after business. They report very quiet times about Walla Walla just at present, owing, perhaps to the fact that there is little activity in the wheat market. Some recent good rains have put the farmers to work getting in their fall grain and this is coming so well. The Walla Walla section produced a very abundant crop the past season. The Webb boys were formerly interested in the stock business here and Paul was a resident of Morrow county for a great many years and ran sheep over the hills on the ranch now owned by D. O. Justus and Sons. Morrow county still looks mighty good to him.

**LIST YOUR LAND NOW**

Those who have Wheat Farms, Alfalfa and Stock Ranches for sale should call at my office and list the same at once, so as to get in on the fall and winter demand. I have sold a couple of big wheat ranches just lately, and I have prospects who are looking for others. Wheat ranches especially are going to be in demand this fall and next spring.

**IF YOU REALLY WANT TO SELL**

you must be prepared to ask considerably less for your land than it was sold at during and immediately following the war, when wheat and other farm products brought high prices. Regret this as we may, these changed conditions exist, and the farms that change hands the next year or so are the ones in which the buyer can see a bargain, or at least good value. My exclusive time will be devoted to the real estate business, and business entrusted to me will receive prompt and efficient attention.
