## Do You Fire Your Doctor When You Get Deathly Sick?

Of course not! You hire a few more and do your best to obtain the most expert talent available to cure your ailment.

Why, then, when your business gets sick, do you fire the best doctor you can possibly use to overcome the malady—DR. ADVERTISING?

The famous Philadelphia and New York merchant, John Wanamaker, has said a great many times and in a number of ways, "When business is poor, that is the time to increase advertising, and to this policy we owe a large measure of our success." What applies to the merchandising business in the large centers applies with equal force to business in the smaller communities.

Business in Heppner is not the best, but it is improving. It can be made a great deal better if business would assume a more optimistic attitude, and push itself forward vigorously and confidently. Advertising will go a long way toward curing the ills that business is suffering from, and a liberal application will make a wonderful difference.

TRY IT!

THE GAZETTE-TIMES is prepared to help you in every way. Our phone number is 882.
