

# Local Happenings

Dr. D. R. Haylor here March 6 and 7.

FOR SALE—A fine Shetland pony mare. C. C. Calkins.

Lawrence Palmer, farmer of the Lexington section, was doing business in this city yesterday.

LOST—Bird dog; white with brown spots. Female. Suitable reward for return to A. C. Crowell, Heppner.

Dr. J. Perry Conder, candidate for the position of joint representative from Morrow and Umatilla counties, was in Echo Tuesday.—Echo News.

Chas. Latourell of the Latourell Auto company went to Portland Sunday and spent a couple of days in the city looking after business affairs.

FOR SALE—One P. & O. plow, 2-bottom, 16-inch; 1 double disc, 9 x 10; 1 4-section steel harrow; all about new. See J. C. SHARP, 2 miles north of Kilkenny ranch.

Attorney C. L. Sweek was unable to be at his office for several days during the past week, owing to the sickness of himself and wife. They suffered from attacks of grip.

R. E. Crego left for Portland on Tuesday and from there he will go on to Grants Pass to take up work of manager of that district for the Pacific Telephone & Telegraph company.

Hanson Hughes has been laid up at his home for several days this week, quite sick. He was threatened with an attack of pneumonia but is now out of danger of that, though unable to be at work.

C. L. Keithley, Umatilla forest supervisor, left last evening for Walla Walla to attend a meeting of the Walla Walla Cattle and Horse Raisers association. He has been in Pendleton recently on detail work.—East Oregonian.

C. S. Reeves, photographer from Hood River, is here this week, "shooting" the members of the high school graduating class, and taking other pictures to be used in the forthcoming edition of the Hehisch, the high school annual.

The Loyal Sons class of the Christian Sunday school will hold a window sale at the Humphreys drug store on Saturday afternoon, next. The boys are anxious to do something for the rebuilding of the church, and are taking this means of raising some money to that end.

Joe Mason, formerly of Lone, has now located at Prineville, Oregon, and gone into business. He has purchased the "Men's Shop" in that city. The Central Oregonian of that city says: "Mr. Mason is an overseas veteran of the world war, and is a man who makes friends readily," and he has many friends hereabouts who wish him abundant success in the new venture.

Bert Peck, of Sagenhurst farm, Rhea creek, received a fine mammoth bronze turkey this week from Mrs. Roy E. Watkins of Olex. This is an extra fine bird and Mr. Peck promises to have some good breeding stock for sale from his farm another year. Mrs. Watkins carries on quite an extensive business in the raising of turkeys and she makes a specialty of breeding fine stock.

Mike Szepekanek came in from the north Sand Hollow section Tuesday. He states that the weather conditions down his way are now much better; the frost is all out of the ground, and despite the fact that there is some freezing each night, this soon thaws and plowing is proceeding in many fields. As to roads, Mike says he finds none from the Hynd Bros. ranch on in to Heppner and it is pretty tough traveling getting to town.

Miss Anne M. Lang of The Dalles was chosen state regent of the Daughters of the American Revolution at the close of the 9th annual convention in Portland on Saturday. Miss Lang is a native daughter of The Dalles. Mrs. W. W. Smead of this city is a member of Daughters of the American Revolution, belonging to the organization at The Dalles, and she rejoices over the promotion of Miss Lang to be head of the state organization.

Carrol Morrison, son of Mrs. E. J. McFerrin, 265 East Eighty-fourth street North, Montavilla, has just attained new honors in his present location at Fairfield, Idaho, according to a statement published in Sunday's Oregonian. After his war service he returned to Portland and took a business college course, entered the employ of the Heppner bank and later was made assistant cashier of a bank at Fairfield. Recently he was elected city treasurer there and his mother has now received the news that he has been appointed probate judge to complete the unexpired term of the judge who died.

Edited By JUNIOR ENGLISH CLASS

### Lone Takes Game From Locals

Game Is Featured by Shooting of Linn.

Last Friday our boys went to Lone to play the Lone high school team. The game started with a spectacular basket from the tip-off by Linn of Lone. Lone showed herself to be much stronger than she was in the other game and the first quarter ended 8 to 5 in Lone's favor. The second quarter started with Heppner's team hitting their stride and bringing the score at the end of the first half to 10 to 11 in Heppner's favor. The score in the third quarter saw Lone back and forth with neither team having an advantage and the quarter ended with a score of 19 all. After about four minutes of play in the last quarter Lone secured a lead and started passing the ball in Heppner's end of the court. Heppner was unable to effectually break up their passing and the game ended 28 to 26 in Lone's favor. Linn, forward, secured almost two-thirds of Lone's points and made a good many brilliant shots from the floor in the first half. The rest of Lone's team passed well and their teamwork, and Linn's individual playing were the causes of Heppner's defeat. Doherty was high point man for Heppner and was well backed by the rest of the team. The lineups were:

Lone	Heppner	
Linn	F	Doherty
T. Blake	F	McDuffee
Balsiger	C	Clabaugh
Warfield	G	Witcraft
K. Blake	G	Irwin
Referee: Blake.		

### Heppner Girls Win Two Games.

The Heppner basketball girls invaded Lone's territory last Friday and came home with two victories. The first one was the result of a forfeit by Lone. They wanted to play an ineligible girl, and rather than put in a substitute they forfeited the game, making the score 2 to 1 in Heppner's favor.

The same two teams then played as town teams. It was a very fast and clean game, with the score ending 15 to 14 in Heppner's favor.

Arlene Balsiger made the first two baskets for Lone, but after that Heppner pepped up and Lone was unable to get more than four points ahead. The first score for Heppner was a free throw. At the end of the first half the score was 10 to 8 in Lone's favor.

There were three minutes left in the last half to play. The score was 14 to 10 in favor of Lone. Every girl in each team was playing her best when Elaine Sigsbee, for Heppner, threw a basket. Still Heppner needed two more points to make the game a tie, and only one minute was left to play. Just before the whistle blew Sigsbee made another basket and the score was 14 to 14. The teams then rested five minutes before playing the five minutes that had been agreed on to play off the tie. Each team went on the floor determined to win, and as a result neither team made a basket until fifty seconds before time for the whistle to blow. It was Elaine Sigsbee again who came to our rescue by throwing a basket making the final score 14 to 15.

The team work on both sides was excellent. The star for Heppner was Nellie Flynn who played a wonderful game as guard. The two centers also played a good game. The lineups were:

Heppner	Lone	
Sigsbee	F	Balsiger
Ritchie	F	Engleman
Doherty	C	Devin
Hall	SC	Farrens
Flynn	G	Rekmann
James	G	Musgrave
Substitutions: Turner for James.		

### Independents Win.

The Independent team played the Lone American Legion team last Saturday. The game was a little slow at first but speeded up in the second half. The game was very much in favor of the Independent team because two of the Lone stars were unable to come. The final score was 43 to 8 in favor of the Independent team. The lineups were:

Independents	Lone	
Lee	F	Lowell
Aiken	F	Sperry
Boyd	C	Corson
Howell	G	Blake
Ferguson	G	Cochran
Gentry	Sub	T. Blake

### Basketball, Lexington, Friday March 3.

Return games of basketball will be played in Leach's hall at Lexington Friday night.

Both schools have promised a much faster game, but, nevertheless, we will do our best to bring home another victory.

The road between here and Lexington is in a fair condition and we would like to have the town folk show their loyalty by attending and cheering for our boys and girls. Let's not deprive them of the chance of going to Salem.

### Basketball Tournament, Pendleton, March 10-11.

The committee appointed to decide the basketball championship of our

district met in Pendleton on Wednesday, February 22, to decide on a tournament date.

Pendleton, Athena and Heppner thus far had lost no games and it was decided that these three teams would play at Pendleton on March 10 and 11. If, however, any of these teams lost one game between now and that date, all teams who had lost only one game would be eligible.

All expenses will be paid by Pendleton, and any excess funds are to be divided equally between all contestants. Prof. Borleske, coach of Whitman college, Walla Walla, will referee the games.

Since Heppner lost the game with Lone last Friday evening, all teams who have lost only one game are now eligible.

Student reading grades from report card: "C. D. B., B, and B in department. Well, with nothing worse than a C in science, and a D in English, it ought to be safe to take my card home and have it signed up."

The civics eleven class are in the midst of a study of the United States courts and some of the students are beginning to think they'll never get out unless the courts are abolished.

A new system of work has been established in the domestic science department by Miss Norris, the instructor. The girls are given certain positions each week, such as manager, assistant manager, general manager, first and second cooks, pastry cooks, first and second waiters, and girls in charge of the lunch room. With every position are a number of specified duties which each girl is held responsible for. In this way the work is accomplished in an orderly manner and each girl has training in supervising the work.

The system of ventilation and heating which has been put in practice for several weeks seems to have been pretty successful. The epidemic of colds seems to have subsided as most of the rooms for the month ending February 24 have an average attendance of over ninety-five per cent.

Claude Sigsbee left school Monday to go to work through shearing. We were all very sorry to see Claude leave.

"I wish I was a Scotchman," said a Junior.

"Why?" asked someone.

"I might be able to translate some of Burns' poems then."

Mr. Reeves, the photographer, is now here to take pictures for the annual. There is much discussion, especially among some of the "bobbed haired" girls as to how they will look printed on the pages of an annual, but some of the other students have attempted to come to their rescue by offering such suggestions as the wearing of wigs, hats, etc.

Heppner High lost two more students from its roll last week when Gwenith and Everett Wilkinson left to attend school at The Dalles. "Gwen" and "Buddy" have both taken active parts in class and high school affairs, and we miss them very much in assembly.

Last Friday ended another 6 weeks of school, and Wednesday evening report cards were given out. As they were handed around to their respective owners they were either greeted with a smile or a frown, and the same words that we hear every six weeks, "I'll work harder after this," were again heard.

The domestic science class served one hundred and thirty-six grade pupils with soup last week. On account of better weather the number has been decreasing from week to week.

### The Medieval and Modern History

class has arranged a new plan of study for this week. Two members of the class have chosen sides and the side getting the lowest grades has to entertain the other side. The entertainment is to be a party with light refreshments and games.

Operetta practice is progressing rapidly. Some changes have been made in the cast, and the present one is working hard. From what we hear of it we feel sure that it is going to be the best ever put on in Heppner.

At the program given under the auspices of the Patron-Teachers association last Tuesday evening, Miss Hull, who is representing the Ellison-White Lyceum circuit, addressed the audience for about ten minutes. The audience was requested to sign up for the number of tickets they were intending to purchase for the lyceum for the coming year. This gave the members of the Patron-Teachers association some idea of what the town people thought of the lyceum work. At the Patron-Teachers association meeting which was held immediately following the program it was decided not to have the lyceum course.

Since the recent adoption of a new law in H. H. S., the students' heads are seen frantically looking in every direction before they ask permission to speak. Study hall has been much quieter since then, but it is rather hard to tell when the other fellow is through.

The biology class informed us that they had completed their long themes at last. The class was divided into groups of three persons, each group writing a paper of 6000 words on some biological subject.

### Farm Notes For Eastern Oregon

Irrigated barley yielded 1368 pounds to the acre as compared with 944 pounds of irrigated oats, according to the census figures for Oregon. It will pay to grow more barley than oats unless the region is exceptionally frosty or cold. Barley is also far better to plant on land somewhat strong with alkali.—O. A. C. Experiment station.

HEART WOOD BEST FOR POSTS.

Fence posts made of the heart wood of mountain cedar will last from 25 to 35 years as compared with 6 or 7 years for those made of sap wood. Heavy posts having a circumference of 21 inches are the most economical to buy. Red juniper

posts, split, will last much better than the same sized round ones. Nothing but a good post should pay in a permanent fence.—O. A. C. Experiment station.

Federation topped all spring wheat under the high irrigated conditions of the Aberdeen experiment station in 1921. Federation yielded 79.7 bushels an acre, which was 19.4 more than Marquis, 17.4 more than Bluestem, and 11.7 bushels an acre better than Dicklow.—O. A. C. Experiment station.

EARLY PLOWING PROFITABLE.

Summer fallow plowed early often yields as high as a bushel an acre more than land left till May of June before plowing. Careful observation of good farm practices is the surest and cheapest method of increasing crop yields.—O. A. C. Experiment station.

FOR SALE—1 set demountable wheels, 2 extra rims—suitable for Ford, Maxwell or Chevrolet. Price \$18. Phone 824, or write Box 73, Heppner.

FOR SALE—A country home lighting plant; 1000-watt. See Starkey.

FOR SALE—Thor electric vacuum sweeper. Inquire at this office.
