

Homemakers Conference Will Sound New Slogan This Year

"Better Homes For Oregon" Is Aim of Scientific and Practicing Women of Oregon.

"Better Homes for Oregon" is the new slogan around which the practical scientists and scientific practitioners of Oregon homemaking will rally for their first separate conference at the state college, Corvallis, March 20-25.

"And the slogan will be made vital," say the leaders of the movement. "The opening address of Dean A. B. Milam, 'Homemaking From a New Standpoint,' will sound the keynote."

The conference has always heretofore been held in connection with Farmers' Week, when some of the women thought they were expected to play "second fiddle" in the men's orchestra. In conformity with the development of a better standard of homes and homemaking, the method has been changed to meet the new needs—O. A. C. Experiment station.

When the winter breaks and the ground thaws out don't forget that we have all kinds of tools for working the ground.

Your hens are cackling for more poultry supplies and we have got some left.

Who wants an incubator? We have them.

Some of you ladies look awfully pretty but there is nothing that would look so pretty to us as a check for your account or a part of it.

Hereafter our terms will be 60 days net, or 5 per cent discount for cash within 30 days. After 60 days 8 per cent per annum will be charged to the account at the end of every month. No deduction from these rules.

We heard it rumored that a certain gentleman who holds some responsible position in the First National bank at Heppner was invited to dine with the Cecil elite at the mayor's residence on Sunday last. Sunday arrived. Everything in order, all patiently awaiting the arrival of the guest from Heppner whose initials we believe are F— G—, and who failed to
