## JUDGE LOWELL WILL NOT BE CANDIDATE

(Pendleton Tribune)  
Not desiring to submit his name to the people of Oregon for the republican nomination for governor as he has been urged to do Judge Stephen A. Lowell of Pendleton in a letter to the Tribune sets forth that the candidates chosen will most likely be elected because of religious belief or racial objection. He does not wish to be subjected to such a test and states that he has no sympathy with either religious bigotry or racial prejudices.

Judge Lowell's letter follows:  
"March 18, 1922.  
"Editor Morning Tribune,  
"Pendleton, Oregon.  
"Dear Sir:  
"Six weeks investigation has undeceived me as to the gubernatorial situation in Oregon. Early in February I gave to the public a tentative platform in the full expectation of becoming a candidate for chief executive of the state, and in the belief that the issues of the campaign were to be economic, industrial and moral. I am now convinced that the primary election, two months from tomorrow, and the general election in November will probably be determined upon the age old conflict of race and religion. Neither the ability, personality nor the attitude of candidates upon state problems, are likely to receive controlling consideration at the polls.  
"I am a Protestant in religious faith, descended from ancestors who came to New England in the 17th century. I believe that I can properly claim to be an hundred per cent American, but I have no sympathy with either religious bigotry or racial prejudices. Whether a man be Protestant, Catholic, Hebrew, Mohammedan, Brahmin or Confucian depends chiefly upon the environment of his childhood. For the place of his birth or the color of his skin he is not responsible.  
"The people who are injecting these exotic issues into the campaign are assuming censorious authority which belongs to no individual, no secret society. They are compelling those factors in our population whose race or religion they attack, to meet organization by organization, to act together for the protection of their civil rights and the prerogatives of their citizenship. The result is that in the more densely populated counties there exists already a sub-racial fire of sectarian passion and racial antagonism, which bids fair to compass the entire state, increasing in volume and vehemence until the fundamental interests of the public are overshadowed and forgotten.  
"I would deem it a distinguished honor to be governor of Oregon and I believe that at this juncture I could render valuable service to the commonwealth, but I am accustomed to

## CECIL ITEMS OF INTEREST

Cecil hills are dotted all over with sheep and lambs. Feed beginning to be good, makes it a good thing for hay stacks which are few and far between on Willow creek. Several carloads of baled hay have been shipped to the various camps during the last few days. R. A. Thompson has moved some of his ewes and lambs to his upper ranch above Heppner this week. We heard R. A. says that his lambs were making 125 per cent and at other camps they were doing even better than that. Wheat men are so busy on their land that they haven't time to visit Cecil even for a chew of tobacco these fine days.

J. W. Osborn, who has been spending several months at the home of his sister in Portland, returned to Cecil on Monday and is feeling much better for his rest, but delighted to be back in sunny Cecil amongst his old friends and surroundings of so many years. We doubt if even sunny Cecil will be able to keep him "down on the farm" after he has seen Broadway.

Mrs. Dwight Misner arrived in Cecil on the local on Thursday, accompanied by her daughter, Miss Greta who has recovered sufficiently from her recent operations in Portland as to be able to be moved to the home of her parents on their ranch near Cecil.

Geo. A. Miller and son Elvin of Highview ranch have been busy several days during the week with their Cletrac tractor and the county grader improving the county roads after the bad weather which we have had for so long.

Ed Bristow, one of Lone's leading merchants, and his wife and family, accompanied by Judge Robinson of Lone, spent Sunday afternoon as the guests of Mr. and Mrs. Jack Hynd at Butterby Flats.

Mrs. Fred Buchanan and children, accompanied by her sister, Mrs. Hazel Logan and children from their homes near Lone, autoed to Cecil on Monday and spent a short time with their friends.

Mr. and Mrs. C. A. Minor on their journey from Baker visited a day or two at The Last Camp before leaving for their home in Heppner.

Chas. D. Sennett arrived from Lone on Thursday and is now busy pruning the Cecil orchards before leaving for his home in Portland.

Mrs. Geo. Krebs, Miss Lena Krebs and John Krebs, all of The Last Camp, were visitors at Butterby Flats on Sunday evening.

Henry Cohn of Heppner accompanied by John Kelly was doing business in the Cecil vicinity on Wednesday.

Miss Eleanor Furney left on the local on Friday for The Dalles where she will visit friends for the week-end.

Ellis Minor from his ranch near Lone was doing business in Cecil on Tuesday.

Mrs. Roy Scott of The Lookout was calling on friends in Cecil on Friday.

R. E. Duncan of Busy Bee ranch was a busy man in Cecil on Tuesday.

## HEPPNER MAN GRADUATES FROM PRACTIPEDIC SCHOOL

E. N. Gonty of the Gonty Shoe store of this city has recently graduated and received his certificate from the American School of Practipedics, of Chicago.

Mr. Gonty states that Practipedics is the knowledge of extending foot comfort in the shoe store through scientific methods of shoe fitting and the intelligent use of the famous foot conformer appliances invented by Dr. Wm. Scholl.

Mr. Gonty is quite enthusiastic over his completion of this course, and it will now be his ambition to send every customer out of his store with comfortable feet, in special, stylish shoes. This will be a neat, stylish rendered the customers of the Gonty Shoe store.

## TRACTOR SCHOOL INSTRUCTIVE TO MANY

According to the Medford Mail-Tribune, a most instructive tractor school was held in that city March 10 and 11, and we are informed by Chas. H. Latourell, of the Latourell Auto Co., of this city, that a similar school will be put on at Pendleton on Tuesday and Wednesday of next week, March 28 and 29. The school will be held at the sales rooms of the Simpson Auto Co., in that city, and all those interested in further particulars should see Mr. Latourell at his garage in Heppner and receive full information.

The Medford paper says: The school is a joint production of the Ford Motor Co., the Standard Oil Co., the Oliver Chilled Plow Co., the American Seeding Machine Co., and the Oregon Agricultural college, each with an especially trained representative present. The most surprising part of the school is that there are no trade names mentioned and nothing offered for sale.

In explaining the origin of the school J. D. Jordan, assistant manager of the Ford Motor company at Portland, said, "Mr. Ford has stated that the farmers' costs of production are too close to their selling prices to permit of a reasonable margin of profit. With this in mind this school was started. Calling together the five largest manufacturers in the field of power farming we are offering you the benefit of their experiences and extensive study on costs simply with the thought that it may be possible to clear up the little troubles and thereby assist the farmers to cut their costs of production."

The first night's program at Pendleton will open with a talk on ignition and carburetion by C. E. Allison of the Ford Motor company, with an engine set up and running on the floor. His practical talk will leave small doubt that much expense can be eliminated through a better knowledge of troubles, how to locate them and how to correct the minor ones in the field. William Munro, lubrication expert of the Standard Oil company, will then give a talk on lubrication, explaining the workings of a combustion engine and the necessity of oil.

Other speakers for the second night will include Chas. W. Harrison of the Oliver Chilled Plow works, in a talk on plowing, disking and cultivating; Fred S. Serviss, special representative of the American Seeding Machinery company on seeding, seed bed and yields. Professor W. G. Gilmore, in charge of the farm mechanics division of the O. A. C. on power farming and the part the college plays; C. C. Calkins, county agent, on the extension work and the year's program.

A feature of the school is motion pictures showing inside workings of Henry Ford's plant at River Rouge, covering coke production, blast furnace and production.

## Jack Stone, Released Last Week, Arrested Last

Jack Stone, who was last week dismissed from custody of the officers on a charge of insanity, was later arrested on a charge of assault, and on a hearing before Judge Corbett on Saturday was given a sentence of ten days in jail. The judge agreed to remit half of this if the man would return the money he held Farley up for, but this proposition did not suit Stone and he is serving out the sentence in the county jail.

Farley has to acknowledge that he was separated from his ten dollars in a pretty clever manner, and hereafter will keep his check book in his pocket when he is approached by someone with a brickbat in his hand whom he considers insane.

News has just been received by L. W. Briggs of the death of the soldiers' home at Sawtelle, Calif., of William Lounsbury, one of the early pioneers of this county. He leaves an aged wife, who is a sister of Mr. Briggs, and two daughters to mourn his loss. He had been physically helpless for many years.
