discuss the gubernatorial candidates. or express a choice among them, as suming that the field is full, which indeed may be a false assumption There is yet abundant time for other men to enter. Both Mr. Lee and Mr Patterson were active in politics when I came to the state a genera tion ago. I have known both for at least a quarter of a century. Governor Olcott and Mr. Bean belong to the younger generation of statesmen but I have known them both well during the years of their political activity. With Mr. Hall I have no acquaintance that I recall. All are worthy citizens.

Whoever is elected governor in November must take office with a definite program of tax reduction. and he will need the friendly and intelligent cooperation of the legislature to succeed. The best men in the state ought to make a sacrifice at this juncture and become members of that body next winter. In my judgment the voters will do well to send a goodly number of strong democrats to both house and senate. Oregon needs a balance wheel in its legislation.

County officials, too must strike hands with the administration in reducing expenses, and lowering taxes. Outside the millage burden, it is the counties and cities where the weight of taxation is found. There is little

GILLIAM & BISBEE'S @ COLUMN @

We have plenty of poultry supplies of all kinds and water glass for packing the eggs.

What Morrow county needs is to cut out some of the gold tax and get down to brass tacks.

We now have 99 1-2 per cent pure certified alfalfa seed which we are selling for cash only at 23 cents by the sack and 24 cents weighed out.

People can go to the Devil lots faster now-a'-days because they can go faster in an automobile than they used to in a buggy.

When spring work opens up, remember we have everything for the equipment of your machinery, tools,

We have it, will get it, or it is not

WILLIAMS ALABAMA COLORED JAZZ BAND How to Really Save DANCE SATURDAY

On Cost of Painting

FIRST, find out what good Cheap paint starts to crack in twelve months. Good paint restart to save on paint. We spend mains good five or more years. It more to make paint for your economy as follows:

We use only the best materials in Fuller's Specification House Paints - PIONEER WHITE LEAD, pure linseed oil, zinc and finest colors.

We super-purify the lead in a special purifier. Then we make the lead so fine that it will pass through a silk screen with 40,000 meshes to the square inch.

The "whiter" lead means clearertoned colors. The extreme fineness means better mixing quality, greater covering capacity, more ease in spreading - a paint that's always uniform and smooth.

Such paints when applied form a beautiful elastic, tough, protec-tive coat that stays. They are known as "Fuller's Specification House Paints."

Where "Cheap" Paints Fail

Don't Figure Paint Economy as

"Cost per Gallon."

"Cheap paints can't compete with good paints in economy. "Cheap" paint covers less—you buy more gallons. It is harder to spread, requires more work-so you pay more labor cost. Your "saving" in less cost per gallon is very quickly eaten up.

is really the cheap paint that is expensive. Don't allow surfaces to rot-it costs less to paint them.

There is no real cost in painting with the best paint. Depreciation of an unpainted building far exceeds the cost of paint.

Free Advice on Painting

K our agent for our Afree advice. He will show you a color card which shows 32 shades of this desirable paint. We have a Fuller Specification Depart-ment which will tell you all about the most desir-able color schemes, color harmony and those other details you want to know

Take advantage of Fuller House Paints. Take steps to paint now. Don't
