The senator is proclaiming the fact over this Senatorial District that he was one of the "Faithful Fourteen" in the special session called by the Governor just before last Christmas. The facts are as follows: At the special session there were three companion measures to pass regarding the support of the World's Fair to be held at Portland in 1925, one to pass a law regarding gasoline tax; one to bond the state, and the third to call a special election to vote on the question as to whether or not we would have the fair. Mr. Eberhard voted "Yes" to call the special election to have the fair and every other member of the fourteen senators voted no. Was he one of the "Faithful Fourteen," or was he not? We don't think so.

Demands Reduction in Taxes. If nominated and elected Mr. Kitchen will favor the reduction of taxes by all taxing bodies, no more bonds issued until a method is devised for paying those already authorized. Cut overlapping commissions, apply strict economy in expenditure of all public funds same as in private affairs, not affecting our efficiency.

Fewer Offices Advocated. Mr. Kitchen advocates fewer offices and the raise of no salaries and placing Governor's salary back where it was before the 50 per cent raise. He stands for the organized farmer and laborer and the cutting out of all frills in education and the giving of preference to ex-service men on public work.

Cut Out Extravagance. He advocates change in auto tax law so owner will pay on value and not weight of machine; let holder of note secured by mortgage on real estate pay taxes on it and not mortgagor pay double taxation; cut out all unnecessary appropriations and stand for poll or income tax so taxation on real property will be more fair and uniform. "Cut out extravagance. Reduce taxes—no just talk about it."

Kitchen is Out to Win. He is not in this race to divide the votes between any other candidates but to be nominated himself and the voters of the 19th Senatorial District should support him.
