

**Local Happenings**

C. L. Sweek returned on Friday from a visit to the home of his mother near Monument. He states that there will be little wool come from that section to the Heppner warehouses this season owing to the very bad condition of the road across and out of the Wall creek canyon. Just now this road is almost impassable and it is the opinion of Mr. Sweek that the greater portion of the wool will go over to Condon.

Mrs. Olive Frye, Mrs. Pearl Childsey, Miss Opal Briggs and Mrs. Lillian Turner, accompanied by her little daughter, Jeannette, were passengers leaving Heppner Sunday for Eugene. They go to attend the convention of Rebekahs of the state of Oregon held at Eugene this week as delegates from the Heppner lodge. Mrs. Frye being an officer in the state assembly.

Mr. and Mrs. John McDevitt were in the city on Monday from their farm out north of Lone. Mr. McDevitt states that he has a fine prospect for a good crop at present and the recent good growing weather has added greatly to its appearance and made wonderful improvement in the looks of all crops in his neighborhood.

John P. Hughes was down from his home at Helix, Oregon, this week on a visit to his parents, Mr. and Mrs. John Hughes of this city. He is now a farmer in the Helix country and states that the crop outlook there is quite favorable just at this time, though the season has been rather backward.

Miss Peggy O'Rourke of The Dalles has been enjoying a pleasant visit with Heppner friends during the week, coming up from The Dalles on Friday. She was accompanied by Miss June Kenewick, and the young ladies were guests at the home of Mr. and Mrs. Mike Curran.

Laxton McMurray last week purchased a new six-cylinder Reo car of the latest model. It is a handsome car and he expects to break it in next month on a trip to Yellowstone Park and other Eastern resorts.—Lone Independent.

A. M. Phelps and L. W. Briggs left on Sunday for Eugene, going as delegates from Willow lodge No. 66, I. O. O. F. to attend the grand lodge of the order in session there this week. Mrs. Phelps accompanied her husband.

Dillard French, extensive stockman of Big Buter creek, was doing business in this city on Saturday. His section had a good rain on Friday, which will help some, Dillard says.

F. M. Griffin, while visiting his daughter at Maupin last week was so stricken with rheumatism that he was unable to return home.—Lone Independent.

Mr. and Mrs. Joe Devine of Lexington were visitors in this city on Monday afternoon.

**The Coal Barons Sit Tight**

The complacency of the coal operators in the light of the coal strike, bodes ill for the public next winter. Were the operators suffering, they would squeal so loud that their cries would be heard from coast to coast. Their silence indicates simply that they have the situation in hand—financially. In brief, it will be found there is already mined and awaiting higher prices, a supply of coal perhaps sufficient to take care of winter needs with a short market and high cost to the public, but the black diamonds will be carefully concealed until the proper time comes. In the meantime, the miners are to be taught a lesson.

Every indication is that the winter will see the delivery of a poor quality of coal in all towns and villages with increased coal bills for the peo-

ple. This whole difficulty comes as a result of the unscientific manner in which labor is distributed. Excess of employment hours and pay, and then no labor at all works poorly for both worker and public. Human nature is a factor that must be counted on. When a workman gets fifty dollars a week for ten weeks and then nothing for ten weeks, he never is as well off as when he gets twenty-five dollars for twenty weeks. His standard of living is automatically raised during the period of unusual prosperity and in the period of depression it is doubly hard for him to get "back to normalcy," when, as a fact, he finds he must get back more nearly to starvation. Government investigations, of course, are usually more or less farcical, costly to the people and non-resultful, but it would be highly beneficial if the government could work out some specific plan and back it up by commandatory legislation that would bring about a steadier labor condition. In many cases the unions have the country by the throat and they do not seem averse to squeezing the public windpipe. At the same time the world's happenings point with a warning finger to the folly of oppressive warfare on the men who do the manual labor of the hour. Certainly the man willing to work should be reasonably assured of steady labor.
