

Will Celebrate Opening of Ferry At Boulder, Oregon

A. B. Strait, who now has his ferry in full operation across the Columbia river between Alderdale, Wash., and Boulder, Ore., is planning to celebrate the event by a big basket dinner to be given in the willow grove on the Boulder side of the river on Sunday, May 28.

The people from both sides of the river will gather on this side for dinner, and it is expected that there will be a large number present. A special invitation is extended to Heppner and Morrow county people to drive down to Boulder on Sunday and participate in the feed and other ceremonies. Well filled baskets may be brought along, but it is understood that whether this is done or not there will be plenty of good eats provided by the people of both Boulder and Alderdale. The object of the picnic is to celebrate the opening of the ferry, and it will be possible for people over this way to cross over to the Washington side and get acquainted with the good people there and take a run over the good roads leading out from Alderdale into the Horsehaven and Mabton sections.

A trip down Willow creek highway to the Junction and then a short run up the Columbia highway will bring you to Boulder. One of the big features of the feed will be a salmon bake—lots of good, fresh salmon, properly prepared, will add materially to the many other good things in the line of edibles that will be spread before the visitors, and having been there on a previous occasion, the editor of this paper can vouch for the many good things that the people of the Alderdale community can set before their guests.

Heppner Chautauqua Dates Are June 24-29

The time for Heppner's big Chautauqua is fast arriving. The dates set are June 24th to 29th inclusive. At a meeting of the guarantors—who are 50 in number—held on Monday evening, a complete organization was perfected by the selection of W. O. Livingstone as president, A. M. Phelps, vice president; F. R. Brown, secretary and A. S. Akers, treasurer. Committees: Advertising, C. C. Calkins, Bert Stone and Wm. Haylor; tickets, A. D. McMurdo, Alex. Cornett and T. J. Humphreys; Junior Chautauqua, Mrs. C. W. Shurtle, and Mrs. L. G. Herren; grounds, W. W. Smead, J. J. Nys and S. E. Watson.

First Christian Church

Lord's Day, May 28.

On Sunday at eleven o'clock at the Federated church we will gather to do honor to our war heroes, both living and dead; Memorial Sunday will be observed as a union service, and the building should be filled. A greater memorial is observed every Lord's Day—the resurrection of Christ from the dead, let us form the habit of observing this too. Bible school at the usual hour, followed by the Communion service, from there we go to the Federated church. Intermediate Christian Endeavor at 4 o'clock, Senior Endeavor at 7 and preaching at 8. We shall look for you and your welcome will be cordial.

See the picture of the new building in Humphrey's window.

LIVINGSTONE.

German rollers and canaries for sale. Mrs. Ed Hunt. 2tp.

Condon Ball Team Will Have Band Here Monday, Tuesday

Two games of ball are scheduled for Heppner on Monday and Tuesday of the coming week, at which time the locals will be called upon to defend their laurels. The Condon folks are coming over with flying colors and their band to help lend enthusiasm and pep to the occasion, and two rousing good games of ball are promised the fans.

In the game between Heppner and Arlington, Sunday, the latter won out by a score of 7 to 8, Heppner having the lead up to the 9th inning, when they were able to negotiate sufficient runs off the locals to put them over. It was a good game, but played under adverse weather conditions.

Stores Will Close on Monday, Tuesday.

Anticipating the request of the mayor and city council, and also the W. R. C. that the business houses of Heppner close for Decoration day, Tuesday, May 30, the stores of the city will be closed all day Tuesday. They have agreed to close on Monday, also, from 3 to 5 in the afternoon, that all may have an opportunity of taking in the big ball game between Condon and Heppner.

There may have been some bundles overlooked by the boys who were gathering up the donations of clothing the first of the week for the Near East Relief. If anyone has been overlooked, they are asked to take their donations to the council rooms where they will be looked after. This should be attended to at once.

The committee on decoration of the church for the Memorial Sunday will

be at the Federated church from 2:30 until 5 on Saturday afternoon. Those having flowers are requested to bring them at that time so that they may be properly arranged.

A June breakfast will be served by the Christian Endeavorers of the Christian church at L. O. O. F. dining hall, Friday morning, June 2nd, from 8 to 9 a. m. You remember that May breakfast?

Mr. and Mrs. Tom West drove up from their home at The Dalles yesterday and spent last night visiting at the home of Mr. and Mrs. R. R. Atterton in this city. They returned home this afternoon.

Lexington Church of Christ

All regular Sunday services as usual. Morning sermon, "Demasism—A New Religion." Evening sermon, "Divine Providence—Esther." You

are given a welcome invitation to attend the church services. Now that we are busy with the spring work and it is vacation time, we want to remember that there are no vacations in our worship and service for God. To be too busy for the worship of the church or to go on a vacation from the Lord's work is to go away and forget God. By so doing you will grow weak and sickly spiritually and you are very much in danger of letting your spiritual life die out. Take time to be holy. The church is open for you and welcomes your coming.

To save a shift on hills

Many an automobile fails to deliver the power and speed of which it is capable, fails in acceleration and on the hills, because of poor lubrication.

The purpose of lubrication is to reduce friction. In this connection it must be remembered that oils have internal or molecular friction. The heavier the oil the more this internal friction, which has to be overcome by and uses up power.

The ideal oil for the automobile is the thinnest oil which will keep the bearing surfaces separated, and at the same time offer in itself the least frictional resistance to the engine power going to the rear or driving wheels.

Such an oil—if it has "oiliness," stability and purity,—will give perfect lubrication, and permit the development of the maximum power, speed and gasoline mileage of the car.

Zerolene meets these conditions perfectly.

Oiliness—Stability—Purity

Zerolene has great "oiliness," which causes it to cling to bearing surfaces while offering in itself a minimum of frictional resistance to the engine power.

It has great stability, which causes it to resist engine heat and to form a minimum of carbon of a soft, flaky nature which goes out with the exhaust.

And it is pure.

If you follow the Zerolene chart of Correct Lubrication, you will develop the maximum power, speed and gasoline mileage of your car.
