Mr. and Mrs. C. H. Latourell spent the 4th in Boardman making acquaintances and trying to keep cool in the new service station built by Mr. Latourell. A soda fountain has been installed and tables arranged for serving cool drinks and ice cream, and is one of the most attractive service stations of the Columbia highway. Mr. Latourell informs us that the Boardman station is an authorized Ford agency and that all genuine Ford parts and accessories will be carried in stock and cars and tractors will be on display soon.—Boardman Mirror.

A \$120,000 hotel building is said to be assured at Prineville. The building will be of concrete, and will be steam heated. On the main floor will be a theater, 40 by 50 feet, which has already been leased to J. B. Sparks, formerly of this city, who now operates the Lyric in Prineville. Other businesses to be accommodated in the building will be a drug store, a florist's shop, a grocery, a hardware and ladies' ready to wear store.—Condon Globe-Times.

Dr. Chick met with a painful accident Tuesday evening when cranking his car. The pecky thing kicked back and the crank hit him a hard blow above the eye, laying the scalp open. He was taken into his office and Nurse Bristow, assisted by Dr. Farnior dressed his injuries. It was necessary to take a few stitches to draw the wound together, and the Dr. was put to sleep while the operation was performed in the most professional manner.

Friday last was a very unpleasant day in Heppner because of the wind and dust, though we did not experience the big dust storm that visited other portions of the Inland Empire. The wind had the effect of bringing cooler weather.

"Trouble"

Behind your telephone service is the "plant"—a complicated mechanical equipment of poles, cables, wires, switchboards, instruments, etc., carefully adjusted and absolutely dependent on perfect construction and maintenance.

The "plant" is constantly subject to accident and outside interference. Storms, fires, the carelessness of workmen, the pranks of children, concealed defects of material—all play their part.

The telephone company maintains a skilled force whose sole duty is to quickly restore service interrupted from any cause. Your lines are constantly watched and tested.

In the case of trouble we are generally the first to know it, but a notification to our Complaint Department when there is anything wrong will be appreciated.
