He is slowly recovering from injuries received when thrown from his back at the Rhea creek place several weeks ago, at which time he suffered broken ribs and other injuries. He states that threshing is now under way at both the Heppner flat and Rhea creek farms, and the second cutting of alfalfa is on at the latter place as well. Hay is good property this season, according to Mr. Hendrix, who states that he is now offered fifteen dollars per ton for his product at the farm, and he expects that it will go much higher.

NOTICE TO ALL WATER USERS.
Water users at the city will take notice and strictly observe the following:
Owing to low water, irrigation will have to be governed by the whistle. Shut off when the whistle blows the second time. Will give as many hours as possible.
Do no irrigation without using a nozzle or sprinkler.
When fire alarm is sounded, shut off all irrigation that all pressure may be retained for fire fighting.
By observing these rules the water supply for the city will be ample for all uses.

The GROCERY QUESTION

SELECTING and buying groceries for a home is a much more difficult task than purchasing in any other commodity. When one buys a new pair of shoes an automobile, a coat or a pair of shoes, the problem of deciding comes only at long intervals.

But with groceries every rising sun presents three new problems: "what to have" for breakfast, dinner and supper. No wonder the grocery question is the housewife's biggest problem.

There is an answer. It is to be had at this store. We specialize on tempting foods and in such large variety that planning a meal no longer carries a dread.
