HOMEY PHILOSOPHY FOR 1922. If a man should put a pair of handcuffs on himself, lead himself to jail, lock the door and throw away the key,

we'd most likely drag him out of prison and put him in a padded cell, but we don't do a thing to the bunch that's trying all the time to strip themselves of human rights as well as liberty. Now we are considering censorship of the movies—when we have right with us the only efficient censorship without any law—the censorship of the people. Moral conduct by royal command never has worked out. Let the people have what they want when they want it. Old Dame Nature will batter them into the line of decency. We wouldn't have steam heat today if our aboriginal ancestors hadn't been frozen into moral action.

The GROCERY QUESTION
SELECTING and buying groceries for a home is a much more difficult task than purchasing in any other commodity. When one buys a new pair of shoes an automobile, a coat or a pair of shoes, the problem of deciding comes only at long intervals.
But with groceries every rising sun presents three new problems: "what to have" for breakfast, dinner and supper. No wonder the grocery question is the housewife's biggest problem.
There is an answer. It is to be had at this store. We specialize on tempting foods and in such large variety that planning a meal no longer carries a dread.
