The pomace is selected from a suitable kind of screen to separate the seeds, skins and stems from the pulp. A certain proportion of sweetening is added. The pulp is cooked down to the desired consistency and rolled out to a suitable thickness. The product is finally dried.

**The GROCERY QUESTION**

SELECTING and buying groceries for a home is a much more difficult task than purchasing in any other commodity. When one buys a new pair of shoes an automobile, a coat or a pair of shoes, the problem of deciding comes only at long intervals.

But with groceries every rising sun presents three new problems: "what to have" for breakfast, dinner and supper. No wonder the grocery question is the housewife's biggest problem.

There is an answer. It is to be had at this store. We specialize on tempting foods and in such large variety that planning a meal no longer carries a dread.
