AMERICANS ON TURKISH FRONT

Uncle Sam shakes a positive head and says we will not be drawn into the European tangle caused by Turk victories over the Greeks and the massacre at Smyrna. However, American representatives are at work to report developments and help in relief work. The photo shows Admiral Mark L. Bristol, with his wife, and Davis C. Arnold, the Director of the Near East Relief, inspecting one of the stations established by the Near East Relief Committee, near Constantinople.

It seems to me both our duty and our advantage to heed that call. In all modesty, I rould venture to say, in a construct-ve sense, that we could do this.

How We Should Bargain With Europe "We should deal in a large visioned and liberal manner with the debts due from Allied nations, discriminatmade after the Armistice. It not relinquish any of our laims as a free gift, but only in consideration of measures lending to mitigration of conditions keeping Eu-

ENEMIES OF AMERICA

Success always produces enemies. We are not discussing the external enemies of America, because her danger is not from without: it is from within. Her menace is being generat-ed in her own bosom.

Let us discuss some of them. FIRST-The bad citizenship of good

The banker, lawyer, doctor, merchant, minister, teacher, or other pro-fessional and business men who spend their entire time looking after their own interests to the neglect of the public's interest, welfare, and success are bad citizens, undesirable citizens. When men become so selfish, selfcentered, and interested in their own affairs that they will not give some

of their time, energy, interest and talents for the general public's good they are an enemy to the country. Selfishness creates the bad citizen-

they are devising every scheme poss-

ible to escape the operations of law they are spending every energy they possess to defeat the judgments of law. This tendency is putting our government in jeopardy.

THIRD-Ignorance. Ignorance is a deadly enemy to society. The amount of ignorance in this country is alarming. We discovered it when we drafted the boys for the late war. A large percentage could not pass the examinations.

The time has come for us to de mand that the common school education of this land shall become univer sal and compulsory. Every child should be forced to graduate from the public schools. The Smith-Towner Bill now before Congress ought to be passed, and the Federal government ought to be made to mid the public school system of this country.

The little red school house should dot every hill and fill every valley in America; and every child in America makip of good citizens.

SECOND — Disregard for law.

There is a growing disregard for law.

Men are trying to circumvent law;
