T. W. Cutsforth was a visitor in the city from Lexington Saturday. He has finished with his fall seeding and much of the grain is up and growing well. Mr. Cutsforth farms the Chas. Pointer place, northwest of Lexington, a part of which gave him a yield of 25 bushels per acre this season, owing, he believes, to the early seeding last fall and the good start the grain made before freezing weather set in. He is also a strong believer in putting back in the soil a portion of what is taken away and always plows in the straw after thoroughly discing, always plowing deep.
