

U. S. SENATE ALSO VOTES SUM OF \$50,000 FOR THE SURVEY OF THE UMATILLA RAPIDS POWER PROJECT

The United States senate has approved the bill providing \$50,000 for survey of the Umatilla rapids project along with the \$100,000 for survey of the Columbia basin project. A wire to this effect was received from Congressman Schemm by Judge G. W. Phelps this afternoon. The news means that the senate, which has already passed the Columbia basin bill, consents to the amendment giving \$50,000 for investigation of the rapids project. Hence the authorization measure is through both houses of congress and awaits the president's signature. This money for the investigation is not yet actually appropriated and may not be secured until the next congress meets. However, the expense is authorized and will go through in due time.

Cooperative Wool Growers Distribute \$200,000 Hotbed Making and Care Is Garden Work for Feb.

The Pacific Cooperative Wool Growers in January distributed wool payments amounting to \$200,000 to twelve hundred Western Oregon wool growers. In December, the association distributed \$80,000 to wool growers residing in Idaho, Washington, and Eastern Oregon. In November it sent out \$44,000 to some four hundred growers representing sales of its graded mohair. There will still be another substantial payment before the entire 1922 pool is finally closed. These wools are graded, some being secured by the association, and marketed in an orderly manner throughout the year. As a result member growers will receive several cents per pound more than was obtainable for mixed, ungraded wools at shearing time. This margin ranges from three to twelve cents per pound depending upon the grade of wool.

The Pacific Cooperative Wool Growers sold wool for the highest price west of Ohio in 1922, when one carload of Southern Oregon fine, half, and three eighths sold for \$1.32 and 52 1/2 cents per pound respectively. On the finer and medium grades the association average prices established new high points for Oregon wools in 1922. Over half a million pounds of wool were sold at these prices.

Growers of good wool received substantially more through the association's grading process, as the wool sold on its merits, for actual value. Wool manufacturers and wool growers believe the educational value of grading and marketing the clip in the best known merchantable condition, as carried on by the association is worth thousands of dollars to the wool industry of the Northwest. The association, whose headquarters is in Portland, represents 2200 wool growers residing in Oregon, Washington, Idaho and northern California.

STRAYED—From my pasture about Jan. 20th, one bay mare, age 8 years, weight about 1200; mane was reached last Sept. Branded circle 3 on left shoulder. Notify C. N. Jones, Heppner; Phone 2F51.

FARM POINTERS

(Farm Notes from O. A. C. Exp. Station)
An incubator should be run for several days and correct adjustments made before eggs are put in. The temperature should be held at approximately 102 degrees F. throughout the first week of incubation. The temperatures for running the incubator as given out by the manufacturer of the machine should be followed carefully, as in all tests this has been found to be the most satisfactory condition.
It costs no more to keep a good bull than it does a poor one. If the good bull costs \$100 more than the inferior one, one daughter from him, with an increased annual production of only 15 pounds of butterfat over that of her dam, will pay six per cent on the increased investment.
Serious outbreaks of fire blight may be expected if spring conditions are favorable unless thorough cutting out of all hold-over cankers in root, crown, trunk and limb is done before spring. The fight to eradicate the disease is a community problem.

HOME POINTERS.

(By Home Demonstration Department)
Do you walk 161 miles a year in setting the table? A woman in Washington found she did. She reduced the distance 165 miles by using a wheel tray.
Do you use your dress form? It saves time and labor in fitting underwear, blouses, skirts and dresses, and in designing collars and draped costumes.
Keep the kitchen well ventilated.

of left ear; March bull calf by side, color deep red with white spots, same ear mark and aluminum tag in left ear. B. H. and M. F. PECK, Heppner, Ore.

Mr. and Mrs. George Peck of Lexington, were in the city for a short time today. They were accompanied by W. W. Riley, an uncle of Mrs. Peck, who has been spending a month or more visiting with relatives in the Pacific coast country. He spent some time in California in the vicinity of Los Angeles, and is now on his return home, expecting to leave in a day or two for Pierce, Nebraska, where he resides and is engaged in farming and stockraising. Mr. Riley was quite well impressed with this part of the country, the not seeing it to the best advantage.

Looking to enlarging his stock, M. L. Case has put in a deck on the north side of his store room, and extended the same across the front to meet up with the deck on the south side. This increases his floor space about 1000 square feet and he expects that it will be needed when his new stock arrives.

Does It Pay?

Advertising has made the Victrola dog famous.

It has made the cash register a big brother to retailers all over the world.

It has introduced the world to a substitute for sole leather.

It is displacing the truck horse with 40-horsepower trucks.

It has helped you to an appreciation of Stetson hats, Walk-Over, Douglas and Emerson shoes.

It has made the hand-written letter an oddity in business.

It has put hair oil on heads where no hair oil would do any good, and on heads where no hair oil was needed.

It has put Castoria down your throat, left bristles in your gums, and then came along with a Rubber-set and took them out.

It has put Zozodont, Pebeco and Pepsodent on your teeth.

It has put a Gillette against your hayfield.

It has put Murine in your eye, sold you Cuticura for pimples, Pears for the bath and Ivory for the tub.

It has put Arrow collars around your neck and Ingersols around your wrist.

It has jammed your feet in Holeproof sox, put Paris garters on your legs, and Tiffany rings on your fingers.

It has stuck Robert Burns cigars between your teeth, worn out your jaws on Wrigley's and posted you on what to buy to cure corns, warts, bunions and ingrowing toe nails.

Go anywhere you want to, do anything you wish, and advertising has had a hand in it—absolutely.

And then some people ask "DOES ADVERTISING PAY?"

ROBBERS!!

Robbers do not disturb people who have nothing. A man with a thousand dollars in the bank and only a check book in his pocket has nothing for robbers to take; yet his check is as good as the money which his neighbor carries in his pocket.

It is not safe to carry money on your person when among strangers. Neither is money safe in the house. Money in the bank is safe and is always available by means of a check book. And this assurance of safety costs you nothing.

We invite you to place your money with us on checking account. We offer a safe and convenient place of deposit.
