

Clerk Waters Gives Court Resignation

Popular Official and Esteemed Resident Compelled to Make Change Because of Other Matters—Has Served the County Well.

Coming as a complete surprise to the county court and to his many friends as well, was the presentation to that body yesterday afternoon of the resignation of J. A. Waters as county clerk. It seems that while Mr. Waters has had this step in contemplation for some time past, he has not made it known to members of the court or to his closest friends, hence the expression of surprise on all sides when the fact became known. The resignation was received immediately, but the court has taken the resignation under advisement and will not give their decision until they have had time to thoroughly canvass the situation. The resignation of Mr. Waters carried with it no suggestion as to his successor, and just who that may be is now open to question, though it might naturally be expected to fall to Deputy Guy M. Anderson as the logical man for the place.

Mr. Waters has been one of the most popular officials the county has ever had. He has been faithful, courteous, obliging and prompt with all his work, and highly satisfactory to his constituents. Besides this, he has been one of the substantial citizens of the community, a clean, upright man whom the people of the county have been pleased to honor with one term after another in public office, and there is no telling how long he might have remained in the court house to serve the people if his remaining there had been left to them alone.

Just what the plans of Mr. Waters for the future are, or just how soon he expects to leave Heppner, we cannot say at this time. We can say this much, however, that whenever or wherever he goes, and whatever business he may engage in, there will go with him the best wishes of a grateful and appreciative community and hundreds of fast friends, that his future may be pleasant and all his business ventures successful. We shall all regret to say "good-bye" to Joe Waters.

Will Hold Food Sale.

The ladies of St. Patrick's church will hold a food sale in the parlors in I. O. O. F. building on Saturday, the 10th, for the benefit of Heppner public library.

Forest News Notes of The Gurdane District

There is more snow in the mountains than average for this time of year. It is settled and crusts so hard that a man can travel without snowshoes, except in the afternoons of warm days when the crust becomes soft. At the snowstake at the head of Big Butte creek the depth averaged 23 inches and on the head of Ditch creek the snowstake read 35 inches the last day of February.

Ranger Woods talked to the Gurdane school last Friday on forest conservation and the work of a Forest Ranger. Preserved specimens of poisonous plants that are common in the Blue mountains were shown. Death camas attracted most attention.

New Justice of Peace For Hardman District

The county court yesterday appointed G. A. Bleakman as justice of the peace for the Hardman district, vice Jap Walker, resigned. The appointment was upon a petition of the residents of that district, which accompanied the resignation of Mr. Walker, who had received the appointment at the January term of court, but finally decided that he could not undertake the duties of the office. Walker is a cripple, and has been assisted to some extent by the court, and when appointed Justice of the Peace, he was given an allowance of \$20 per month under the Small Claims statute, and this will not go with the appointment to Mr. Bleakman.

On Saturday evening, about the same company of people gathered together at the home of Mr. and Mrs. J. H. A repetition of the good time enjoyed at the Morgan home on Friday evening took place at the Bryson home, after Mr. and Mrs. Bryson recovered from their surprise and enjoyed their former guests. There was music, games and a big feed, and then the presentation of a beautiful set of cut glass, W. O. CECIL NEWS ITEMS

Mac, our weather man, has been acting so queerly with our weather at Ceell this last week that the Mayor made a hurried trip to Heppner for a new weather wand for Mac. Constable John is "a sight for loving eyes to see" for he had to stand guard over Mac till the return of the Mayor and therefore has had no time to shave. He declares all he can get out of Mac is something about weather, groundhog, Notson, Missouri, sorghum, molasses and cornbread, and then a little ditty about Cecil sunshine, chinook and moonshine. The sun is brightly shining on Saturday, March 3rd, and weather is ideal. The moon shines at rights so bright that Mac will be able to wander in the moonlight when his guard is off duty and search, but he will never find moonshine in Ceell, although a car of corn was shipped into Ceell a while ago.

Cash and Carry Store Is Open For Business

The new cash and carry grocery opened up the past week in the middle room of the I. O. O. F. building by L. C. Drake. He is now doing business, and Mr. Drake states to this paper that he is quite well pleased with the reception the people of Heppner have given him. The store presents a bright, clean appearance, as the room had been thoroughly renovated and put in shape, and the stock is all fresh and bright.

"It will be my desire, and my efforts will be largely spent in the direction of holding to Heppner a large amount of trade that is constantly going to outside concerns," was the statement Mr. Drake made to this paper. "I shall sell strictly for cash and make no deliveries, giving the people the benefit of the price I shall charge for my goods."

WHAT WOULD YOU DO

This is not a fairy tale, says Dr. Fred Don D. Stricker, of the Oregon State Board of Health, but suppose you were walking along a railroad track and as you rounded a curve and approached the river, you discovered that the magnificent bridge that once spanned the stream had been destroyed. In a few hours the transcontinental limited, with hundreds of passengers on board would sweep down upon the chasm and plunge headlong into the opening caused by the destruction of the bridge unless you immediately took action to have the train stopped before reaching the river.

Under such circumstances what would you do? Recently a birthday party was given for a certain small son. This party was attended by ten other children all under six years of age. At the party the young boy seemed ill, and immediately after the departure of the guests a physician was called and the child's illness was diagnosed as diphtheria. The parents were distressed to learn that their boy was afflicted with such a serious malady. They were also very much distressed over the fact that ten other children had been exposed to the disease as a result of having attended the party.

Under such distressing circumstances what would you do? In this particular case the father accepted the responsibility of the situation, as any other true man would do, and immediately telephoned the health officer and reported the case. He also reported the names and addresses of the ten children who attended the party; he then telephoned the parents of the ten children and explained to them the circumstances, so that they and the health department might immediately take the necessary precautions to prevent the further spread of the disease.

University Artists Will Compete in Exhibit

University of Oregon, Eugene, Mar. 5.—Prof. Alfred H. Schreff, head of Fine Arts department, and Prof. Virgil Hafen, instructor in the same department in the University of Oregon, will compete in the annual art exhibition of Springville, Utah, March 15 to April 3. The exhibition is one of the most unique in America.

Prof. Schreff, who won first prize in the recent Northwest Artists exhibition in Seattle, will submit a water color, "At the Foot of Black Head, Monhegan Island," and an oil, "Green Trees at Del Monte." Two of Prof. Hafen's works which will be submitted were painted near Eugene. They are, "A Clearing in Autumn," and "A Misty Morning." The third painting is "Afternoon on the Chicago River."

Artists the country over compete in the Springville exhibition. The prize money is offered by the children in the high school and in the few grade schools of the town. Prof. Hafen, himself a native of Utah, won second prize last year. His father, John Hafen, helped to establish the annual competition. "The Buffalo," one of the works of Avard Fairbanks, assistant professor of Fine Arts, who teaches modeling at the university, is included in the Springville art collection.

Springville has been the early home of many of the talented persons, including Cyrus Edwin Dallin, the great American sculptor.

May Be Compelled To Abandon Survey

At the meeting of the county court yesterday, proposals were made to the county court for the survey of the new survey on Heppner-Hardman road, going up Heppner hill.

Much time and expense has already been spent, and a grade coming up to the requirements of the state highway department was at last located. In the locating of the new grade, it will cut through the Dutton and Gemmill places, and to the latter there will be no small amount of damage, though the court is of the opinion after much deliberation on the matter, that the benefits of the proposed road will far outweigh the damages to be done to the body as we were able to gather from their discussion of the proposition on Wednesday, and for the present, at least, they are inclined to abandon the proposition entirely and look to another way of getting out on Heppner Flat.

However, as the matter stands at present, in its process of adjustment as to damages, the court seems to be at a standstill, as the claims presented will aggregate a sum of nearly \$3000, and is far more than they are willing to pay. At least this is the contention of the body as we were able to gather from their discussion of the proposition on Wednesday, and for the present, at least, they are inclined to abandon the proposition entirely and look to another way of getting out on Heppner Flat.

Should the court decide on this procedure, a new survey will be run, entirely, the court intimating that they would reach Heppner flat by a route going up the other side of the hill. Of course, they are not fully decided, but they are quite well advised that just as good a grade can be secured and the proposition has the appearance of being far less expensive.

The people of Heppner, and those of the country who have to get into town are anxious to have this matter settled, that the work of building the new grade may proceed and be completed in time to handle the coming crop.

Pat Connell Sells Ewes.

During the past week, Pat Connell, sheepman of Rhea creek, disposed of a band of 2-year-old ewes to J. A. Frank of Portland for \$225 for the ewes and \$5 per head for the lambs, delivery after shearing. Mr. Connell expects the ewes to shear on an average of 12 pounds apiece, and when the lambs are all footed up it will bring the price of the ewes to around \$20. There has been no activity in the sheep or wool market at this point so far, and this is the only sale that has been recorded. It is setting a good price for the season.

TO GIVE MASK BALL

The Heppner Lodge of Elks will give a mask ball on the evening of March 17th, the proceeds to go to Heppner Library. The dance will be given at Elks Temple and will be a masquerade affair for Elks and their ladies only. This is the first of several benefit entertainments for the library, many others being contemplated by other organizations of the town.

Rufus Farnes, extensive farmer of the Gooseberry section was a visitor in Heppner Saturday. He has been somewhat under the weather of late suffering from an infection on his neck that interfered with the operation of swallowing. He had his trouble looked after by a physician here and was feeling better when he left town.

Reports from Hot Lake are to the effect that Sheriff McDuffee is rapidly improving from the effects of his recent operation. He is able to be sitting up in bed and doubtless will be released from the hospital and ready to return home in another couple of weeks. MEN ARE HELD ON MOONSHINE CHARGE

Otto and Ivan Leathers of Hardman and Ora Hawk and Bill Wehrli of Condon Taken With Still Near Parkers Mill Last Sunday.

Deputy Sheriff Childsey, accompanied by Paul McDuffee, assistant in the sheriff's office, and Dan Kerfoot and Harry Barker, two federal officers from Portland, proceeded to a point on one of the tributaries of Rock creek, about six miles southwest of Parkers Mill on Saturday night, and early Sunday morning took into custody Otto and Ivan Leathers, of Hardman, and Ora Hawk and Bill Wehrli of Condon, on a moonshine charge.

The men were occupying a small cabin and had their still and vat set up in another cabin adjoining. The outfit consisted of a 60-gallon still and a vat containing about 700 pounds of corn meal mash, and the run was about ready to be completed. The outfit was destroyed by the officers, a sample of the product taken in charge, and the trip undertaken back to Hardman where the car had been left.

When arrested, Otto Leathers assumed all responsibility for the liquor making outfit, claiming to be the sole owner and manufacturer of the product of Condon. He claimed to have hunted upon the place while out stumped for deer, and had only stopped there for the night. However, there is a suspicion on the part of the officers that they had had a tip of their coming, as the men were eating a very early breakfast and evidently preparing to make a hurried getaway when the officers came in on them. No resistance was offered by the officers, and they proceeded with their men out to where the car was parked. While getting the car under motion, Otto Leathers made his getaway, using a horse that one of the men had been using, and he is still at large.

The others were brought to town and lodged in jail, and on Monday friends came to their assistance and pay bond for their release. A trial of the case was begun on Wednesday before a jury in Justice Corbett's court, which was postponed early yesterday afternoon until 1:30 today to bring in some material witnesses.
