

brand their goods as the buyer will know the amount of pure wool and the amount of shoddy in each garment. This is of more importance to the man in the city than to the man who sells the wool.

The Farm Bloc believes that a foreign market for our surplus farm products is vital to the farmer's prosperity, and we are doing our best to secure legislation that will aid in finding buyers for our surplus foodstuffs in Europe. Something must be done to make a market for American products. Fifteen per cent of our farm output must find a market outside of the United States if we are to save our farm industry and properly maintain our own food supply.

**Can Now Pay Insurance Premiums at Portland**

War risk insurance service has been established in connection with the United States Veterans' Bureau in Portland, bureau officials have announced. Miss Metta Walker has been named insurance cashier. Instead of sending premium payment to Washington, D. C., war veterans of Oregon are entitled to take advantage of the branch office service.

Loans on policies and other matters relative to government insurance are also handled at the Portland office in the Myler building. There are several thousand ex-service people in this sub-district carrying war insurance. Those who have allowed

their war risk policies to lapse are urged to re-instate their insurance. If in good health, only two months back premiums need be paid.

Mr. and Mrs. Roy Campbell of Social Ridge spent a few hours in the city on Saturday. During the good weather in January, Mr. Campbell was laid up with injuries he received to his foot and ankle when his plow team acted up, and he failed to get a lot of plowing done that he contemplated. He states that crops in his locality never appeared in better condition at this time of year, and the result should be an abundant harvest the coming fall.

**SENATOR CAPPER SAYS PROPER BALANCE OF AGRICULTURE IS KEYNOTE TO PROSPERITY**

Leader of Farm Bloc in Congress Tells Why Farmers Must Get Economic Justice Before Any Other Industry Can Reasonably Expect "Good Times."

Written Specially for The Gazette-Times By ARTHUR CAPPER, U. S. Senator from Kansas

WASHINGTON, MARCH 7.—For many years the United States Government has been content to let agriculture take care of itself. Farmers have gone on producing under many handicaps that might easily have been removed. The result has been disaster that in the last two years has overtaken the farmers, caused billions of dollars in losses by shrinkage in the value of farm products, and has been seriously detrimental to business throughout the land.

The need of a constructive national program looking to the rehabilitation of agriculture is regarded by the Farm Bloc as imperative. It is now generally accepted that prosperity must come first to the farms before it can prevail in the city.

Farming is the only business left that buys at retail and sells at wholesale; that pays what is asked when it buys and accepts what is offered when it sells. The farmer remains merely a producer of the necessities of human life.

He gets but one-third of every dollar paid by the consumer for the products of the farm. Our expensive, antiquated and inefficient marketing system takes the other two-thirds.

The enactment of constructive, wholesome, progressive legislation, which will bring about better conditions agriculturally is the mission of the Farm Bloc in Congress. As a member of that body I think I may say with perfect candor that there is nothing dark, sinister, nor forbidding in its makeup or its purposes. It is not political. It is for things rather than against them, for the city man as well as the country man. It is working for honest industry, honest finance, honest commerce, honest agriculture, honest labor, and wishes to cooperate with all of these.

**Agriculture Basis of All Prosperity.** The charge has been made by metropolitan newspapers of the East that the Farm Bloc seeks class legislation. That its aim is to profit agriculture, no matter at what cost to other industry. The men who make that charge lost sight of the fundamental fact that agriculture is basic, that what contributes to its prosperity and well being unquestionably benefits all industry. When agriculture is profitable the nation is prosperous.

In legislation the farmer is not entitled to any more consideration than any other class; but he is entitled to just as much.

The Farm Bloc does not recognize the right of any class to have an advantage at the expense of another group or of the population as a whole.

The Farm Bloc believes that the best way to mend the present situation and provide for the future is to increase the producer's profit by shortening the road to market. One way to accomplish this is through cooperative marketing.

The recently published report of the Federal Trade Commission shows that the gambling transactions in grain amount some years to more than twenty billion bushels, or three times all the grain produced in the world.

The public has made up its mind that the Chicago Board of Trade's poker playing, using the country's food supply as the stakes, is the most wanton, most wicked, most destructive game of chance in the world, and it is now proposing to stop it by the Capper-Tiehnner law, which places grain exchanges under federal control.

The Farm Bloc measure which had strongest opposition was the amendment to the Federal Reserve Act, providing that agriculture should be represented on the Federal Reserve Board along with other industry,

an unwarrantable interpretation of the Transportation Act by the Interstate Commerce Commission. The Farm Bloc is giving its support to the Truth-in-Fabrics bill to compel all makers of clothing to

**A Small Investment that is Conservative, Safe and Profitable**

A sales corporation functioning for one of America's oldest and best known manufacturers, offers a legitimate, safe, and exceptionally profitable opportunity to a few small investors (\$100 to \$500) in this district.

**A Guaranteed 35 Per Cent Merchandise Premium AT ONCE!**

This in addition to the substantial dividends your investment calls for. Here is a real opportunity for the first few lucky folks that answer this offer! The 35 per cent merchandise premium is ready for immediate distribution. You make a profit at once!

Practical Financing Is Pressing Problem. The Farm Bloc still has many important things to accomplish. One of them is a credit plan which will be of speedy and immense value to the farming industry. The Bloc is endeavoring to have enacted into law a system of one, two and three-year credit for farmers, based on farm products as collateral.

We cannot have any different system of orderly marketing until we have a different system of financing. We cannot build up a system of same marketing until we have a system of credits peculiarly adapted to the needs of agriculture.

Agriculture is at the mercy of those who control credit, and many who exert that control are not particularly in sympathy with agriculture. Thousands of farmers and stockmen have been ruined in the past two or three years by this lack of credit.

The agricultural credit plan before this Congress, based on warehouse receipts as collateral security, will make more money, at lower interest rates, available for financing the slow turnover of the farms, which will give the farmer another opportunity to go ahead with his work with a fair chance to make good. If that is accomplished it will mean cheaper food, and a return of good times.

**Lower Freight Rates Vital to All Classes.** The Farm Bloc believes railway freight rates are too high and must come down. It is using all the influence it can command to bring this about. The city is just as vitally interested in lessening cost of carrying food supplies.

One of the measures endorsed by the Bloc would restore to state railway commissions much of the power taken from them by what I believe is

**Odd Fellows Attention**

All Odd Fellows in Morrow County are invited to attend the last "get-together" meeting for the season, with Willow Lodge

WEDNESDAY, MARCH 14th 7:30 p. m.
